Keywords for Radicals Kelly Fritsch, Clare O'Connor, A. K. Thompson, 2016-04-11 An extraordinary volume that provides nothing less than a detailed cognitive mapping of the terrain for everyone who wants to engage in radical politics. Slavoj Žižek, author of *Living in the End Times*. *Keywords for Radicals* recognizes that language is both a weapon and terrain of struggle and that all of us committed to changing our social and material reality to making a world justice rich and oppression free cannot drop words such as democracy, occupation, colonialism, race, sovereignty, or love without a fight. Robin D. G. Kelley, author of *Freedom Dreams: The Black Radical Imagination*. From its thought-provoking Introduction through its energizing accounts of the tensions underlying our most prized concepts, *Keywords for Radicals* will be indispensable to any scholar or activist who is serious about critique and change. Stephen Duncombe, editor of *Cultural Resistance Reader*. A primer for a new era of political protest. Jack Halberstam, author of *Female Masculinity*. This keywords upgrade puts powerful weapons into revolutionaries' hands. Unexpected entries expand into new terrain. Indispensable. Jodi Dean, author of *The Communist Horizon*. In *Keywords* 1976, Raymond Williams devised a vocabulary that reflected the vast social transformations of the post-war period. He revealed how these transformations could be grasped by investigating changes in word usage and meaning. *Keywords for Radicals* part homage, part development, asks: What vocabulary might illuminate the social transformations marking our own contested present? How do these words define the imaginary of today's radical left? With insights from dozens of scholars and troublemakers, *Keywords for Radicals* explores the words that shape our political landscape. Each entry highlights a term's contested variations, traces its evolving usage, and speculates about what its historical mutations can tell us. More than a glossary, this is a crucial study of the power of language and the social contradictions hidden within it. Contributors include Patrick Bond, Silvia Federici, John Bellamy Foster, Joy James, Ilan Papp, Justin Podur, Nina Power, Mab Segrest, and over forty others. Kelly Fritsch is a Banting Postdoctoral Fellow in Women's and Gender Studies at the University of Toronto. Clare O'Connor is a doctoral student in Communication at the University of Southern California. A. K. Thompson teaches social theory at Fordham University in New York.

Governing Affect Roberto E. Barrios, 2017 Roberto E. Barrios presents an ethnographic study of the aftermaths of four natural disasters: southern Honduras after Hurricane Mitch, New Orleans following Hurricane Katrina, Chiapas, Mexico after the Grijalva River landslide, and southern Illinois following the Mississippi River flood. Focusing on the role of affect, Barrios examines the ways in which people who live through

disasters use emotions as a means of assessing the relevance of governmentally sanctioned recovery plans judging the effectiveness of such programs and reflecting on the risk of living in areas that have been deemed prone to disaster Emotions such as terror disgust or sentimental attachment to place all shape the meanings we assign to disasters as well as our political responses to them The ethnographic cases in *Governing Affect* highlight how reconstruction programs government agencies and recovery experts often view postdisaster contexts as opportune moments to transform disaster affected communities through principles and practices of modernist and neoliberal development *Governing Affect* brings policy and politics into dialogue with human emotion to provide researchers and practitioners with an analytical toolkit for apprehending and addressing issues of difference voice and inequity in the aftermath of catastrophes **National**

Sacred Six #1 Christopher Priest, 2020-07-15 Spinning out of the current hit series VAMPIRELLA, four women are lured to rural Georgia as part of a mysterious scheme to defend an impoverished farming town which finds itself under siege by zealots. But this isn't just any impoverished farming town and these aren't just any four women. The all-new Dracula Pantha Nyx and Chastity have been brought together in Ashthorne in an effort to avert all-out war against nearby Sacred Georgia. But Ashthorne has a deadly secret. Sacred has a deadly purpose and lurking in the shadows is Lilith, the immortal sorceress and mother to Vampirella. Written by Vampirella's own Christopher Priest, drawn by Gabriel Ibarra in his mainstream debut and featuring a special contribution by superstar Jae Lee.

The Limits of Law Austin Sarat, Lawrence Douglas, Martha Merrill Umphrey, 2005 This collection brings together well-established scholars to examine the limits of law, a topic that has been of broad interest since the events of 9/11 and the responses of U.S. law and policy to those events. The limiting conditions explored in this volume include marking law's relationship to acts of terror, states of emergency, gestures of surrender, payments of reparations, offers of amnesty, and invocations of retroactivity. These essays explore how law is challenged, frayed, and constituted out of contact with conditions that lie at the farthest reaches of its empirical and normative force.

Christianity and Controversies over Homosexuality in Contemporary Africa Ezra Chitando, Adriaan van Klinken, 2016-05-12 Issues of homosexuality are the subject of public and political controversy in many African societies today. Frequently these controversies receive widespread attention both locally and globally, such as with the Anti-Homosexuality Bill in Uganda. In the international media, these cases tend to be presented as revealing a deeply rooted homophobia in Africa, fuelled by religious and cultural traditions. But so far little energy is expended in understanding these controversies in all their complexity and the critical role religion plays in them. Complementing the companion volume *Public Religion and the Politics of Homosexuality in Africa*, this book investigates Christian politics and discourses on homosexuality in sub-Saharan Africa. The contributors present case studies from various African countries, from Nigeria to South Africa and from Cameroon to Uganda, focusing on Pentecostal, Catholic, and mainline Protestant churches. They critically examine popular Christian theologies that perpetuate homophobia and discrimination, but they also discuss contestations of such discourses and emerging alternative Christian perspectives that contribute to the recognition of sexual diversity, social justice, and human rights in contemporary Africa.

The Silent Code Brenda Park, 2024-11-26 In the pulsating heart of Silicon Valley, a silent symphony of code hides a chilling threat. Ethan Park, a deaf cryptographer, lives in a meticulously crafted world of vibrations and visual cues, a world that allows him to perceive patterns others miss. One sleepless night, immersed in the rhythmic hum of his servers, Ethan uncovers a sinister anomaly: a silent code poised to cripple the global financial system. His urgent warnings, relayed through impersonal translation services, are lost in a cacophony of indifference and prejudice.

Meanwhile FBI Special Agent Mallory Quinn a seasoned cybercrime expert recognizes the same cryptic patterns Driven by a growing unease she seeks out the source a path that leads her to Ethan Their first encounter is a clash of worlds a dance of miscommunication Yet from this initial friction an unlikely alliance is forged Mallory becomes Ethan s voice amplifying his warnings to a skeptical world Ethan in turn becomes Mallory s guide through the labyrinthine code his brilliant mind deciphering the complex algorithms of a shadowy cyberterrorist known only as Zero Their pursuit takes them on a perilous journey through the digital underworld a treacherous landscape of encrypted networks and hidden forums They encounter hackers disillusioned experts and individuals entangled in Zero s web of deceit Dr Anya Sharma a renowned psychologist joins the hunt her insights providing a psychological depth to the investigation revealing Zero s chilling motivations not just financial devastation but a complex social experiment designed to shatter the illusion of control in our hyper connected world As the clock ticks down Ethan and Mallory uncover a conspiracy reaching the highest echelons of power a network that stands to profit from the impending chaos They must navigate treacherous ethical terrain making impossible choices as they race against time Ethan s deafness once perceived as a limitation becomes his greatest strength allowing him to see the hidden flaw in Zero s seemingly perfect plan The final confrontation is not a physical battle but a clash of ideologies a battle of wits waged within the digital realm The Silent Code is a high stakes thriller a testament to the power of human connection in a world on the brink of collapse It s a story about finding your voice even in silence and the courage to speak truth to power even when the world refuses to listen
