Uganda Since Independence A Story Of Unfulfilled Hopes:

Uganda Since Independence Phares Mukasa Mutibwa, 1992 A Story of Unfulfilled Hopes An analysis of Uganda's history before independence and an analysis of the Museveni years *Uganda Since the Seventies* Godfrey Mwakikagile, 2013-04 This is a political study of Uganda since the seventies It is also a work of comparative analysis of the leaders who have been the most dominant political figures in the country during the post colonial era The leaders are Dr Milton Obote who led the country to independence in 1962 and who returned to power in 1980 after Idi Amin overthrew him in 1971 Idi Amin who was Uganda's military ruler for eight years until 1979 and Yoweri Museveni who waged guerrilla warfare to seize power in 1986 and who transformed himself into a civilian ruler Museveni became the longest ruling Ugandan leader and one of the longest serving in Africa's post colonial history The work also looks at the successes and failures of the three leaders across the spectrum and how they have shaped Uganda's destiny No other Ugandan leaders have had as much impact on the country as they have had The book is written in the context of post colonial analysis in an attempt to provide some solutions to the problems which have dogged the country since independence **Robert Serumaga and the Golden Age of Uganda's**

Theatre (1968-1978) George Bwanika Seremba, 2023-11-14 This book provides a meticulous examination of the work of playwright Robert Serumaga and the Golden Age of Uganda's theatre 1968-1978 It considers the question of individualism or its extreme form solipsism on the one hand and activism or a social conscience on the other Theatrical innovation is another key concern It deconstructs the ruling histories historiography and performance analysis of the time as irremediably tainted by a ferocious post independence nation statism This is a study of a theatre of commitment dissidence resistance resilience struggle signification and survival a theatre born under the unrelenting glare of severe scorching censorship and incarceration For the very first time Serumaga's work is examined in its entirety and afforded the room complexity and scope it requires and deserves For the very first time too scholars of the Golden Age of Uganda's theatre will have to make no more than a single stop in their search for what were hitherto scattered tidbits and sources of Uganda's theatre history

Constitutional and Political History of Uganda: From 1894 to Present W Kanyeihamba, 2010-12-20 If the study of Uganda's politics and history is to be raised to a higher level of intellectual excellence the past has indeed to be studied so must the present and even the Future must be studied But and it is a strong But all this must be done with a greater degree of level headedness with more honesty and with greater objectivity Justice George Kanyeihamba's book is a welcome effort toward that end His treatment comprises a mix of critical analyses of a Past spanning the years from the beginning of the Declaration of the Uganda Protectorate in 1894 to the exit of Obote and the end of his Second Regime of the 1980-1985 up to the Present The author is an expert and specialist in constitutional matters and a native of Uganda who has lived through some of the crises and upheavals he has written about here **When Rebels Win** Kai M. Thaler, 2025-12-15 In *When Rebels Win* Kai M Thaler explores why victorious rebel groups govern in strikingly different ways Many assume civil wars destroy

state capacity In the Democratic Republic of Congo and Libya for instance victorious rebels perpetuated state weaknesses Yet elsewhere like in China and Rwanda they built strong capable states Kai M Thaler argues that to explain post victory governance we must look at rebel group ideologies the ideas and goals around which a group is formed Where a group s ideology falls along two key dimensions programmatic versus opportunistic inclusive versus exclusive influences how it governs Programmatic inclusive groups seek to reach across territory and work with populations to implement goals building the state to try to transform society Opportunistic exclusive groups by contrast prioritize personalized power and private wealth neglecting statebuilding With rich evidence from Africa Latin America and Asia When Rebels Win rethinks accounts of rebel behavior and post war governance emphasizing factors such as resource availability or international intervention Wartime rebel ideology Thaler demonstrates is not just cheap talk and civil war can counterintuitively lead to stronger states

Handbook of HIV Prevention John L. Peterson, Ralph J. DiClemente, 2012-12-06 In the nearly two decades since the HIV pandemic began the rapid expansion of behavioral research on HIV prevention has prompted a crucial need for a sourcebook more advanced than an introductory textbook and broader and more readily accessible than a review periodical The Handbook of HIV Prevention is intended as the first attempt to meet this need The current state of affairs led us to edit a book that would represent the major areas of HIV behavioral research at a level appropriate for graduate students and experienced researchers in public health medicine nursing education and the social and behavioral sciences In addition we expect that the handbook will be useful in advanced undergraduate courses and as a reference book for health care professionals Our plans to assemble the Handbook began in the fall of 1996 when we prepared a tentative outline of chapters and invited a large number of distinguished researchers in the field to be the authors of various chapters We received an overwhelmingly favorable response from potential authors to our letters of invitation After considerable effort by both the contributors and the editors the volume was completed in 1999 when all chapters went to press **The Moon in Your Sky**

