Snow Stalingrad the Sea North Atlantic and the Shore Normandy Slogging their way through this quintet are an eighteen year old G I from Missouri as seen through his letters home an ugly duckling of a Liberty ship as seen through its Armed Guard reports and a bottle of rum as traced by those who after the war made money in selling war souvenirs It is the history of the North Atlantic sea basin and its extensions at war the story of the lulls between battles when America s teenage warriors often watched war movies Humphrey Bogart made and Warner Brothers released seven during the war sang or listened to popular tunes by songsmiths like Irving Berlin and drank rum and Coke while listening to Dick Haymes sing the hit Rum Coca Cola While accessible and vastly entertaining this is a serious work of history By treating World War II in Europe much as Fernand Braudel treated the origins of Western civilization in his masterpiece The Mediterranean and the Mediterranean World in the Age of Philip II Hatcher brings Braudelian detachment to his narrative **Indestructible** John R Bruning,2016-10-11 In this remarkable WWII story by New York Times bestselling author John R Bruning a renegade American pilot fights against all odds to rescue his family imprisoned by the Japanese and revolutionizes modern warfare along the way From the knife fights and smuggling runs of his youth to his fiery days as a pioneering naval aviator Paul Irving Pappy Gunn played by his own set of rules and always survived on his wits and fists But when he fell for a conservative Southern belle her love transformed him from a wild and reckless airman to a cunning entrepreneur whose homespun engineering brilliance helped launch one of the first airlines in Asia Pappy was drafted into MacArthur s air force when war came to the Philippines and while he carried out a top secret mission to Australia the Japanese seized his family Separated from his beloved wife Polly and their four children Pappy reverted to his lawless ways He carried out rescue missions with an almost suicidal desperation Even after he was shot down twice and forced to withdraw to Australia he waged a one man war against his many enemies including the American high command and the Japanese and fought to return to the Philippines to find his family Without adequate planes supplies or tactics the U S Army Air Force suffered crushing defeats by the Japanese in the Pacific Over the course of his three year quest to find his family Pappy became the renegade who changed all that With a brace of pistols and small band of loyal followers he robbed supply dumps stole aircraft invented new weapons and modified bombers to hit harder fly farther and deliver more destruction than anything yet seen in the air When Pappy s modified planes were finally unleashed during the Battle of the Bismarck Sea the United States scored one of the most decisive victories of World War II Taking readers from the blistering skies of the Pacific to the jungles of New Guinea and the Philippines to one of the the war s most notorious prison camps Indestructible traces one man s bare knuckle journey to free the people he loved and the aerial revolution he sparked that continues to resonate across America s modern battlefields

Journalism's Roving Eye John Maxwell

Hamilton,2011-08-15 In all of journalism nowhere are the stakes higher than in foreign news gathering For media owners it is the most difficult type of reporting to finance for editors the hardest to oversee Correspondents roaming large swaths of the planet must acquire expertise that home based reporters take for granted facility with the local language for instance or an understanding of local cultures Adding further to the challenges they must put news of the world in context for an audience with little experience and often limited interest in foreign affairs a task made all the more daunting because of the consequence to national security In *Journalism's Roving Eye* John Maxwell Hamilton a historian and former foreign correspondent provides a sweeping and definitive history of American foreign news reporting from its inception to the present day and chronicles the economic and technological advances that have influenced overseas coverage as well as the cavalcade of colorful personalities who shaped readers perceptions of the world across two centuries From the colonial era when newspaper printers hustled down to wharfs to collect mail and periodicals from incoming ships to the ongoing multimedia press coverage of the Iraq War Hamilton explores journalism's constant and not always successful efforts at dishing the foreign news as James Gordon Bennett put it in the mid nineteenth century to describe his approach in the New York Herald He details the highly partisan coverage of the French Revolution the early emergence of special correspondents and the challenges of organizing their efforts the profound impact of the non yellow press in the run up to the Spanish American War the increasingly sophisticated machinery of propaganda and censorship that surfaced during World War I and the golden age of foreign correspondence during the interwar period when outlets for foreign news swelled and a large number of experienced independent journalists circled the globe From the Nazis intimidation of reporters to the ways in which American popular opinion shaped coverage of Communist revolution and the Vietnam War Hamilton covers every aspect of delivering foreign news to American doorsteps Along the way Hamilton singles out a fascinating cast of characters among them Victor Lawson the overlooked proprietor of the Chicago Daily News who pioneered the concept of a foreign news service geared to American interests Henry Morton Stanley one of the first reporters to generate news on his own with his 1871 expedition to East Africa to find Livingstone and Jack Belden a forgotten brooding figure who exemplified the best in combat reporting Hamilton details the experiences of correspondents editors owners publishers and network executives as well as the political leaders who made the news and the technicians who invented ways to transmit it Their stories bring the narrative to life in arresting detail and make this an indispensable book for anyone wanting to understand the evolution of foreign news gathering Amid the steep drop in the number of correspondents stationed abroad and the recent decline of the newspaper industry many fear that foreign reporting will soon no longer exist But as Hamilton shows in this magisterial work traditional correspondence survives alongside a new type of reporting *Journalism's Roving Eye* offers a keen understanding of the vicissitudes in foreign news an understanding imperative to better seeing what lies ahead *Fortitudine* ,1994 A
