Tyr Histoire Topographie Fouilles:

Tyr Maurice H. Chéhab, 1960 *The Archaeology of Death in Roman Syria* Lidewijde de Jong, 2017-07-20 In the first centuries of the Common Era an eclectic collection of plain and embellished underground and aboveground tombs filled the cemeteries of the Roman province of Syria Its inhabitants used rituals of commemoration to express messages about their local identity family and social position while simultaneously ensuring that the deceased was given proper burial rites In this book Lidewijde de Jong investigates these customs and the belief systems that governed the choices made in the commemoration of Syrian men women and children Presenting the first all inclusive overview of the archaeology of death in Roman Syria this book combines spatial analysis of cemeteries with the study of funerary architecture decoration and grave goods as well as information about the deceased provided by sculptural epigraphic and osteological sources It sheds a new light on life and death in Syria and offers a novel way of understanding provincial culture in the Roman Empire

Foundation Myths in Ancient Societies Naoise Mac Sweeney, 2015 Throughout the ancient world origin stories were told across the ancient world in many different ways through poetry prose monumental and decorative arts and performance in civic and religious rituals Foundation myths particularly those about the beginnings of cities and societies played an important role in the dynamics of identity construction and in the negotiation of diplomatic relationships between communities Yet many ancient communities had not one but several foundation myths offering alternative visions and interpretations of their collective origins Seeking to explain this plurality *Foundation Myths in Ancient Societies* explores origin stories from a range of classical and ancient societies covering both a broad chronological span from Greek colonies to the high Roman empire and a wide geographical area from the central Mediterranean to central Asia Contributors explore the reasons several different sometimes contradictory myths might coexist or even coevolve Collectively the chapters suggest that the ambiguity and dissonance of multiple foundation myths can sometimes be more meaningful than a single coherent origin narrative *Foundation Myths in Ancient Societies* argues for a both and approach to foundation myths laying a framework for understanding them in dialogue with each other and within a wider mythic context as part of a wider discourse of origins Contributors Lieve Donnellan Alfred Hirt Naoise Mac Sweeney Rachel Mairs Irad Malkin Daniel Ogden Robin Osborne Michael Squire Susanne Turner *Origins of the Colonnaded Streets in the Cities of the Roman East* Ross Burns, 2017-06-02 The colonnaded axes define the visitor's experience of many of the great cities of the Roman East How did this extraordinarily bold tool of urban planning evolve The street instead of remaining a mundane passage a convenient means of passing from one place to another was in the course of little more than a century transformed in the Eastern provinces into a monumental landscape which could in one sweeping vision encompass the entire city The colonnaded axes became the touchstone by which cities competed for status in the Eastern Empire Though adopted as a sign of cities prosperity under the Pax Romana they were not particularly Roman in their origin Rather they reflected the inventiveness

fertility of ideas and the dynamic role of civic patronage in the Eastern provinces in the first two centuries under Rome This study will concentrate on the convergence of ideas behind these great avenues examining over fifty sites in an attempt to work out the sequence in which ideas developed across a variety of regions from North Africa around to Asia Minor It will look at the phenomenon in the context of the consolidation of Roman rule *The Phoenicians and the West* Maria Eugenia Aubet, 2001-09-06 Between the eighth and sixth centuries BC the Phoenicians established the first trading system in the Mediterranean basin from their homeland in what is now Lebanon to colonies in Cyprus Tunisia Sicily Sardinia and southern Spain The Phoenician state was able to maintain its independence despite the territorial expansion of the Assyrians in return for tribute provided by its western colonies Archaeological research over the past decades and still ongoing has transformed our understanding of these colonies and their relationship to local communities This updated version of Maria Eugenia Aubet's highly praised book *The Phoenicians and the West* originally published in English in 1993 incorporates more recent research findings an expanded bibliography and an appendix on radiometric dating It will be welcomed by scholars and students of Mediterranean history and archaeology and anyone interested in early trading systems **Nomads of the Mediterranean: Trade and Contact in the Bronze and Iron Ages** Ayelet Gilboa, Assaf Yasur-Landau, 2020-09-07 Three millennia of cross Mediterranean bonds are revealed by the 18 expert summaries in this book from the dawn of the Bronze Age to the budding of Hellenization An international team of acclaimed specialists in their fields archaeologists historians geomorphologists and metallurgists shed light on a plethora of aspects associated with travelling this age old sea and its periphery environmental factors the formation of harbors gateways commodities the crucial role of metals cultural impact and the way to interpret the agents such as Canaanites Sea Peoples Phoenicians and pirates The book will engage any student of the Old World in the 3000 years before the Common Era *American Journal of Archaeology*, 2010