Kate Saller, 2014-07-11 The Moon in Your Sky An Immigrant s Journey Home brings to life the remarkable story of Annah Emuge Growing up in Uganda under the rule of Idi Amin Annah and her peers faced hardships few of us can imagine living with the constant threat of soldiers breaking into their homes raiding and pillaging as they pleased Annah found strength in her relationship with her mother Esther and in her relationship with God Esther encouraged Annah to educate herself and go out into the world Annah s faith led her to James an evangelical preacher who became her husband The two left Uganda for the United States when James received a scholarship to study at Ohio University only to be stranded there with two small children when the Ugandan government collapsed The loss of his dreams along with the realities of American life for African immigrants proved to be more than James could withstand and he succumbed to alcoholism How Annah overcame the trials she endured in the land she had thought would hold only promise for her and her family is a riveting story of perseverance that will inspire any reader Annah s sorrows give depth to the great joys she experiences as she not only survives but

triumphs working to make both of her countries better places *Displacing Human Rights* Adam Branch, 2011-08-22 Today Western intervention is a ubiquitous feature of violent conflict in Africa Humanitarian aid agencies community peacebuilders microcredit promoters children s rights activists the World Bank the International Criminal Court the U S military and numerous others have involved themselves in African conflicts all claiming to bring peace and human rights to situations where they are desperately needed However according to Adam Branch Western intervention is not the solution to violence in Africa but instead can be a major part of the problem often undermining human rights and even prolonging war and intensifying anti civilian violence Based on an extended case study of Western intervention into northern Uganda s twenty year civil war and drawing on Branch s own extensive research and human rights activism there this book lays bare the reductive understandings motivating Western intervention in Africa the inadequate tools it insists on employing its refusal to be accountable to African citizenries and most important its counterproductive consequences for peace human rights and justice In short Branch demonstrates how Western interventions undermine the efforts Africans themselves are undertaking to end violence in their own communities The book does not end with critique however Motivated by a commitment to global justice it proposes concrete changes for Western humanitarian peacebuilding and justice interventions as well as a new normative framework for re orienting the Western approach to violent conflict in Africa around a practice of genuine solidarity A key strength of the book is its ability to analyse and reveal common patterns in seemingly disparate and complex empirical instances of counterproductive human rights interventions in Uganda T his book should be required reading for all those working on various themes in Africa today The Journal of Modern African Studies This book provides a pessimistic but much needed critique of the history of foreign intervention in Northern Uganda Responsible discussions of foreign policy must consider the ways in which great power politics can hurt people in the name of protection this book is an excellent place to start that discussion The Christian Science Monitor *Political Handbook of the World 2016-2017* Tom Lansford, 2017-03-31 Published since 1928 the Political Handbook of the World provides timely thorough and accurate political information with more in depth coverage of current political controversies and political parties than any other reference guide The updated 2016 2017 Edition continues this legacy as the most authoritative source for finding complete facts and analysis on each country s governmental and political makeup Political science and international relations scholars have revised this edition and made understanding complex foreign affairs and political situations easy and accessible With more than 200 entries on countries and territories throughout the world housed in one place these volumes are renowned for their extensive coverage of all major and minor political parties and groups in each political system They also provide names of key ambassadors and international memberships of each country plus detailed profiles of more than 30 intergovernmental organizations and United Nations agencies This comprehensive update will include coverage of current events issues crises and controversies from the course of the last two years including The closely watched U S presidential election The effect of

the Brexit referendum and installment of a new British prime minister The extensive investigation and subsequent impeachment of Brazil's president The far reaching impact of the Panama Papers scandal Changes in U S Cuba diplomatic relations and the reopening of their embassies The unconstitutional declaration of Gambia as an Islamic State Sentiments about the migrant and refugee crisis across Europe and the influence on policy Also the new For Further Reference feature included for every country entry directs readers to additional resources to continue their research **The Rwenzururu**

