## **University Of Zambia Admissions 2014:**

**Topics in Heart Failure Management** Giuseppe Rescigno, Michael S. Firstenberg, 2019-06-19 This textbook represents a short update on original aspects of heart failure. It covers topics of heart failure management such as prevention, drug monitoring after heart transplant and the critical care approach. There are also chapters on less common facets of this syndrome such as prevalence and features in a specific African region and the complexity of telemedicine in heart failure. In summary, it will be a valid adjunct to more exhaustive textbooks already available. [Daily Graphic](#) Ransford

Tetteh, 2014-04-04 **Widening University Access and Participation in the Global South** Edward Mboyonga, 2024-12-31 Using a capability approach as an analytical framework, this timely volume examines how access to higher education enabled through private universities can transform students' lives and contribute to human development in low income countries in the Global South. Providing new insights into the contribution of the private higher education sector in Africa's developmental agendas, the book offers an alternative to human capital theory by offering an expansive notion on the value of higher education, emphasising both the economic and the intrinsic societal and social benefits that come from access to university and raised aspirations. The chapters identify and discuss six specific capabilities valued by students that higher education provides. This includes epistemological access, epistemic contribution, aspiration, recognition, respect and belonging, Ubuntu and employability. The book foregrounds the voices of students and lecturers to explore students' aspirations, agency, access and participation. Ultimately, promoting a reconsideration of access to higher education beyond numerical terms by focusing on students' access to transformative knowledge as means to promote their freedom to achieve well-being, the book will appeal to scholars, researchers and postgraduate students in higher education, African education studies and international and comparative education more broadly. Drawing on the histories of injustice, dispossession and violence in South Africa, this book examines the cultural, political and legal role and value of an apology. It explores the multiple ways in which 'sorry' is instituted, articulated and performed and critically analyses its various forms and functions in both historical and contemporary moments. Bringing together an interdisciplinary team of contributors, the book

s analysis offers insights that will be invaluable to global debates on the struggle for justice Uwenzi David O. Akombo, Baruti I. Katembo, Kmt G. Shockley, 2015-12-30 UWENZI The Pan African Factor A 21st Century View seeks to facilitate a much needed and provocative 21st century dialogue on optimizing the global linkage networking and appreciation of African peoples resources culture and or interests i e Pan Africanism As a focus point the book posits and explains the need and rationale for Africa and its Diaspora to become reciprocal resources for each other Handbook of the Behavior and Psychology of Disease Colin R. Martin, Victor R. Preedy, Vinood B. Patel, Rajkumar Rajendram, 2025-09-26 This comprehensive handbook covers the entire range of physical disorders and their interrelated psychological problems Behavioral changes altered psychology and in some cases severe psychiatric conditions are frequent manifestations of communicable and non communicable disease While diseases have predictable trajectories their psychological co morbidities do not This unpredictability and sometimes lack of understanding can have profound effects on the professional the patient and the larger family unit Mental health related domains of quality of life measure also impact the disease process but are often overlooked Critical information targeted to experts within specialized areas can fail to reach a wider group of more general practitioners This is complicated by the fact that psychological conditions may prompt organic disease or conversely disease may set off psychological disorders This reference work creates the linkage between the two areas in a manner that is accessible to both experts and non experts alike Research and Discussions in Critical Discourses and Remedies in Global Health Education Ashti A. Doobay-Persaud, Tracy L. Rabin, Tomlin Paul, Jessica Evert, Benedicta Ayiedu Mensah, 2024-10-01 Global Health a field of study research and practice defined in 2009 with precursors in international health and development is currently reckoning with itself The field has well intended goals emphasizing collaboration and dialogue between population health public health clinical care and other disciplines to address socioeconomic determinants of health and employing interdisciplinary approaches to address health inequities wherever they exist Despite these lofty ideals there are concerns that the field itself has historically served to reinforce rather than deconstruct colonialism and power imbalances At this point in time the field has evolved toward a vision of a community of practice between institutions across the income spectrum HIC LMIC LIC working in bidirectional and multidirectional ways to develop staff stuff space systems and strategies to eliminate health disparities However with deeply rooted colonial assumptions racism elitism and other forms of bias underlying institutions and individuals initiatives operating under the auspices of Global Health are all too often antithetical to the pursuit itself **Critical Care Nursing in Resource Limited Environments** Chris Carter, 2019-06-05 All hospitals have critically ill patients and their management depends upon the resources available In many low income countries critically ill patients may be admitted to a critical care unit however many are nursed on wards due to a lack of critical care beds or simply die before they reach the hospital This book provides guidance on the unique situations for nurses working in these challenging environments while considering ethical decision making providing

appropriate services and the types of patients admitted Topics covered include working in a resource limited environment cultural awareness and international agendas provision and access to healthcare services ethical considerations in the context of resource limited environments best practice and knowledge regarding rehabilitation pain management managing a major incident relevant research concerning resource limited environments Critical Care Nursing in Resource Limited Environments prepares readers to consider how best to utilise their skills and deliver safe patient care within a resource limited context Each easy to read chapter provides core knowledge and relevant research as well as useful ideas and solutions with further reading sections to signpost readers to key international resources This text provides practical ideas for nurses working in critical care and defence nursing and acute areas in resource limited environments It can also be used to support educational courses and pre deployment training for nurses hoping to work in Global Health
