May, Alexander Jenkins**

Twentieth Century Roots Of Rhetorical Studies:

Twentieth-century Roots of Rhetorical Studies Jim A. Kuypers, Andrew King, 2001-03-30 Kuypers King and their contributors explore the conception of rhetoric of eleven key American rhetoricians through analyses of their life s work Each chapter provides a sense of that scholar s conception of rhetoric be it through criticism theory or teaching The communication discipline often highlights the work of others outside the discipline however it rarely acclaims the work of its own critics teachers and theorists In this collection the essays explore the innate mode of perception that guided the rhetorical understanding of the early critics In so doing this work dispels the myth that the discipline of Speech Communication was spawned from a monolithic and rigid center that came to be called neo Aristotelianism Scholars and researchers involved with the history of rhetoric rhetorical criticism and theory and American public address uill find this title to be a necessary addition to their collection

The SAGE Handbook of Rhetorical Studies Andrea A. Lunsford, Kirt H. Wilson, Rosa A. Eberly, 2008-10-29 The SAGE Handbook of Rhetorical Studies surveys the latest advances in rhetorical scholarship synthesizing theories and practices across major areas of study in the field and pointing the way for future studies Edited by Andrea A Lunsford and Associate Editors Kirt H Wilson and Rosa A Eberly the Handbook aims to introduce a new generation of students to rhetorical study and provide a deeply informed and ready resource for scholars currently working in the field Key Features Brings together scholars from across the disciplines of Speech Communication English and Writing Studies While rhetoric is by definition interdisciplinary self identified scholars in the field are most often institutionally separated from one another This Handbook bridges this divide by providing a refreshing range of transdisciplinary views on the nature status definition and scope of rhetoric today Offers a thorough going overview of rhetorical studies today Organized in four sections Historical Studies in Rhetoric Rhetoric Across the Disciplines Rhetoric and Pedagogy and Rhetoric and Public Discourse the volume provides a single resource for engaging rhetorical studies Underscores the importance of rhetoric to education across a wide range of disciplines as well as to effective participation in public arenas Thus the volume connects rhetoric s long teaching tradition to an activist agenda for informed civic engagement Addresses methodological and theoretical difficulties and offers means of negotiating them Provides one of the first introductions to rhetorical studies across cultures and to the related debates concerning comparative and contrastive rhetorics

Fifty Years of Rhetoric Society Quarterly Joshua Gunn, Diane Davis, 2018-05-15 Fifty Years of Rhetoric Society Quarterly Selected Readings 1968 2018 celebrates the semicentennial of Rhetoric Society Quarterly bringing together the most influential essays included in the journal over the past fifty years Assessed by members of the Rhetoric Society of America this collection provides advanced undergraduate and graduate students with a balanced perspective on rhetorical theory and practice from scholars in both communication studies and rhetoric and writing studies The volume covers a range of themes from the history of rhetorical studies writing and speaking

pedagogy and feminism to the work of Kenneth Burke the rhetoric of science and rhetorical agency *Democracy as Discussion* William M. Keith, 2007-01-01 Using primary sources from archives around the country *Democracy as Discussion* traces the early history of the Speech field the development of discussion as an alternative to debate and the Deweyan Progressive philosophy of discussion that swept the United States in the early twentieth century *Rhetorical Criticism* Jim A. Kuypers, 2016-04-21 Now in its second edition *Rhetorical Criticism Perspectives in Action* presents a thorough accessible and well grounded introduction to contemporary rhetorical criticism Systematic chapters contributed by noted experts introduce the fundamental aspects of a perspective provide students with an example to model when writing their own criticism and address the potentials and pitfalls of the approach In addition to covering traditional modes of rhetorical criticism the volume presents less commonly discussed rhetorical perspectives exposing students to a wide cross section of techniques *Debating Women* Carly S. Woods, 2018-10-01 Spanning a historical period that begins with women s exclusion from university debates and continues through their participation in coeducational intercollegiate competitions *Debating Women* highlights the crucial role that debating organizations played as women sought to access the fruits of higher education in the United States and United Kingdom Despite various obstacles women transformed forests parlors dining rooms ocean liners classrooms auditoriums and prisons into vibrant spaces for ritual argument There they not only learned to speak eloquently and argue persuasively but also used debate to establish a legacy explore difference engage in intercultural encounter and articulate themselves as citizens These debaters engaged with the issues of the day often performing questioning and occasionally refining norms of gender race class and nation In tracing their involvement in an activity at the heart of civic culture Woods demonstrates that debating women have much to teach us about the ongoing potential for debate to move arguments ideas and people to new spaces *A Century of Communication Studies* Pat J. Gehrke, William M. Keith, 2014-12-05 This volume chronicles the development of communication studies as a discipline providing a history of the field and identifying opportunities for future growth Editors Pat J Gehrke and William M Keith have assembled an exceptional list of communication scholars who in the thirteen chapters contained in this book cover the breadth and depth of the field Organized around themes and concepts that have enduring historical significance and wide appeal across numerous subfields of communication *A Century of Communication Studies* bridges research and pedagogy addressing themes that connect classroom practice and publication Published in the 100th anniversary year of the National Communication Association this collection highlights the evolution of communication studies and will serve future generations of scholars as a window into not only our past but also the field s collective possibilities *Press Bias and Politics* Jim A. Kuypers, 2002-09-30 Kuypers charts the potential effects the printed presses and broadcast media have upon the messages of political and social leaders when they discuss controversial issues Examining over 800 press reports on race and homosexuality from 116 different newspapers Kuypers meticulously documents a liberal political bias in mainstream news This book asserts that such a bias