Movement in Uganda Martin Doornbos, 2017-10-24 This book provides a comprehensive account and analysis of the Rwenzururu movement in Western Uganda The movement began in the 1960s in the Rwenzori region of Toro District and was a protest by the minority Bakonzo and Baamba ethnic groups against their continued discrimination and incorporation in the Batoro dominated kingdom district In the course of the years this movement experienced various significant transformations and in the end came to demand recognition of Rwenzururu's claimed semi traditional kingship within Uganda Martin Doornbos illuminates how the Rwenzururu came to life He documents and analyses the transformations that the movement has undergone and shows how the Ugandan government responded to and eventually accepted the movement while igniting continuing enmity and violence in the process **Idi Amin** Mark Leopold, 2020-11-10 The first serious full

length biography of modern Africa's most famous dictator Idi Amin began his career in the British army in colonial Uganda and worked his way up the ranks before seizing power in a British backed coup in 1971 He built a violent and unstable dictatorship ruthlessly eliminating perceived enemies and expelling Uganda's Asian population as the country plunged into social and economic chaos In this powerful and provocative new account Mark Leopold places Amin's military background and close relationship with the British state at the heart of the story He traces the interwoven development of Amin's career and his popular image as an almost supernaturally evil monster demonstrating the impossibility of fully distinguishing the truth from the many myths surrounding the dictator Using an innovative biographical approach Leopold reveals how Amin was from birth deeply rooted in the history of British colonial rule how his rise was a legacy of imperialism and how his monstrous image was created **The Lord's Resistance Army** Tim Allen, Koen Vlassenroot, 2010-07-08 The Lord's Resistance

Army is Africa's most persistent and notorious terrorist group Led by the mysterious Joseph Kony it has committed a series of horrific human rights abuses including massacres and mutilations Since the mid 1980s it has abducted tens of thousands of people including large numbers of children forced to train as fighters The IC in 2005 issued warrants for Kony and his top commanders and the United States is backing a military campaign against the group But the LRA survives continuing to inspire both fascination and fear Authoritative but provocative The Lord's Resistance Army provides the most comprehensive analysis of the group available From the roots of the violence to the oppressive responses of the Ugandan government and the failures of the international community this collection looks at this most brutal of conflicts in fascinating depth and includes a remarkable first hand interview with Kony himself **Wealth, Power, and Authoritarian Institutions** Michaela

Collord,2024-07-16 Through an analysis of the recent political history of Tanzania and Uganda *Wealth Power and Authoritarian Institutions* offers a novel explanation of why authoritarian parties and legislatures vary in strength and why this variation matters Michaela Collord elaborates a view of authoritarian political institutions as both reflecting and magnifying elite power dynamics While there are many sources of elite power the book centres on material power It outlines how diverse trajectories of state led capitalist development engender differing patterns of wealth accumulation and elite contestation across regimes These differences in turn influence institutional landscapes Where accumulation is more closely controlled by state and party leaders as was true in Tanzania until economic liberalization in the 1980s rival factions remain subdued Ruling parties can then consolidate relatively strong institutional structures and parliament remains marginal Conversely where a class of private wealth accumulators expands as occurred in Tanzania after the 1980s and in Uganda after the National Resistance Movement took power in 1986 rival factions can more easily form simultaneously eroding party institutions and encouraging greater legislative strength Collord uses this analysis to reassess the significance of a stronger legislature She considers its influence on distributive politics both regressive and progressive She also considers its relation to democratization particularly in a context of broader liberalizing reforms The book ultimately encourages a closer examination of how would be democratic institutions interact with an underlying power distribution shaping in whose interests they operate Oxford Studies in African Politics and International Relations is a series for scholars and students working on African politics and International Relations and related disciplines Volumes concentrate on contemporary developments in African political science political economy and International Relations such as electoral politics democratization decentralization gender and political representation the political impact of natural resources the dynamics and consequences of conflict comparative political thought and the nature of the continent's engagement with the East and West Comparative and mixed methods work is particularly encouraged Case studies are welcomed but should demonstrate the broader theoretical and empirical implications of the study and its wider relevance to contemporary debates The focus of the series is on sub Saharan Africa although proposals that explain how the region engages with North Africa and other parts of the world are of interest General Editors Nic Cheeseman Peace Medie and Ricardo Soares de Oliveira **Programme**
