[The Crisis of the Middle-Class Constitution](#) Ganesh Sitaraman, 2018-02-06 In this original provocative contribution to the debate over economic inequality Ganesh Sitaraman argues that a strong and sizable middle class is a prerequisite for America's constitutional system For most of Western history Sitaraman argues constitutional thinkers assumed economic inequality was inevitable and inescapable and they designed governments to prevent class divisions from spilling over into class warfare The American Constitution is different Compared to Europe and the ancient world America was a society of almost unprecedented economic equality and the founding generation saw this equality as essential for the preservation of America's republic Over the next two centuries

generations of Americans fought to sustain the economic preconditions for our constitutional system But today with economic and political inequality on the rise Sitaraman says Americans face a choice Will we accept rising economic inequality and risk oligarchy or will we rebuild the middle class and reclaim our republic The Crisis of the Middle Class Constitution is a tour de force of history philosophy law and politics It makes a compelling case that inequality is more than just a moral or economic problem it threatens the very core of our constitutional system
