Reimagining Effective Stakeholder Governance Practices in Higher Education Felix Omal, 2023-06-22 This book examines the role of the university governing council and the changing nature of university governance using a case study from a South African university. The book considers the key challenging features of South African higher education in relation to current competing international trends in higher education governance. It shows how major decision makers within the university operate within competing governance knowledge domains to exercise good practice within turbulent institutional contexts. These diverse institutional cultures are examined in terms of their contribution to various governance practices, presenting an emerging model of university governance known as the structural systemic cultural model. Throwing light on the nature of challenges associated with the governance of universities in the post apartheid era, this book will be of interest to academics, researchers and postgraduate students in the fields of higher education, comparative education and education governance. Also, it will appeal to university councils and management across Africa.

**Mapping Modernisms** Elizabeth Harney, Ruth B. Phillips, 2018-11-01 Mapping Modernisms brings together scholars working around the world to address the modern arts produced by indigenous and colonized artists. Expanding the contours of modernity and its visual products, the contributors illustrate how these artists engaged with ideas of Primitivism through visual forms and philosophical ideas. Although often overlooked in the literature on global modernisms, artists, artworks and art patrons moved within and across national and imperial borders, carrying, appropriating or translating objects, images and ideas. These itineraries made up the dense networks of modern life, contributing to the crafting of modern subjectivities and of local, transnationally inflected modernisms. Addressing the silence on indigeneity in established narratives of modernism, the contributors decenter art history's traditional Western orientation and prompt a re-evaluation of canonical understandings of twentieth-century art history. Mapping Modernisms is the first book in Modernist Exchanges, a multivolume project dedicated to rewriting the history of modernism and modernist art to include artists, theorists, art forms and movements from around the world. Contributors: Bill Anthes, Peter Brunt, Karen Duffek, Erin Haney, Elizabeth Harney, Heather Igloliorte, Sandra Klopper, Ian McLean, Anita Nettleton, Chika Okeke Agulu, Ruth B Phillips, W Jackson Rushing III, Damian Skinner, Nicholas Thomas, Norman Vorano. *Catalog of Federal Domestic Assistance*, 2014.
