Unstoppable Solar Cycles Viewing Guide

Devin Hunter

Unstoppable Solar Cycles Viewing Guide:

Unstoppable Global Warming Fred Singer, Dennis Avery, 2006-09-13 Singer and Avery present in popular language supported by in depth scientific evidence the compelling concept that global temperatures have been rising mostly or entirely because of a natural cycle Using historic data from two millennia of recorded history combined with the natural physical records found in ice cores seabed sediment cave stalagmites and tree rings *Unstoppable Global Warming* argues that the 1 500 year solar driven cycle that has always controlled the earth s climate remains the driving force in the current warming trend Trillions of dollars spent on reducing fossil fuel use would have no effect on today s rising temperatures The public policy key Singer and Avery propose is adaptation not fruitless attempts at prevention Further they offer convincing evidence that civilization s most successful eras have coincided with the cycle s warmest peaks With the added benefit of modern technology humanity can not only survive global climate change but thrive

The Oxford Companion to Global Change David J. Cuff, 2008 In recent years global change has become increasingly important in technological ecological and political spheres This companion examines the environmental events of recent times and investigates long term trends as well as broader issues of global change
