Unmasking The Knight:

Predator at the Chessboard Ward Farnsworth, 2007-01-17 Chess tactics explained in English the website www.chesstactics.org in book form This volume is the first in a two part set The two books together contain over a thousand examples organized in unprecedented detail Every position is accompanied by a commentary describing a train of thought that leads to the solution these books thus are the ideal learning tool for those who prefer explanations in words to long strings of notation This first volume provides an introduction to tactics and explains forks and discovered attacks Book II covers pins and skewers removal of the guard and mating patterns A hardcover version is also available

Chaucer in context S. H. Rigby, 2020-01-03 Amongst the most written about works of English literature Chaucer's Canterbury Tales still defy categorization claims the author of this book Was Chaucer a poet of profound religious piety or a sceptic who questioned all religious and moral certainties Do his pilgrims reflect the society of the day or were they a product of an already well established literary tradition and convention Surveying and assessing competing critical approaches to Chaucer's work this text emphasizes a need to see Chaucer in historical context the context of the social and political concerns of his own day

The Return of King Arthur Beverly Taylor, Elisabeth Brewer, 1983 The revival of interest in Arthurian legend in the 19th century was a remarkable phenomenon apparently at odds with the spirit of the age Tennyson was widely criticised for his choice of a medieval topic yet The Idylls of the King were accepted as the national epic and a flood of lesser works was inspired by them on both sides of the Atlantic Elisabeth Brewer and Beverly Taylor survey the course of Arthurian literature from 1800 to the present day and give an account of all the major English and American contributions Some of the works are well known but there are also a host of names which will be new to most readers and some surprises such as J Comyns Carr's King Arthur rightly ignored as a text but a piece of theatrical history for Sir Henry Irving played King Arthur Ellen Terry was Guinevere Arthur Sullivan wrote the music and Burne Jones designed the sets The Arthurian works of the Pre Raphaelites are discussed at length as are the poems of Edward Arlington Robinson John Masefield and Charles Williams Other writers have used the legends as part of a wider cultural consciousness The Waste Land David Jones's In Parenthesis and The Anathemata and the echoes of Tristan and Iseult in Finnigan's Wake are discussed in this context Novels on Arthurian themes are given their due place from the satirical scenes of Thomas Love Peacock's The Misfortunes of Elphin and Mark Twain's A Connecticut Yankee at King Arthur's Court to T H White's serio comic The Once and Future King and the many recent novelists who have turned away from the chivalric Arthur to depict him as a Dark Age ruler The Return of King Arthur includes a bibliography of British and American creative writing relating to the Arthurian legends from 1800 to the present day

Putting Theory into Practice in the Contemporary Classroom Becky McLaughlin, 2017-01-06 This collection of fourteen essays by scholars from Canada Europe the United Kingdom and the United States emerges from a growing interest in the ways postmodern theory can illuminate not just the products and ideas of high culture but also the ins

and out of everyday life Taking the university classroom broadly construed as a site of theoretical investigation this volume helps us to understand troublesome classroom dynamics as well as offering pedagogical strategies for dealing with them It also illuminates current pressures on higher education that find expression in the classroom As a forum for these issues these essays draw upon Deleuzian feminist Foucauldian and psychoanalytic approaches among others recognizing not only that these approaches are often in conflict but also that collectively they enhance our understanding of the classroom Important questions posed here include whether and if so how we can combine a Marxist or Foucauldian emphasis on the disciplinary and hegemonic practices of educational institutions with a Lacanian or Barthesian appreciation for the disruptive pleasures and drives that the unconscious produces within and through students teachers and classrooms Which theoretical and pedagogical innovations can help teachers and students to get the job done as well as to theorize the job to simultaneously practice education and imagine other forms and ends for education How can theory help us to historicize criticize and redraw the productive but sometimes disabling lines that make the classroom and its subjects A site for lively theoretical debate about these and related pedagogical issues this volume will prove useful for anyone wanting to reinterpret reinvent and reinvigorate the classroom

The Performance of Self Susan Crane, 2012-10-09 Medieval courtiers defined themselves in ceremonies and rituals Tournaments Maying interludes charivaris and masking invited the English and French nobility to assert their identities in gesture and costume as well as in speech These events presumed that performance makes a self in contrast to the modern belief that identity precedes social performance and indeed that performance falsifies the true inner self Susan Crane resists the longstanding convictions that medieval rituals were trivial affairs and that personal identity remained unarticulated until a later period Focusing on England and France during the Hundred Years War Crane draws on wardrobe accounts manuscript illuminations chronicles archaeological evidence and literature to recover the material as well as the verbal constructions of identity She seeks intersections between theories of practice and performance that explain how appearances and language connect when courtiers dress as wild men to interrupt a wedding feast when knights choose crests and badges to supplement their coats of arms and when Joan of Arc cross dresses for the court of inquisition after her capture

Masking and Unmasking the Female Mind Mary Anne Schofield, 1990 This work concentrates on how eighteenth century feminine novelists articulate the concerns important to women's lives and fates and argues that these novelists used their romances to combat the controlling ideologies of the age
