Tutela della salute e diritto internazionale Pia Acconci, 2011 **Environmental Health in International and EU Law** Stefania Negri, 2019-12-09 This book presents a broad overview of the many intersections between health and the environment that lie at the basis of the most crucial environmental health issues focusing on the responses provided by international and EU law Consistent with the One Health approach and moving from the relevant international and EU legal frameworks the book addresses some of the most important issues of environmental health including the traditional such as pollution of air water and soil and related food safety issues as well as new and emerging challenges like those linked to climate change antimicrobial resistance and electromagnetic fields Applying an intersectoral and interdisciplinary approach it also investigates other branches of international and EU law including human rights law investment law trade law energy law and disaster law The work also discusses ethics and intergenerational equity Ultimately the book assesses the degree of effectiveness of the international and EU normative framework and the extent to which the relevant legal instruments contribute to the protection of public health from major environmental hazards The book will be a valuable resource for students academics and policy makers working in the areas of Environmental Health law Global Health law International law and EU law

Private International Law Aspects of Corporate Social Responsibility Catherine Kessedjian, Humberto Cantú Rivera, 2020-03-06 This book addresses one of the core challenges in the corporate social responsibility or business and human rights debate how to ensure adequate access to remedy for victims of corporate abuses that infringe upon their human rights However ensuring access to remedy depends on a series of normative and judicial elements that become highly complex when disputes are transnational In such cases courts need to consider and apply different laws that relate to company governance to determine the competent forum to define which bodies of law to apply and to ensure the adequate execution of judgments The book also discusses how alternative methods of dispute settlement can relate to this topic and the important role that private international law plays in access to remedy for corporate related human rights abuses This collection comprises 20 national reports from jurisdictions in Europe North America Latin America and Asia addressing the private international law aspects of corporate social responsibility They provide an overview of the legal differences between geographical areas and offer numerous examples of how states and their courts have resolved disputes involving private international law elements The book draws two preliminary conclusions that there is a need for a better understanding of the role that private international law plays in cases involving transnational elements in order to better design transnational solutions to the issues posed by economic globalisation and that the treaty negotiations on business and human rights in the United Nations could offer a forum to clarify and unify several of the elements that underpin transnational disputes involving corporate human rights abuses which could also help to identify and bridge the existing gaps that limit effective access to remedy Adopting a comparative approach this book appeals to academics lawyers judges and legislators concerned with the

issue of access to remedy and reparation for corporate abuses under the prism of private international law **Salute e sanità** Rosario Ferrara,2010 *Human Rights and Emerging Technologies* Daniele Ruggiu,2018-06-26 What is the state of current European governance on new and emerging technologies and where is it going What is and what can be the role of human rights in governance arrangements These are the main questions that this book answers for both European and non European scholars It provides a wide picture of current European governance notably in biotechnology nanotechnology and synthetic biology and discusses the model of Responsible Research and Innovation which is gaining popularity within the European Union under a human rights perspective It shows how human rights can contribute to governance frameworks without posing obstacles to research and innovation The theory presented in the book is followed by practical guidelines drawn from human rights law Starting from the Strasbourg Court jurisprudence it provides a complete review of the wide range of rights that the European Convention on Human Rights protects in light of the challenges of techno scientific advances This analysis will come in handy for private actors policymakers regulators as well as judges in solving hard cases raised by techno scientific progress in the future **Collected Courses of the Academy of European Law:1997**

European Community Law Academy of European Law,2001-05-23 The Academy of European Law was established by the European University Institute in 1990 and extends the Institute s current programmes into a larger field of interest It has as its main activity the holding of annual Summer Courses in the law of the European Community and the protection of human rights in Europe In addition to General Courses shorter courses are held on subjects of special academic and practical interest in both fields Finally special guest lectures on topical issues are given by policy makers judges and persons who have held or currently hold the highest position in these fields The courses are published in the language in which they were delivered English and French *International Law and the Protection of Humanity* Pia Acconci,David Donat Cattin,Antonio Marchesi,Giuseppe Palmisano,Valeria Santori,2016-11-28 This challenging volume contains articles by a wide variety of well known scholars and practitioners and deals with human rights international humanitarian law international criminal law and humanitarian assistance as well as other areas of international law relating to the protection of humanity These are topics to which Flavia Lattanzi in whose honour the volume is being published has made an outstanding contribution and to which she has given her determined and unrelenting professional and personal commitment As a former Professor at the Universities of Pisa Sassari Teramo and Roma Tre and as Judge ad litem at the International Tribunal for Rwanda and the International Tribunal for the Former Yugoslavia she has adhered constantly to a number of important principles as reflected in the research contained in this volume They include the firm conviction that respect for human rights is an indispensable precondition for durable peace the notion that grave breaches of human rights including the refusal to provide assistance to populations in distress can imply a threat to international peace and security and that guarantees against human rights violations include the question of the punishment of core crimes under International Law **Yearbook International**

