Urban Sustainability Reconnecting Space And Place:

Urban Sustainability William Terrance Dushenko, Ann Dale, Pamela J. Robinson, 2012-01-01 This book explores concrete ways to achieve urban sustainability based on integrated planning policy development and decision making *Urban Sustainability* William Terrance Dushenko, Ann Dale, Pamela J. Robinson, 2012 Given ongoing concerns about global climate change and its impacts on cities the need for sustainable planning has never been greater This book explores concrete ways to achieve urban sustainability based on integrated planning policy development and decision making Urban Sustainability is the first book to provide an applied interdisciplinary perspective on the challenges and opportunities that lay ahead in this area Bringing together researchers and practitioners to explore leading innovations on the ground this volume combines the theoretical underpinnings of urban sustainability with current practices through highly readable narrative case studies The contributors also provide fresh perspectives on how issues related to sustainable urban planning and development can be reconciled through collaborative partnerships and engagement processes

Urban Sustainability Ann Dale, William Dushenko, Pamela J. Robinson, 2012-09-24 Given ongoing concerns about global climate change and its impacts on cities the need for sustainable planning has never been greater This book explores concrete ways to achieve urban sustainability based on integrated planning policy development and decision making Urban Sustainability is the first book to provide an applied interdisciplinary perspective on the challenges and opportunities that lay ahead in this area Bringing together researchers and practitioners to explore leading innovations on the ground this volume combines the theoretical underpinnings of urban sustainability with current practices through highly readable narrative case studies The contributors also provide fresh perspectives on how issues related to sustainable urban planning and development can be reconciled through collaborative partnerships and engagement processes

Global Planning Innovations for Urban Sustainability Sébastien Darchen, Glen Searle, 2018-11-01 As the world becomes more urbanised solutions are required to solve current challenges for three arenas of sustainability social sustainability environmental sustainability and urban economic sustainability This edited volume interrogates innovative solutions for sustainability in cities around the world The book draws on a group of 12 international case studies including Vancouver and Calgary in Canada San Francisco and Los Angeles in the US North America Yogyakarta in Indonesia Seoul in Korea South East Asia Medellin in Colombia South America Helsinki in Finland Freiburg in Germany and Seville in Spain Europe Each case study provides key facts about the city presents the particular urban sustainability challenge and the planning innovation process and examines what trade offs were made between social environmental and economic sustainability Importantly the book analyses to what extent these planning innovations can be translated from one context to another This book will be essential reading to students academics and practitioners of urban planning urban sustainability urban geography architecture urban design environmental sciences urban studies and politics

Sustainability, Citizen Participation, and City Governance Hoi L. Kong, Tanya Monforte, 2022-08-03 The inaction of nation

states and international bodies has posed significant risks to the environment By contrast cities are sites of action and innovation In Sustainability Citizen Participation and City Governance contributors researching in the areas of law urban planning geography and philosophy identify approaches for tackling many of the most challenging environmental problems facing cities today Sustainability Citizen Participation and City Governance facilitates two strands of dialogue about climate change First it integrates legal perspectives into policy debates about urban sustainability and governance from which law has typically stood apart Second it brings case studies from Quebec into a rare conversation with examples drawn from elsewhere in Canada The collection proposes humane and inclusive processes for arriving at effective policy outcomes Some chapters examine governance mechanisms that reconcile clashes of incommensurable values and resolve conflicts about collective interests Other chapters provide platforms for social movements that have faced obstacles to communicating to a broad public The collection's proposals respond to drastic changes in urban environments Some changes are imminent Others are upon us already All threaten the present and future well being of urban communities

Smart City Emergence Leonidas Anthopoulos, 2019-06-11 Smart City Emergence Cases from around the World analyzes how smart cities are currently being conceptualized and implemented examining the theoretical underpinnings and technologies that connect theory with tangible practice achievements Using numerous cities from different regions around the globe the book compares how smart cities of different sizes are evolving in different countries and continents In addition it examines the challenges cities face as they adopt the smart city concept separating fact from fiction with insights from scholars government officials and vendors currently involved in smart city implementation

