Advances in Terahertz Technology and Its Applications Sudipta

Das,N. Anveshkumar,Joydeep Dutta,Arindam Biswas,2021-10-30 This book highlights the growing applications of THz technology and various modules used for their successful realization The enormous advantages of THz devices like higher resolution spatial directivity high speed communication greater bandwidth non ionizing signal nature and compactness make them useful in various applications like communication sensing security safety spectroscopy manufacturing bio medical agriculture imaging etc Since the THz radiation covers frequencies from 0.1THz to around 10THz and highly attenuated by atmospheric gases they are used in short distance applications only The book focuses on recent advances and different research issues in terahertz technology and presents theoretical methodological well established and validated empirical works dealing with the different topics Computational Science and Its Applications - ICCSA 2017 Osvaldo Gervasi,Beniamino Murgante,Sanjay Misra,Giuseppe Borruso,Carmelo M. Torre,Ana Maria A.C. Rocha,David Taniar,Bernady O. Apduhan,Elena Stankova,Alfredo Cuzzocrea,2017-07-13 The six volume set LNCS 10404 10409 constitutes the refereed proceedings of the 17th International Conference on Computational Science and Its Applications ICCSA 2017 held in Trieste Italy in July 2017 The 313 full papers and 12 short papers included in the 6 volume proceedings set were carefully reviewed and selected from 1052 submissions Apart from the general tracks ICCSA 2017 included 43 international workshops in various areas of computational sciences ranging from computational science technologies to specific areas of computational sciences such as computer graphics and virtual reality Furthermore this year ICCSA 2017 hosted the XIV International Workshop On Quantum Reactive Scattering The program also featured 3 keynote speeches and 4 tutorials The Roots of Developing Agriculture in the South African Context MCGREGGOR S. NTULI,2013 The Roots of Developing Agriculture in the South African Context is meant to be a reader that addresses the current status and the possible future position of Developing Agriculture into perspective given the transformation it is currently undergoing in South Africa Much emphasis is deliberately placed on the experiences of the developing farmer and to a lesser extent that of the role players of the industry This means that the book is meant to focus on the actual proceedings of the industry particularly at farmers level as opposed to expounding on literature based findings or documented policies that do not reflect the actual state of affairs The need of writing such a book came after realizing that the servants of this industry have varied perspectives in terms of the winning formula that would ensure its successful progression of refining the industry by uplifting emerging farmers of South Africa An additional reason is that it is the very same role players of the very same industry who dedicate much time in transferring technical information that elaborates on the management of a farming business as well as how to produce agricultural products to farmers whilst continuously neglecting the need to identify and apply the principles that would ensure the attainment of the ultimate industrial goal of uplifting developing farmers so as to make positive contributions towards the local economy As a result of the latter reason the publishing of technical information has been one of the strongest points of South African agriculture However with all this information made available to farmers and various agriculturalists in

abundance the industry still experiences a low success rate in its attempt to transform previously disadvantaged farmers despite providing them with the relevant technical knowledge This clearly shows the gap and the need of having such a book that will not only put the author s perspective and suggested solutions into perspective but will also consolidate some of those that are being shared in all sorts of formal and informal gatherings The above passage details the central theme of the book which will be sufficient to cover the content of the subject Therefore the scope of readers will include everyone in the agricultural sector as well as those who have the interest in and are affected by agriculture and current affairs of South Africa
