UFOs--God's Chariots? Ted Peters,1977 *Freaky Truths About God & Evolution* Harold Stewart,2014-09-12

Theologians philosophers and scientists all have differing views of the world but what is the real abiding reality Most are afraid to cross the streams so to speak of these distinct disciplines but suppose we could gather together a group of these adherents to discuss the questions that people consider to taboo to talk about in public like the relationship of faith fact or fantasy Where would that conversation its tangents or derivatives lead This book attempts to answer those questions of the mind that every rational person has at some point in their life To do that we must engage in discussions about reality absurdity perception Truth consciousness as well as Godel s preverbal incompleteness While discussing the origin of the cosmos the topic will migrate from Transformers and UFO s to how multidimensionality could be related to miracles The theme of the book examines the freaky truths of the relationship of these divergent disciplines and beliefs As such the main characters will be the Sovereign of the Universe and His history verses that of the scientific and philosophical communities In answering the Problem of Evil alone worth the cost we invariably meet the Hostis humani generis the enemy of humanity Satan Hopefully a rocking good time will be had by everyone who ventures to buy the book P S Don t be surprised if you find a few spooky parts as well

The God Hypothesis Joe Lewels,1997 The God Hypothesis offers a bold look at the alien abduction phenomena and challenges not only commonly accepted UFO theories but also the modern theological and scientific consensus views of reality By thoroughly examining evidence from various scientific disciplines Dr Lewels presents a compelling case for the reality of UFOs and their connection to the major religions of the world In so doing he causes us to re examine our own spiritual and religious beliefs and to see the Bible through modern scientific eyes a view that demystifies

the ancient texts and reveals the true origins of the human race and its proper place in the hierarchy of intelligent life in the universe Lewels sees the UFO enigma as part of the process of human evolution in the physical sense as well as in the spiritual He proposes a solution that crosses the line between the physical material world and that spiritual dimension where quantum physics tells us that time and space cease to exist
