Uphill Battle Reflections On Viet Nam Counterinsurgency Modern Southeast Asia Series:

Uphill Battle Frank Scotton, 2014 Frank Scotton assigned to Viet Nam from 1962 to 1975 details counterinsurgency technique used and shares observations and conclusions about the challenges faced in the US's involvement in the Viet Nam War Provided by publisher **The Psychological War for Vietnam, 1960-1968** Mervyn Edwin Roberts III, 2018-02-28 The Psychological War for Vietnam 1960-1968 for the first time fully explores the most sustained intensive use of psychological operations PSYOP in American history In PSYOP US military personnel use a variety of tactics mostly audio and visual messages to influence individuals and groups to behave in ways that favor US objectives Informed by the author's firsthand experience of such operations elsewhere this account of the battle for hearts and minds in Vietnam offers rare insight into the art and science of propaganda as a military tool in the twentieth century The Psychological War for Vietnam 1960-1968 focuses on the creation capabilities and performance of the forces that conducted PSYOP in Vietnam including the Joint US Public Affairs Office and the 4th PSYOP Group In his comprehensive account Mervyn Edwin Roberts III covers psychological operations across the entire theater by all involved US agencies His book reveals the complex interplay of these activities within the wider context of Vietnam and the Cold War propaganda battle being fought by the United States at the same time Because PSYOP never occurs in a vacuum Roberts considers the shifting influence of alternative sources of information especially from the governments of North and South Vietnam but also from Australia Korea and the Philippines The Psychological War for Vietnam 1960-1968 also addresses the development of PSYOP doctrine and training in the period prior to the introduction of ground combat forces in 1965 and finally shows how the course of the war itself forced changes to this doctrine The scope of the book allows for a unique measurement of the effectiveness of psychological operations over time **Vietnam** George Donelson Moss, 2020-12-30 Now in its 7th edition Vietnam An American Ordeal continues to provide a thorough account of the failed American effort to create a viable non Communist state in Southern Vietnam Unlike most general histories of US involvement in Vietnam which are either conventional diplomatic or military histories this volume synthesizes the perspectives to explore both dimensions of the struggle in greater depth elucidating more of the complexities of the US Vietnam entanglement It explains why Americans tried so hard for so long to stop the spread of Communism into Indochina and why they failed In this new edition George Donelson Moss expands and refines key moments of the Vietnam War and its aftermath including the strategic and diplomatic background for United States involvement in Indochina during World War II how the French with British and American support regained control in southern Vietnam Saigon and the vicinity in the fall 1945 the account for the formation of SEATO and the account of the Sino Vietnamese War of 1979 The text has also been revised and updated to align with recently published monographic literature on the time period The accessible writing will enable students to gain a solid understanding of how and why the United States went to war against The Democratic Republic of Vietnam and why it lost the long bitter conflict This book will be of interest to

students and scholars of American history the history of foreign relations and the Vietnam War itself **Political Warfare in Republican Vietnam** Robert A. Silano, 2024-08-22 This work examines the development of the Republic of Vietnam Armed Forces as a national institution explores the historical origins of the political warfare system and assesses that system's nurturing of military morale popular support and ways to weaken enemy resolve North Vietnam in the 1940s and South Vietnam in the 1960s embraced the system of political control over the military that was developed in Soviet Russia after the Bolshevik Revolution and in Republican China in the 1920s where it influenced both the Nationalist and Communist movements The book discusses the overall effectiveness of political warfare activities in the Republic of Vietnam's army the advice and support offered by the U S military to the South Vietnamese political warfare establishment and the consequences of the war's end for the members of the Republic of Vietnam Armed Forces who served in the political warfare system **To Build as Well as Destroy** Andrew J. Gawthorpe, 2018-12-15 For years the so called better war school of thought has argued that the United States built a legitimate and viable non Communist state in South Vietnam in the latter years of the Vietnam War and that it was only the military abandonment of this state that brought down the Republic of Vietnam But Andrew J Gawthorpe through a detailed and incisive analysis shows that in fact the United States failed in its efforts at nation building and had not established a durable state in South Vietnam Drawing on newly opened archival collections and previously unexamined oral histories with dozens of U S military officers and government officials To Build as Well as Destroy demonstrates that the United States never came close to achieving victory in the late 1960s and early 1970s Gawthorpe tells a story of policy aspirations and practical failures that stretches from Washington D C to the Vietnamese villages in which the United States implemented its nationbuilding strategy through the Office of Civil Operations and Revolutionary Development Support known as CORDS Structural factors that could not have been overcome by the further application of military power thwarted U S efforts to build a viable set of non Communist political economic and social institutions in South Vietnam To Build as Well as Destroy provides the most comprehensive account yet of the largest and best resourced nation building program in U S history Gawthorpe's analysis helps contemporary policy makers diplomats and military officers understand the reasons for this failure At a moment in time when American strategists are grappling with military and political challenges in Afghanistan Iraq and Syria revisiting the historical lessons of Vietnam is a worthy endeavor

