

Table 5. Questions to Guide Initiation of Pharmacotherapy in Children and Adolescents with Depression

Is the depression of moderate to severe severity?

Has there been a prior episode of depression?

Has the patient been treated for depression with medication in the past?

Is there a family history of depression?

Is there a family history of depression with significant response to medication?

Have environmental stressors been modified with no associated improvements in mood?

Has evidence-based psychotherapy (i.e., cognitive behavior therapy, interpersonal therapy) been attempted without success?

NOTE: If the patient answers "yes" to any question, consider initiating pharmacotherapy.
