The Uprise Stephanie MacDonald,2015-12-07 For Mature Audiences Face to face with what could possibly be the end of the world as she knows it Emerson must decide if she wants to band together with the Fallen Angels or hide and let the battle fight itself When the Fallen Angel Gadreel presents Emerson and her siblings with a prophesy that states that they are the chosen ones she finds herself torn between her fear of losing more love ones and doing what is expected of her The prophesy should be enough to assure her that everything will work out fine in the end The catch The prophesy doesn't say anything about who will survive the Uprise Only that together they can win Will true love and sibling bond defeat the Dragon and its Legion

New Directions in Children's Gothic Anna Jackson,2017-03-27 Children's literature today is dominated by the gothic mode and it is in children's gothic fictions that we find the implications of cultural change most radically questioned and explored This collection of essays looks at what is happening in the children's Gothic now when traditional monsters have become the heroes when new monsters have come into play when globalisation brings Harry Potter into China and yaoguai into the children's Gothic and when childhood itself and children's literature as a genre can no longer be thought of as an uncontested space apart from the debates and power struggles of an adult domain We look in detail at series such as The Mortal Instruments Twilight Chaos Walking The Power of Five Skulduggery Pleasant and Cirque du Freak at novels about witches and novels about changelings at the Gothic in China Japan and Oceania and at authors including Celia Rees Frances Hardinge Alan Garner and Laini Taylor amongst many others At a time when the energies and anxieties of children's novels can barely be contained anymore within the genre of children's literature spilling over into YA and adult literature we need to pay attention Weird things are happening and they matter