Sustainability and the City Lauren Curtright, Doris Bremm, 2017-07-28 Sustainability and the City Urban Poetics and Politics contributes to third generation discourse on sustainable development by considering through a humanistic lens theories and practices of sustainability in a wide range of urban cultures It demonstrates cities inextricability from discussions on sustainability because not only is the world urbanizing at an unprecedented rate but also cities are primary locations of the circulation of excess capital socioeconomic divisions and hierarchies political resistance friction between human and non human worlds and the confluence of art policy and identity formation in placemaking With essays by scholars working in a variety of fields from architecture to literature to music to sociology this collection maintains that any hope for achieving urban sustainability will require taking seriously the ways in which cities are imagined Efforts to make cities sustainable must fully incorporate the humanities because critical endeavors and creative expressions that fall within the purview of the humanities are vital to closing the conceptual gulf as well as the practical gap between human and non human conservation Even if the environmental humanities embrace cities critics must ask whether coalescing the terms sustainability and city may actually obstruct human action to combat climate change which from some angles seems impending self imposed apocalypse To examine the urban turn Sustainability and the City attends to culture Essays in the first part of the collection approach urban

sustainability from various disciplinary vantage points to emphasize history ideology pedagogy and critical theory The second part of the collection analyzes urban commons on four different continents Finally the collection moves from a diverse set of interpretations of on the ground urban phenomena to a compilation of readings of sustainability in different media and genres sound art drama fiction and film set in or evocative of cities The collection carves out a place for artists and critics to help realize social justice in cities which generate remarkable power but power that is too often and too easily used destructively unfairly and wastefully despite cities unique capacities to inspire and sustain humanity *The Emerald*

Handbook of Decolonising Sustainability Julius Omokhudu Irene, Bridget Nneka Irene, Kingsley Obi Omeihe, Regina Frank, 2025-09-08 The Emerald Handbook of Decolonising Sustainability A Global South Perspective fosters a more profound understanding of research and discourse on sustainability across the Global South deconstructs the current thinking **City**

Branding in Chinese Megacity Regions Haiyan Lu, 2024-07-31 This book introduces a comprehensive conceptual framework which examines the impact of ecological modernization on city branding using Chinese megacity regions as examples Focusing on city branding efforts led by local governments it delves into practices driven by vertical inspiration horizontal imitation and self reflection It explores the influence of ecological modernization on different aspects of city branding such as the branding process strategy and governance The book also compares how ecological modernization affects city branding in terms of local government promotion and individual perceptions Lastly it scrutinizes city images associated with ecological modernization initiatives in symbolic urban projects shedding light on implementation barriers from the perspective of policy network theory This book will be of huge interest to students and scholars of Chinese urban and environmental studies urban geography and urban sociology It will also appeal to policy makers practitioners and private companies working in the fields of place promotion city marketing and branding **Routledge Handbook of the History**

of Sustainability Jeremy L. Caradonna, 2017-10-18 The Routledge Handbook of the History of Sustainability is a far reaching survey of the deep and contemporary history of sustainability This innovative resource will help to define the history of sustainability as an identifiable field It provides a unique resource for advanced undergraduates graduate students and scholars and delivers essential context for understanding the current state and future path of the sustainability movement The history of sustainability is an increasingly important domain within the discipline of history which draws on an interdisciplinary set of fields ranging from energy studies transportation and urbanism to environmental history economics and philosophy Key sections in this handbook cover the historiography of sustainability resilience and collapse in historical societies the deep roots of sustainability seventeenth century to nineteenth century the recent history of sustainability twentieth century to present and core issues and key debates in sustainability This handbook is an invaluable research and teaching tool for those interested in the history and development of sustainability and an essential resource for the many sustainability studies programs that now exist in the world s universities
