Representing Childhood and Atrocity Victoria Nesfield,Philip Smith,2022-12-01 *Atrocity* presents a problem to the writer of children s literature To represent events of such terrible magnitude and impersonal will as the Holocaust the transatlantic

slave trade or the Rwandan genocide such that they fit into a three act structure with a comprehensible moral and a happy ending is to do a disservice to the victims Yet to confront children with the fact of widescale violence without resolution is to confront them with realities that may be emotionally disturbing and even damaging Despite these challenges however there exists a considerable body of work for and about children that addresses atrocity To examine the ways in which writers and artists have attempted to address children s experience of atrocity this collection brings together original essays by an international group of scholars working in the fields of child studies children s literature comics studies education English literature and Holocaust genocide and memory studies It covers a broad geographical range and includes works by established authors and emerging voices

Drunk on Genocide Edward B. Westermann,2021-03-15 In *Drunk on Genocide* Edward B Westermann reveals how over the course of the Third Reich scenes involving alcohol consumption and revelry among the SS and police became a routine part of rituals of humiliation in the camps ghettos and killing fields of Eastern Europe Westermann draws on a vast range of newly unearthed material to explore how alcohol consumption served as a literal and metaphorical lubricant for mass murder It facilitated performative masculinity expressly linked to physical or sexual violence Such inebriated exhibitions extended from meetings of top Nazi officials to the rank and file celebrating at the grave sites of their victims Westermann argues that contrary to the common misconception of the SS and police as stone cold killers they were in fact intoxicated with the act of murder itself *Drunk on Genocide* highlights the intersections of masculinity drinking ritual sexual violence and mass murder to expose the role of alcohol and celebratory ritual in the Nazi genocide of European Jews Its surprising and disturbing findings offer a new perspective on the mindset motivation and mentality of killers as they prepared for and participated in mass extermination Published in Association with the US Holocaust Memorial Museum
