Improving Gender Equity in Sports Coaching Leanne Norman,2021-08-12 The sport coaching profession has historically been and continues to be a White male dominated occupation and this remains a global issue This imbalance persists despite an improvement in wider social attitudes and legislation towards equality and diversity within many societies and despite the action by sporting organisations and national governing bodies Within the research literature the underrepresentation of women in sport coaching is a well documented issue with a number of research studies highlighting the experiences and impact of being in the minority for women coaches The issue of gender inequity in sport coaching is a long standing one and shows little sign of changing significantly anytime soon Therefore a new approach is needed one that draws on the knowledge and evidence we have to create actionable sustainable deep rooting interventions that challenge the issue of gender equity at its very core The overall purpose of Improving Gender Equity in Sports Coaching is to take an action or forward thinking approach about what works or could work to improve the recruitment development or promotion of women sport coaches The book brings together a global group of esteemed scholars working in this subject area In this book we have brought together not just the insight but also a collection of strategies and recommendations as to how this research could be or has been utilised to make our sport coaching envrionment places where all coaches feel as though they belong As such this ground breaking book is a must read not just for students and researchers of gender equity in sport but also for policy and decision makers working in sport

Every Boy's Dream Chris Green, 2009-08-03 Short listed for the Best Football Book in the 2010 British Sport Book Awards The way Britain develops its top football talent is a hot topic of debate The failure of all four of the UK's national teams to reach the 2008 European Championships and the ever increasing reliance of England's top clubs on foreign talent underlines an undisputable fact that Britain now lags well behind the world's top countries in producing the best footballers despite having the wealthiest league in the world and untold riches at the game's disposal Every Boy's Dream England's Football Future on the Line investigates why despite unprecedented expenditure on a huge overhaul of youth development in the past decade British football continues to fail to nurture top class football talent With some 10 000 boys in the system at any time and less than one per cent of those boys likely to make it as professional footballers there is a real need for a long hard look at our domestic football development system Who funds the system How are the boys recruited Who is responsible for their coaching and what qualifications do they have for the job Who looks after their welfare ensuring they are enjoying the sport and still keeping up with their schooling while under the clubs stewardship What happens when the boys don't make the cut and are released by the clubs Every Boy's Dream does not pull any punches It lays the blame at the doors of the authorities in charge of youth football But rather than just listing the faults of system which are many as the hard hitting real life examples demonstrate it provides tales of inspiration and a blueprint for the future of the national game It is the most thorough book ever written about football youth development and cracks through the age old veneer of perceived wisdom that has stifled debate on the subject

Sport Management Education Mike Rayner, Tom Webb, 2022-01-27 This book examines a range of contemporary issues related to the global delivery of sport management education At a time of unprecedented change in Higher Education the book looks closely at how sport management education can and should deliver positive outcomes in sport business and management outside of the university The book brings together sport management academics from around the globe and examines how their practice in education has been shaped by the cultural religious and political context of the national regions in which they work It aims to identify core principles in sport management education and implementation and discusses the key aspects of sport management programmes from curriculum design and pedagogy to issues around unified accreditation and the needs of employers It also focuses in on what sport management education might look like in an increasingly digital post COVID world This is essential reading for all sport management educators and anybody working in sport related professions looking to understand global educational platforms and their implications for policy at local regional national and international level
