Turning Toward Integrity:

Turning Toward Philosophy Jill Gordon, 2010-11-01 Acknowledging the powerful impact that Plato's dialogues have had on readers Jill Gordon shows how the literary techniques Plato used function philosophically to engage readers in doing philosophy and attracting them toward the philosophical life The picture of philosophical activity emerging from the dialogues as thus interpreted is a complex process involving vision insight and emotion basic to the human condition rather than a resort to pure reason as an escape from it Since the literary features of Plato's writing are what draw the reader into philosophy the book becomes an argument for the union of philosophy and literature and against their disciplinary bifurcation in the dialogues Gordon construes the relationship of Plato's text to its audience as an analogue of Socrates' relationship with his interlocutors in the dialogues seeing both as fundamentally dialectic On this insight she builds her detailed analysis of specific literary devices in chapters on dramatic form character development irony and image making which includes myth metaphor and analogy In this way Gordon views Plato as not at all the enemy of the poets and image makers that previous interpreters have depicted Rather Gordon concludes that Plato understands the power of words and images quite well Since they and not logico-deductive argumentation are the appropriate means for engaging human beings he uses them to great effect and with a sensitive understanding of human psychology wary of their possible corrupting influences but ultimately willing to harness their power for philosophical ends

Back to the Core Emma Cohen de Lara, Hanke Drop, 2020-10-06 Whereas liberal arts and sciences education arguably has European roots European universities have evolved over the last century to become advanced research institutions mainly offering academic training in specialized disciplines The Bologna process started by the European Union in the late nineties encouraged European institutions of higher education to broaden their curricula and to commit to undergraduate education with increased vigor One of the results is that Europe is currently witnessing a proliferation of liberal arts and sciences colleges and broad bachelor degrees This edited volume fills a gap in the literature by providing reflections on the recent developments in Europe with regard to higher education in the liberal arts and sciences The first section includes reflections from either side of the Atlantic about the nature and aims of liberal arts and sciences education and the way in which it takes shape or should take shape in European institutions of higher learning The edited volume takes as a distinct approach to liberal arts and sciences education by focusing on the unique way in which core texts i e classic texts from philosophical historical literary or cultural traditions involving the best that has been written meet the challenges of modern higher education in general and in Europe in particular This approach is manifested explicitly in the second section that focuses on how specific core texts promote the goals of liberal arts and sciences education including the teaching methods curricular reflections and personal experiences of teaching core texts The edited volume is based on a selection of papers presented at a conference held in Amsterdam the Netherlands in September 2015 It is meant to impart the passion that

teachers and administrators share about developing the liberal arts and sciences in Europe with the help of core texts in order to provide students with a well rounded formative and genuinely liberal education **The Call of Education** James Harold Doyle,1921 **NCLEX-RN Questions and Answers Made Incredibly Easy** Lippincott Williams & Wilkins,2003

conception are often mischaracterised Critics suggest that the conception requires lawyers to secure any advantage the law can be made to give But Dare offers a moral argument for the conception according to which it justifies a more limited and moderate sphere of professional conduct than is normally supposed allowing lawyers to preserve their integrity while giving proper weight to the role differentiated permissions and obligations of their roles

Teacher Education in the 21st Century Reginald Monyai, 2019-05-02 A learner centred curriculum provides space for the learner to be actively involved in knowledge production and learning Such can only happen

if the learner's confidence is boosted by a feeling of control and ability to manage his or her progress towards acquiring a qualification. The twenty-first century teacher must create an environment that not only supports the Four Pillars of Learning but also leads to learners being allowed a voice to ask pertinent questions. The teacher should be able to guide the student to full physical and mental maturity and should help to develop critical thinking and the students should be encouraged to practice the truth and have self-respect and respect for other people. This can happen if the learner is afforded the opportunity to self-accept. If the learners fail to do so, they are likely to have lack of confidence which will lead to lack of independence.

Thinking Through Film Damian Cox, Michael Levine, 2011-07-26
THINKING THROUGH FILM *Thinking Through Film* provides the best introduction available to the diverse relationships between film and philosophy. Clearly written and persuasively argued, it will benefit students of both film and philosophy. Thomas E. Wartenberg, Mount Holyoke College, author of *Thinking on Screen: Film as Philosophy*. Cox and Levine's admirable *Thinking Through Film* picks up where *Philosophy Goes to the Movies* left off, arguing that films not only do philosophy but in some cases do it better than philosophers. The result is a rich and rewarding examination of films from metaphysical thought experiments, personal identity puzzles to reflections on the meaning of life that shows in a bracing, no-nonsense fashion how popular cinema can do serious philosophy. Robert Sinnerbrink, Macquarie University.
Thinking Through Film: Doing Philosophy Watching Movies examines a broad range of philosophical issues through film as well as issues about the nature of film itself. Using film as a means of philosophizing, it combines the experience of viewing films with the exploration of fundamental philosophical issues. It offers readers the opportunity to learn about philosophy and film together in an engaging way and raises philosophical questions about films and the experience of films. Film is an extremely valuable way of exploring and discussing topics in philosophy. Readers are introduced to a broad range of philosophical issues through film as well as to issues about the nature of film itself, a blend missing in most recent books on philosophy and film. Cox and Levine bring a critical eye to philosophical film discussions throughout.

Liberal Politics and Public Faith Kevin Vallier, 2014-06-13
In the eyes of many, liberalism requires the aggressive secularization of social institutions, especially public media and public schools. The unfortunate result is that many Americans have become alienated from the liberal tradition because they believe it threatens their most sacred forms of life. This was not always the case in American history; the relation between liberalism and religion has often been one of mutual respect and support. In *Liberal Politics and Public Faith: Beyond Separation*, Kevin Vallier attempts to reestablish mutual respect by developing a liberal political theory that avoids the standard liberal hostility to religious voices in public life. He claims that the dominant form of academic liberalism, public reason liberalism, is far friendlier to religious influences in public life than either its proponents or detractors suppose. The best interpretation of public reason, convergence liberalism, rejects the much derided privatization of religious belief, instead viewing religious contributions to politics as a resource for liberal political institutions. Many books reject privatization. *Liberal Politics and Public Faith: Beyond Separation* is unique in

doing so on liberal grounds Queer Feminist Science Studies Cyd Cipolla, Kristina Gupta, David A. Rubin, Angela Willey, 2017-12-01
