Cozzolino,2018-10-24 For decades now the story of art in America has been dominated by New York It gets the majority of attention the stories of its schools and movements and masterpieces the stuff of pop culture legend Chicago on the other hand well people here just get on with the work of making art Now that art is getting its due *Art in Chicago* is a magisterial account of the long history of Chicago art from the rupture of the Great Fire in 1871 to the present Manierre Dawson L szl Moholy Nagy and Ivan Albright to Chris Ware Anne Wilson and Theaster Gates The first single volume history of art and artists in Chicago the book in recognition of the complexity of the story it tells doesn t follow a single continuous trajectory Rather it presents an overlapping sequence of interrelated narratives that together tell a full and nuanced yet wholly accessible history of visual art in the city From the temptingly blank canvas left by the Fire we loop back to the 1830s and on up through the 1860s tracing the beginnings of the city s institutional and professional art world and community From there we travel in chronological order through the decades to the present Familiar developments such as the founding of the Art Institute the Armory Show and the arrival of the Bauhaus are given a fresh look while less well known aspects of the story like the contributions of African American artists dating back to the 1860s or the long history of activist art finally get suitable recognition The six chapters each written by an expert in the period brilliantly mix narrative and image weaving in

oral histories from artists and critics reflecting on their work in the city and setting new movements and key works in historical context The final chapter comprised of interviews and conversations with contemporary artists brings the story up to the present offering a look at the vibrant art being created in the city now and addressing ongoing debates about what it means to identify as or resist identifying as a Chicago artist today The result is an unprecedentedly inclusive and rich tapestry one that reveals Chicago art in all its variety and vigor and one that will surprise and enlighten even the most dedicated fan of the city's artistic heritage Part of the Terra Foundation for American Art's year-long Art Design Chicago initiative which will bring major arts events to venues throughout Chicago in 2018 Art in Chicago is a landmark publication a book that will be the standard account of Chicago art for decades to come No art fan regardless of their city will want to miss it

The Responsible University Mads P. Sørensen, Lars Geschwind, Jouni Kekäle, Rómulo Pinheiro, 2019-12-03 This book explores how the notion of the responsible university manifests itself at various levels within Nordic higher education As the impetus of the knowledge society has catapulted the higher education sector to the forefront of policy agendas universities and other types of higher education institutions face increasing scrutiny assessment and accountability This book examines this phenomenon using the Nordic countries as cases in point given the strong public commitment towards widening participation and public research investments The editors and contributors analyse the history and current transformations of the idea of the responsible university investigate new innovations in the educational landscape and look into how universities have begun to organise themselves to become more responsible Drawing together scholars from the humanities and the social sciences this interdisciplinary collection will be of interest and value to students and scholars of the role and nature of the modern university in addition to practitioners and policy makers tasked with finding solutions to address the competing and often contradictory demands posed by a responsibility agenda

Development in Post-Apartheid South Africa Hlengiwe Mabizela, Nirmala Dorasamy, 2025-09-30 This book seeks to provide an in-depth analysis of the political governance and socio-economic landscape of South Africa in the aftermath of apartheid It examines the complexities and dynamics that have influenced and shaped the development of the country since 1994 identifying the enduring issues and challenges along with the opportunities present for building a sustainable and inclusive South Africa in the future The book aims to enhance comprehension of how South Africa can traverse its distinctive development trajectory by examining the wider political context governance structures and policy measures The objective is to analyse the impact of the political and governance structures instituted in the post-apartheid era on the country's developmental path This encompasses the transformation of public administration and the influence of political dynamics and governance in determining the trajectory of the country's future In this effort the book not only explores significant accomplishments since 1994 but also engages in a critical examination of the limitations governmental shortcomings and challenges that persistently obstruct the progress of the country Furthermore it presents insights and recommendations aimed at enhancing governance enacting policy reforms

and devising strategies to foster sustainable development

Lady Astronauts, Lady Engineers, and Naked Ladies Karin Hilck, 2019-07-08

The book *Lady Astronauts Lady Engineers and Naked Ladies* is a gender history of the American space community and by extension a social history of American society in the twentieth century during the Cold War. In order to expand and differentiate the prevalent postwar narrative about gender relations and cultural structures in the United States, the book analyzes several different groups of women interacting in different social spaces within the space community. It therewith grants insight into the several layers of female participation and agency in the community and the gender and race based obstacles and hurdles the female prospective astronauts, scientists, engineers, artists, administrators, writers, hostesses, secretaries, and wives were faced with at NASA and in the space industry. In each chapter, a different social space within the space community is analyzed. The spaces where the women lived and worked are researched from a media, individual, and institutional angle, ultimately revealing the differing gender philosophies communicated in the public sphere and the space community workplaces by government and space community officials. While women were publicly encouraged to participate in the American space effort to beat the Soviet Union in the race to the moon, women had to deal with gender based barriers which were integral to the structures of the space community just as they were an intrinsic component of all societal structures in the United States in the 1960s. The female space workers, who were often perceived as disrupters of the prevalent social order in the space community and discriminated by some of their male colleagues and bosses on a personal basis, still managed to assert themselves. They molded pockets of agency in the space community workspaces without the facilitation of regulations on the part of NASA that might have provided them with easier access or more agency. Thus, the space community, a place of technological innovation, was not necessarily also a place of social innovation but a community with a government agency at its center that mainly mirrored the current changing social order, conventions, and policies in the 1960s as well as in the 1970s and 1980s. Nevertheless, the women presented in this book were instrumental in advancing and consolidating the social transformation that happened within the space community and the United States and therefore make intriguing subjects of research. Thus, this systematic analysis of the connection between gender, space, and the Cold War adds a new dimension to space history as well as expands the discourse in American history about gender relations and the opportunities of women in the twentieth century.
