Social Protection and Informal Workers in Sub-Saharan Africa Lone Riisgaard, Winnie V. Mitullah, Nina Torm, 2021-11-24

The promotion of social protection in Sub Saharan Africa happens in a context where informal labour markets constitute the norm and where most workers live uncertain livelihoods with very limited access to official social protection. The dominant social protection agenda and the associated literature come with an almost exclusive focus on donor and state programmes even if their coverage is limited to small parts of the populations and in no way stands measure to the needs. In these circumstances people depend on other means of protection and cushioning against risks and vulnerabilities including different forms of collective self organizing providing alternative forms of social protection. These informal bottom up forms of social protection are at a nascent stage of social protection discussions and little is known about the extent or models of these informal mechanisms. This book seeks to fill this gap by focusing on three important sectors of informal work namely transport construction and micro trade in Kenya and Tanzania. It explores how the global social protection agenda interacts with informal contexts and how it fits with the actual realities of the informal workers. Consequently the authors examine and compare the social protection models conceptualized and implemented from above by the public authorities in Tanzania and Kenya with social protection mechanisms from below by the informal workers own collective associations. The book will be of interest to academics in International Development Studies Political Economy and African Studies as well as development practitioners and policy communities.

Education, Poverty and Global Goals for Gender Equality Elaine Unterhalter, Amy North, 2017-08-07

Drawing on case study research that examined initiatives which engaged with global aspirations to advance gender equality in schooling in Kenya and South Africa this book looks at how global frameworks on gender education and poverty are interpreted in local settings and the politics of implementation. It discusses the forms of global agreements in particular contexts and allows for an appraisal of how they have been understood by the people who implement them. By using an innovative approach to comparative cross country research the book illuminates how ideas and actions connect and disconnect around particular meanings of poverty.

Law and Regulation of Mobile Payment Systems Joy Malala, 2017-11-28 Over the last ten years mobile payment systems have revolutionised banking in some countries in Africa In Kenya the introduction of M Pesa a new financial services model has transformed the banking and financial services industry Giving the unbanked majority access to the financial services market it has attracted over 18 million subscribers which is remarkable given that fewer than 4 million people in Kenya have bank accounts This book addresses the legal and regulatory issues arising out of the introduction of M Pesa in Kenya and its drive towards financial inclusion It considers the interaction between regulation and technological innovation with a particular focus on the regulatory tools institutional arrangements and government decisional processes through the examination as a whole of its regulatory capacity This is done with a view to understanding the regulatory capacity of Kenya in addressing the vulnerabilities presented by technological innovation in the financial industry for consumers after financial inclusion It also examines the way that mobile payments have been regulated by criticising the piecemeal approach that the Central Bank of Kenya has taken in addressing the legal and regulatory issues presented by mobile payments The book argues there are significant gaps in the regulatory regime of mobile banking in Kenya

Islamic Ecumene David S. Powers, Eric Tagliacozzo, 2023-11-15 The essays in Islamic Ecumene address the ways in which Muslims from Morocco to Indonesia and from sub Saharan Africa to the steppes of Uzbekistan are members of a broad cultural unit Although the Muslim inhabitants of these lands speak dozens of languages represent numerous ethnic groups and practice diverse forms of Islam they are united by shared practices and worldviews shaped by religious identity To highlight these commonalities the co editors invited a team of scholars from a wide range of disciplines to examine Muslim societies in comparative and interconnected ways The result is a book that showcases ethics education architecture the arts modernization political resistance marriage divorce and death rituals Using the insights and methods of historians anthropologists literary critics art historians political scientists and sociologists Islamic Ecumene seeks to understand Islamic identity as a dynamic phenomenon that is reflected in the multivalent practices of the more than one billion people across the planet who identify as Muslims

Democracy and Education in Namibia and Beyond Amukugo, Elizabeth M., 2017-07-19 The Namibian constitution makes full provision for education as a fundamental human right and freedom Three years into independence as part of the government s educational policy the Education for All Policy was launched as a stepping stone to

free quality education However inequities have become widely pronounced within the Namibian educational system Democracy and Education in Namibia and beyond debates the education democracy nexus in Namibia and the southern African context It defines and explores the meaning of democracy and related concepts It also looks at what democracy means in the context of human rights and access to education The ten chapters in this collection interrogate the strengths and limitations of education as an instrument of social change and question whether or not the Namibian educational objectives and practices do develop and help to sustain a democratic culture in Namibia The authors in the collection have drawn material from their own teaching and research experience across the fields of education and social science in Namibia and beyond and present their findings in a pedagogical framework suitable as a challenging text for tertiary students At a time when education is in crisis especially in South Africa where strident calls for free tertiary education and Africanisation of the curriculum are spreading like wildfire this book gives scholarly insight into the history and social conditions that gave rise to our current predicament

The Design of Frontier Spaces Carolyn Loeb, Andreas Luescher, 2016-03-09 In a globalizing world frontiers may be in flux but they remain as significant as ever New borders are established even as old borders are erased Beyond lines on maps however borders are spatial zones in which distinctive architectural graphic and other design elements are deployed to signal the nature of the space and to guide if not actually control behaviour and social relations within it This volume unpacks how manipulations of space and design in frontier zones historically as well as today set the stage for specific kinds of interactions and convey meanings about these sites and the experiences they embody Frontier zones organize an array of functions to facilitate the passage of goods information and people and to define and control access Bringing together studies from Asia Africa the Middle East Europe and North America this collection of essays casts a wide net to consider borders of diverse sorts Investigations of contemporary political frontiers are set within the context of examinations of historical borders borders that have existed within cities and virtual borders This range allows for reflection on shifts in how frontier zones are articulated and the impermanence of border emplacements as well as on likely scenarios for future frontiers This text is unique in bringing together a number of scholarly perspectives in the arts and humanities to examine how spatial and architectural design decisions convey meaning shape or abet specific social practices and stage memories of frontier zones that no longer function as such It joins and expands discussions in social science disciplines in which considerations of border practices tend to overlook the role of built form and material culture more broadly in representing social practices and meanings
