Urban Growth Analysis and Remote Sensing Basudeb Bhatta,2012-06-19 This book documents research conducted on the analysis of urban growth and sprawl by using remote sensing data and GIS techniques The research was conducted between 1980 2010 in the city of Kolkata India The aim of the research was to use metrics that were less demanding in terms of data and computation than normal metrics However it has been found that most of them were inferior in capturing insights of urban sprawl For this book some of these metrics have therefore been modified and new ones are proposed The research focuses on problems associated with the analysis of urban growth by using remote sensing data from a technological perspective

The Rigid Pavement Database Terry Dossey, Tracy Turen, B. Frank McCullough, 1998 The rigid pavement RP database contains historical distress data obtained from more than 400 continuously reinforced concrete pavements CRCP and jointed concrete pavements JCP across the state of Texas Data collection efforts began in 1974 and have been undertaken periodically up to the present The database contents include such performance related variables as punchouts patches spalling ride score crack spacing and deflection basins as well as such inventory variables as location design thickness coarse aggregate type climate soil characteristics date of construction and overlay status Taken as a whole the RP database comprises a unique asset for empirical investigation of factors affecting long term pavement performance in Texas