hurts the democratic process by ignoring non mainstream left positions and vilifying many moderate and most right leaning positions leaving only a narrow brand of liberal thought supported by the mainstream press This book argues that the mainstream press in America is an anti democratic institution By comparatively analyzing press reports as well as the events that occasioned the coverage Kuypers paints a detailed picture of the politics of the American press He advances four distinct reportorial practices that inject bias into reporting offering perspectives of particular interest to scholars students and others involved with mass communication journalism and politics in the United States *The George W. Bush Presidency* Robert E. Denton Jr.,2012-07-21 To date there are only a couple dozen or so books specifically about the Presidency of George W Bush Political operatives members of the media and former administration officials have written most of the volumes Additionally the early books on the Bush presidency focus on the various aspects and dimensions of the War on Terror In essence these studies challenge the justification of our deployment the Bush doctrine and the assumptions of nation building Few volumes focus on his quite substantial legislative record and impact There are a few academic volumes on the Bush presidency but they were completed while he was still in office They tend to be biased and uniformly negative *The George W Bush Presidency A Rhetorical Perspective* seeks to remedy this lack of academic investigation of the 43rd president and his rhetorical strategies This volume is unique because the contributors analyze the Bush Presidency from a largely rhetorical perspective The chapters look at the rhetoric of Bush across the contexts of domestic policy foreign policy the wars and politics in general Further this thorough study examines the Inaugural addresses State of the Union addresses and addresses before joint sessions of Congress Others analyze his political philosophy policy issues and his rocky relationship with the news media Collectively this essential text provides insight into the role of public discourse in the campaigning and governing of the George W Bush presidency *Post-Ethical Society* Douglas V. Porpora,Alexander G. Nikolaev,Julia Hagemann May,Alexander Jenkins,2013-09-07 We ve all seen the images from Abu Ghraib stress positions US soldiers kneeling on the heads of prisoners and dehumanizing pyramids formed from black hooded bodies We have watched officials elected to our highest offices defend enhanced interrogation in terms of efficacy and justify drone strikes in terms of retribution and deterrence But the mainstream secular media rarely addresses the morality of these choices leaving us to ask individually Is this right In this singular examination of the American discourse over war and torture Douglas V Porpora Alexander Nikolaev Julia Hagemann May and Alexander Jenkins investigate the opinion pages of American newspapers television commentary and online discussion groups to offer the first empirical study of the national conversation about the 2003 invasion of Iraq and the revelations of prisoner abuse at Abu Ghraib a year later *Post Ethical Society* is not just another shot fired in the ongoing culture war between conservatives and liberals but a pensive and ethically engaged reflection of America s feelings about itself and our actions as a nation And while many writers and commentators have opined about our moral place in the world the vast amount of empirical data amassed in *Post Ethical Society* sets it apart and makes its

findings that much more damning **State Crimes Against Democracy** A. Kouzmin, M. Witt, A. Kakabadse, 2012-12-15 Assembles leading theorists of a new paradigm of political theory State Crimes Against Democracy undertaking judicious and devoted hacking exposing the elusive nodes and circuitry that propagate elite dominance in world affairs and what can be done to restore the demos to democracy Exploring Space Andrzej Ciuk, Katarzyna Molek-Kozakowska, 2010-05-11 Exploring space Spatial notions in cultural literary and language studies falls into two volumes and is the result of the 18th PASE Polish Association for the Study of English Conference organized by the English Department of Opole University and held at Kamie l ski in April 2009 The first volume embraces cultural and literary studies and offers papers on narrative fiction poetry theatre and drama and post colonial studies The texts and contexts explored are either British American or Commonwealth The second volume refers to English language studies and covers papers on lexicography general linguistics and rhetoric discourse studies and translation second language acquisition foreign language learning and the methodology of foreign language teaching The book aims to offer a comprehensive insight into how the category of space can inform original philological research thus it may be of interest to those in search of novel applications of space related concepts and to those who wish to acquire an update on current developments in English Studies across Poland from the Preface *Winsome Persuasion* Tim Muehlhoff, Richard Langer, 2017-06-13 The task of bearing faithful witness to Jesus in our post Christian society is complicated What should our interactions with the dominant cultural ethos look like How might we be both persuasive and civil Integrating communications and theology this model for cultural engagement offers a compelling vision of public engagement that is both shrewd and gracious **Lincoln's Rise to Eloquence** D. Leigh Henson, 2024-08-20 At turns eloquent and earthy Abraham Lincoln s rhetoric played a vital role in his success as a politician and statesman D Leigh Henson examines Lincoln s pre presidential development as a rhetorician the purposes and methods behind his speeches and writings and how the works contributed to his political rise Lincoln s close study of the rhetorical process drew on sources that ranged from classical writings to foundational American documents to the speeches of Daniel Webster As Henson shows Lincoln applied his learning to combine arguments on historical legal and moral grounds with appeals to emotion and his own carefully curated credibility Henson also explores Lincoln s use of the elements of structural design to craft coherent arguments that whatever their varying purposes used direct and plain language to reach diverse audiences and laid the groundwork for his rise to the White House Insightful and revealing Lincoln s Rise to Eloquence follows Lincoln from his early career through the years long clashes with Stephen A Douglas to trace the future president s evolution as a communicator and politician Hitting First William W. Keller, Gordon R. Mitchell, 2006-09-03 The U S war in Iraq was not only an intelligence failure it was a failure in democratic discourse Hitting First offers a critical analysis of the political dialogue leading up to the American embrace of preventive war as national policy and as the rationale for the invasion and occupation of Iraq Taking as its point of departure the important distinction between preemptive and preventive war the

