attempt to understand the dynamic interactions between gothic form and ideology this volume focuses on a strong formal
feature of the American gothic global ambiguity and examines the important cultural work it performs in the nineteenth
century history of the genre The author defines global ambiguity as occurring in texts whose internal evidence supports
equally plausible and yet mutually exclusive interpretations Combining insights from narrative theory and cultural studies
she investigates the narrative origin of global ambiguity and the ways in which it produces culturally meaningful readings
Canonical works and obscure ones from American gothic authors such as Charles Brockden Brown Edgar Allan Poe
Nathaniel Hawthorne Herman Melville Louisa May Alcott and Henry James are reexamined This study reveals that the
nineteenth century American gothicists developed the gothic into an aesthetically sophisticated mode that engaged intensely
with the pressing problems of American society including moral citizenship slavery and the social status of women and
reimagined social realities in politically constructive manners Literary scholars students and general readers interested in
gothic literature American literature or narrative theory will find this book informative and inspiring The Richard C.

reason Slavko Kacunko,2021-06-02 After Taste is an inquiry into a field of study dedicated to the reconsideration
reconstruction and rehabilitation of the concept of Taste Taste is the category whose systematic historical and actual
dimensions have traditionally been located in a variety of disciplines The actuality and potential of the study is based on a
variety of collected facts from readings and experiences which materialize in the following features One concept figurative
Taste two thinking traditions analytic and synthetic continental and three interrelated dimensions systematic historic and
actual are presented in three volumes As such the study presents a salient comprehensive companion for wider readership of
humanities approaching conceptions of Taste for the first time Moreover After Taste is intended for anyone who hopes to
make a further contribution to the subject Since its appearance and apparently short triumph some 250 years ago the

concept of non literary Taste remained the linchpin of aesthetic theory and practice but also a category outreaching aesthetics Taste as the personal unity of the production theory and criticism of art and literature which was still largely taken as a given in the eighteenth century has meanwhile given way to a highly differentiated art world in which aesthetic discourse is placed in such a way that it can seemingly no longer have a conceptual or linguistic effect on general opinion making The critical role of Taste judges ratings and rankings in the feuilleton politics and social media on the one hand and the responding search for new canons on the other have had a huge impact on the academic and popular discourse today However Taste s impact on society is in fact all encompassing and yet without getting even close to the magnetic North of the academic compass After Taste fills the gaps of systematic research by a comprehensive tracing of the emergence of the doctrines discourses and disciplinary dimensions of Taste up to the peak of its systematic and historical trajectory in the eighteenth century and onwards into the present day The guiding goal is a post disciplinary rehabilitation of the contested category as a preparation for its productive usage in emerging academic and popular contexts Three intertwined research hypotheses form the guiding goal of an overall study of the agencies of Taste its institutionalizations and expert cultures The 1 first part provides a missing systematic perspective on the concept of Taste as a key factor for understanding the human faculties value theories and practices of valuating The 2 second part traces the events at the peak of Taste s systematic and historical trajectories up until the late eighteenth century and verifies the historiographical hypothesis about the instrumentality of Taste for the production reception and distribution of culture The 3 third part reconstructs the major moments in which the contested concept of Taste experiences its post disciplinary rehabilitation in preparation for its future productive usage in the academic and popular discourses and practices It shows how the category of Taste became the foundation legitimation and the catalyst for the emerging division of labour faculties and disciplines confirming the hypothesis of the immense impact and actuality of Taste in the contemporary world The Cambridge History of Literary Criticism: Volume 9, Twentieth-Century Historical, Philosophical and Psychological Perspectives Christa Knellwolf, Christopher Norris, Jessica Osborn, 1989 This ninth volume in The Cambridge History of Literary Criticism presents a wide ranging survey of developments in literary criticism and theory during the last century Drawing on the combined expertise of a large team of specialist scholars it offers an authoritative account of the various movements of thought that have made the late twentieth century such a richly productive period in the history of criticism The aim has been to cover developments which have had greatest impact on the academic study of literature along with background chapters that place those movements in a broader intellectual national and socio cultural perspective In comparison with Volumes Seven and Eight also devoted to twentieth century developments there is marked emphasis on the rethinking of historical and philosophical approaches which have emerged especially during the past two decades as among the most challenging areas of debate **Catalog of Copyright Entries** ,1914 Catalog of Copyright Entries Library of Congress. Gothic Architecture and Sexuality in the Circle of Horace Walpole Matthew M. Reeve,2020-07-15 Gothic

Architecture and Sexuality in the Circle of Horace Walpole shows that the Gothic style in architecture and the decorative arts and the tradition of medievalist research associated with Horace Walpole 1717 1797 and his circle cannot be understood independently of their own homoerotic culture Centered around Walpole s Gothic villa at Strawberry Hill in Twickenham Walpole and his Strawberry Committee of male friends designers and dilettantes invigorated an extraordinary new mode of Gothic design and disseminated it in their own commissions at Old Windsor and Donnington Grove in Berkshire Lee Priory in Kent the Wyne in Hampshire and other sites Matthew M Reeve argues that the new third sex of homoerotically inclined men and the new modern styles that they promoted including the Gothic style and chinoiserie were interrelated movements that shaped English modernity The Gothic style offered the possibility of an alternate aesthetic and gendered order a queer reversal of the dominant Palladian style of the period Many of the houses built by Walpole and his circle were understood by commentators to be manifestations of a new queer aesthetic and in describing them they offered the earliest critiques of what would be called a queer architecture Exposing the role of sexual coteries in the shaping of eighteenth century English architecture this book offers a profound and eloquent revision to our understanding of the origins of the Gothic Revival and to medievalism itself It will be welcomed by architectural historians as well as scholars of medievalism and specialists in queer studies Modernity and the Text Andreas Huyssen,David Bathrick,1989-09-06 The study of Austrian and German

modernist literature has a long and venerable history in this country There have been no attempts yet however to reassess German and Austrian literary modernism in light of current discussion of modernity and postmodernity Addressing a set of historical and theoretical questions central to current reevaluations of modernism this volume presents American readers with a state of the art account of German modernism studies in the eighties Essays by Jochen Schulte Sasse Russell A Berman Peter Uwe Hohendahl Judith Ryan Mark Anderson Klaus R Scherpe Bidy Martin Klaus L Berghahn and Acbar Abbas center around German and Austrian literary and philosophical prose of the early twentieth century texts by well known authors Kafka Rilke Musil Doblin Benjamin Benn and Junger and less well known ones Franz Jung Carl Einstein Ernst Bloch Lou Andreas Salome are examined Particular attention is paid to the processes and strategies by which certain experiences of modern life are translated into modern aesthetic forms The unique contribution of this volume is that it combines theory with an attempt to reintroduce an historical and contextual dimension The authors believe that their revisions of Ausrian and German modernism will themselves be informed by a new set of questions pertinent to the modernist debate
