Standards-based School Mathematics Curricula Sharon L. Senk, Denisse R. Thompson, 2020-07-24 The Curriculum and Evaluation Standards for School Mathematics published by the National Council of Teachers of Mathematics in 1989 set forth a broad vision of mathematical content and pedagogy for grades K 12 in the United States These Standards prompted the development of Standards based mathematics curricula What features characterize Standards based curricula How well do such curricula work To answer these questions the editors invited researchers who had investigated the implementation of 12 different Standards based mathematics curricula to describe the effects of these curricula on students learning and achievement and to provide evidence for any claims they made In particular authors were asked to identify content on which performance of students using Standards based materials differed from that of students using more traditional materials and content on which performance of these two groups of students was virtually identical Additionally four scholars not involved with the development of any of the materials were invited to write critical commentaries on the work reported in the other chapters Section I of Standards Based School Mathematics Curricula provides a historical background to place the current curriculum reform efforts in perspective a

summary of recent recommendations to reform school mathematics and a discussion of issues that arise when conducting research on student outcomes Sections II III and IV are devoted to research on mathematics curriculum projects for elementary middle and high schools respectively The final section is a commentary by Jeremy Kilpatrick Regents Professor of Mathematics Education at the University of Georgia on the research reported in this book It provides a historical perspective on the use of research to guide mathematics curriculum reform in schools and makes additional recommendations for further research In addition to the references provided at the end of each chapter other references about the Standards based curriculum projects are provided at the end of the book This volume is a valuable resource for all participants in discussions about school mathematics curricula including professors and graduate students interested in mathematics education curriculum development program evaluation or the history of education educational policy makers teachers parents principals and other school administrators The editors hope that the large body of empirical evidence and the thoughtful discussion of educational values found in this book will enable readers to engage in informed civil discourse about the goals and methods of school mathematics curricula and related research

Teaching with Empathy Lisa Westman,2021-08-27

What does it mean to teach with empathy Whether it s planning and delivering instruction or just interacting with others throughout the day every action you take is an opportunity to demonstrate empathy toward your students your colleagues and yourself I m already empathetic to my students and their stories you may be thinking But a teacher s actions even unintentional and especially uninformed can be implicitly shaming compounding any disconnect students may already feel and undermining your efforts to create a safe and positive classroom environment Rather than try to identify who needs empathy start with the premise that all learners deserve empathy because it is a prerequisite for learning and growth In Teaching with Empathy Lisa Westman explores three types of empathy affective cognitive and behavioral and clarifies how they intertwine with curriculum learning environment equity practices instruction and assessment and grading and reporting Through her own experience as an instructional coach Westman shares tips and tools real world classroom examples powerful stories and even a bit of herself as she guides you to a better understanding of yourself and others Ultimately you ll learn what s possible when you let compassion and acceptance inform all aspects of your daily practice