contributors examine how the rhetoric of policy makers conflated these two very different concepts until the public could no longer effectively distinguish between a war of necessity and a war of choice. Although the book focuses on recent events, *Hitting First* takes into consideration the broader historical, ethical, and legal context of current American policies. Precedents are examined for preventive military action based on conventional as well as nuclear, biological, and chemical weapons threats. The authors also consider recent examples of the rhetoric of humanitarian intervention which have tended to undermine traditional notions of national sovereignty, making purportedly morally justifiable actions easier to entertain. Intelligence gathering and its use, manipulation, and distortion to suit policy agendas are also analyzed, as are the realities of the application of military force, military requirements to sustain a policy of preventive war, and post-conflict reconstruction. *Hitting First* presents a timely and essential view of the lessons learned from the failures of the Iraqi conflict and offers a framework for avoiding future policy breakdowns through a process of deliberative public and governmental debate within a free market of ideas. The critiques and prescriptions offered here provide a unique and valuable perspective on the challenges of formulating and conducting national security policy while sustaining the principles and institutions of American democracy. This collection will appeal to students and scholars of American foreign policy, international relations, political communication, and ethics.

Scientific Realism and International Relations J. Joseph, C. Wight, 2010-07-30 Critical and scientific realism have emerged as important perspectives on international relations in recent years. The attraction of these approaches lies in the claim that they can transcend the positivism vs. postpositivism divide. This book demonstrates the vitality of this approach and the difference that realism makes.

Purpose, Practice, and Pedagogy in Rhetorical Criticism Jim A. Kuypers, 2014-02-07 This edited volume fills a void in the literature concerning the purpose, practice, and pedagogy associated with performing rhetorical criticism. Literature regarding these issues predominantly exists primarily as scattered journal articles and as sections within chapters of textbooks on rhetorical criticism. This book brings together 15 established rhetorical critics, each of whom offers well-thought-out and argued opinion pieces that stress the more personal nature of criticism. The purpose of this book is to serve as a disciplinary resource and as a teaching and learning aid. Accessibility across areas of expertise and experience is stressed in this book. Critics range from junior faculty to emeritus and represent a broad spectrum of views on criticism. In this sense, the book offers a snapshot of the views of a wide swath of successfully practicing contemporary rhetorical critics.

Rhetoric, History, and Women's Oratorical Education David Gold, Catherine L. Hobbs, 2013-05-02 Historians of rhetoric have long worked to recover women's education in reading and writing but have only recently begun to explore women's speaking practices from the parlor to the platform to the varied types of institutions where women learned elocutionary and oratorical skills in preparation for professional and public life. This book fills an important gap in the history of rhetoric and suggests new paths for the way histories may be told in the future, tracing the shifting arc of women's oratorical training as it develops from forms of eighteenth-century rhetoric into

institutional and extrainstitutional settings at the end of the nineteenth century and diverges into several distinct streams of community embodied theory and practice in the twentieth Treating key rhetors genres settings and movements from the early republic to the present these essays collectively challenge and complicate many previous claims made about the stability and development of gendered public and private spheres the decline of oratorical culture and the limits of women s oratorical forms such as elocution and parlor rhetorics and women s responses to rhetorical constraints on their public speaking Enriching our understanding of women s oratorical education and practice this cutting edge work makes an important contribution to scholarship in rhetoric and communication *Rhetoric and Religion in the Twenty-First Century*
Michael-John DePalma,Paul Lynch,Jeff Ringer,2023-11-10 One of few volumes to include multiple traditions in one conversation *Rhetoric and Religion in the Twenty First Century* engages with religious discourses and issues that continue to shape public life in the United States This collection of essays centralizes the study of religious persuasion and pluralism considers religion s place in U S society and expands the study of rhetoric and religion in generative ways