Cuoc chien le odoc Dung Phan, 2017-02-23 Uphill Battle Reflections on Viet Nam Counterinsurgency Modern Southeast Asia Series Vietnamese Edition How could the United States lose a war that seemed easy to win When the Viet Nam War ended with the United States of America defeated many wondered how a military powerhouse lost to a raggedy ass little fourth rate country as President Lyndon Johnson called North Viet Nam Frank Scotton knew why A young Foreign Service Officer assigned to Viet Nam in 1962 Scotton drove roads others avoided walked trails alone and spent nights in remote hamlets Learning the Vietnamese language carrying a carbine and living out of a rucksack he proved that small teams

correctly trained and led could compete with communist units In 1964 Scotton organized mobile platoons to emphasize political aspects of the conflict Those special teams adopted by the CIA became models for the national pacification program He prepared units in some provinces at the request of General Westmoreland and in 1965 and 1966 worked with Special Forces While organizational assistant and trouble shooter for Robert Komer in 1967 and subsequently with William Colby in the military headquarters MACV Scotton reluctantly concluded that improved counter insurgency techniques could not beat back the challenges posed by North Viet Nam resolve lack of political energy in South Viet Nam and the dissolving American commitment For the first time Scotton shares his important observations and reasoned conclusions about the United States involvement in the Viet Nam War

Avoiding Vietnam Conrad C. Crane, 2002 As American operations against terrorism spread around the globe to places like Afghanistan and the Philippines an increasing tendency has been for commentators to draw parallels with past experience in Vietnam Even soldiers on the ground have begun to speak in such terms The author analyzes the Army's response to that defeat in Southeast Asia and its long term impact Contrary to the accepted wisdom that nations which lose wars tend to learn best how to correct their mistakes he argues that Americans tried to forget the unhappy experience with counterinsurgency by refocusing on conventional wars While that process eventually produced the powerful force that won the Persian Gulf War it left an Army with force structure doctrine and attitudes that are much less applicable to the peace operations and counterterrorism campaign it now faces The author asserts that the Army must change in order to operate effectively in the full spectrum of future requirements and it is time to reexamine the war in Vietnam He also draws attention to the service's Lessons Learned process and provides insights as to how the experience gained in Operation ENDURING FREEDOM should be analyzed and applied

AVOIDING VIETNAM: THE U.S. ARMY'S RESPONSE TO DEFEAT IN SOUTHEAST ASIA. Conrad C. Crane, 2022

Storms over the Mekong William Pace Head, 2020-04-30 From the defeat of the Army of the Republic of Vietnam at Ap Bac to the battles of the Ia Drang Valley Khe Sanh and more Storms over the Mekong offers a reassessment of key turning points in the Vietnam War Award winning historian William P Head not only reexamines these pivotal battles but also provides a new interpretation on the course of the war in Southeast Asia In considering Operation Rolling Thunder for example which Head dubs as too much rolling and not enough thunder readers will grasp the full scope of the campaign from specifically targeted bridges in North Vietnam to the challenges of measuring success or failure the domestic political situation and how over time Head argues slowly but surely Rolling Thunder dug itself into a hole Likewise Head shows how the battles for Saigon and Hue during the Tet Offensive of 1968 were tactical defeats for the Communist forces with as many as 40 000 killed and no real gains At the same time however Tet made it clear to many in Washington that victory in Vietnam would require a still greater commitment of men and resources far more than the American people were willing to invest Storms over the Mekong is a blow by blow account of the key military events to be sure But beyond that it is also a measured reconsideration of the battles and moments that

Americans thought they already knew adding up to a new history of the Vietnam War