This textbook provides a thorough and systematic overview of human rights law including the most relevant practice and case law but also dealing with theoretical issues It pursues an original approach seeking to reconcile its didactic purpose with a scientific one positing that there must be a necessary synergy between these two purposes Furthermore the author is convinced that international human rights law should not be studied as is done in virtually every textbook as a special legal regime separate and autonomous from the overall system of international law but as a regime that is fully integrated into the international legal order The book's dominant theme is the interrelationship of international human rights law and general international law Following this approach the author has chosen to devote comparatively little content to institutional issues Part IV and to instead more intensively explore the structural impact of human rights law on the entire international order Part I on the sources Part II and obligations Part III of general international law and what constitutes fundamental human rights Part V without neglecting other rights Part VI

Trends and Challenges in International Law Maurizio Arcari,Irini Papanicolopulu,Laura Pineschi,2022-04-22 Over the last century international law has sought to keep pace with sweeping changes that have revolutionised the international community It has done so in various ways by developing new fields adopting new legal instruments and including new actors and entities in the international fora Human rights law and environmental law have emerged to address essential issues raised by civil society Treaties judgments and soft law instruments have attempted to fill the gaps in regulation International organisations corporations civil society organisations and individuals have all worked to make and enforce also by judicial means legal rules But is all this sufficient In an effort to answer this question the chapters of this volume explore selected emerging issues in the fields of human rights the environment cultural heritage and law of the sea Can state responsibility help to protect the environment Can protecting human rights be reconciled with national security Can the UN Security Council address climate change Is law of the sea still fit for purpose And how can we balance human rights and the environment or cultural heritage and law of the sea The international scholars and experienced practitioners who have contributed to this volume discuss these and other key questions Given its scope the book will appeal to researchers and scholars of international law as well as those specialising in human rights law environmental law cultural heritage law and law of the sea

Global Risks and International Law Sarah Cassella,2023-12-11 Global risks present formidable challenges to international law Although they have long been identified in many other scientific disciplines they are currently only considered on a sectoral basis in international law in the absence of a legal definition The aim of this book is threefold to identify the main elements that characterise global risks in a legal perspective to determine the characteristics that make them a new category of risk and to analyse the changes they bring about in the main mechanisms of international law Drawing on the relationship between international law and other legal systems and in particular national law this book highlights possible responses to the challenges posed by global risks The study is based on extensive practice related to the

examples of climate change and pandemics but opens up perspectives on conclusions that could be common to other global risks such as financial risks or cyber risks Interview with the author **Roma Tre Law Review - 02/2020** ,2021-03-12 The Roma Tre Law Review R3LR is an open source peer reviewed e journal which aims to offer a digital forum for scholarly debate on issues of comparative law international law law and economics law and society criminal law legal history and teaching methods in law Irregular Migrants and the Right to Health Stefano Angeleri,2022-08-04 In our globalised world where inequality is deepening and migration movements are increasing states continue to maintain strong regulatory control over immigration health and social policies Arguments based on state sovereignty can be employed to differentiate irregular migrants from other groups and reduce their right to physical and mental health to the provision of emergency medical care even where resources are available Drawing on the enabling and constraining factors of human rights law and public health this book explores the scope and limits of the right to health of migrants in irregular situations in international and European human rights law Addressing these peoples health solely with an exceptional medical paradigm is inconsistent with the special attention granted to people in vulnerable situations and non discrimination in human rights the emerging rights based approach to disability the social priorities of public health and the interdependence of human rights **The United Nations Convention on the Rights of Persons with Disabilities** Valentina Della Fina,Rachele Cera,Giuseppe Palmisano,2017-01-20 This Commentary provides the first comprehensive legal article by article analysis of the provisions of the Convention on the Rights of Persons with Disabilities CRPD The Convention is the key international human rights instrument exclusively devoted to persons with disabilities and the centerpiece of international efforts to address inequalities and barriers they encounter to the full enjoyment of human rights The book discusses the Convention s position within existing international human rights law and within the framework of the United Nations measures to protect the rights of people with disabilities Starting with the background of all the Convention s articles including the travaux pr paratoires this Commentary examines each provision s substance and interpretation and explores the significance of each right its legal scope and relationship with other international legal norms and principles A unique contribution also analyzes the Optional Protocol to the Convention In addition to enriching academic studies of international human rights law the book provides insights into the practical operation of the Convention s provisions by assessing the practice of the CRPD Committee the activities of relevant international and regional human rights bodies in enforcing the rights of persons with disabilities and the contracting parties implementation practices Relevant European Court of Human Rights the Court of Justice of the European Union and if appropriate other regional jurisdictions case law as well as the jurisprudence of domestic courts are taken into consideration Contributions from leading scholars and international experts make this book an indispensable resource for lawyers academics students journalists international organizations NGOs and other stakeholders wanting to better understand the rights of people with disabilities Furthermore it makes a valuable contribution to appraising the impact
