Massing, 2024-08-08 Con un alto grado de rigurosidad académica el cual se aprecia en el marco conceptual y metodológico del estudio así como una casi palpable sensibilidad por los temas de la educación la infancia y la formación de maestros los autores logran explorar en este estudio las relaciones que se establecen entre las formas propias o locales en el estudio denominadas indígenas de pensamiento las prácticas de enseñanza y el discurso occidental respecto a la formación de maestros para la primera infancia en tres países distintos recurriendo a perspectivas más contemporáneas de la educación comparada Developmentalism, Dependency, and the State: Industrial Development and Economic Change in Namibia since 1900

Christopher Hope, 2020-09-23 Why does Namibia's economy look the way it does today Was the reliance on raw

materials for exports and on the service sector for employment an inevitability And for what reasons has the manufacturing sector the vehicle for economic development for many now high income countries throughout the 19th and 20th centuries seen its growth held back With these questions in mind this book offers an extensive analysis of industrial development and economic change in Namibia since 1900 exploring their causes trajectory vicissitudes context and politics Its focus is particularly on the motivations behind the economic decisions of the state arguing that power relations both internationally and domestically have held firm a status quo that has resisted efforts towards profound economic change This work is the first in depth economic study covering both the colonial and independence eras of Namibia s history and provides the first history of the country s manufacturing sector

South Sudan Skills Story Lawrence M. Tombe,2017-09-28 The South Sudan Skills Story is an account about manpower and education development in South Sudan a narrative that includes efforts exerted in attainment of the much needed workforce for fuelling the countrys economy now fatally impacted by the ongoing internal strife Prior to escalation of the armed conflict that broke out in December 2013 hardly four years after the country gained its sovereignty on July 9 2011 the new nation was on course in setting up its new education system and basis of sustainable human development now shattered by the vicious war The conflict has eroded the countrys human potential through loss of life skills wastage and extreme brutalities perpetrated against citizens by the war drivers The education quandary is compounded by displacement of over 3 million people from their homes and localities a dire situation that has caused severe food insecurity affecting over 7 5 million people With over 2 million children forced out of school particularly in the most

conflict affected regions of South Sudan including over 1.4 million forced out of the country as refugees to neighbouring countries it means that one in every three children in the country is out of school. The scale and magnitude of the unending human dispersal has severely curtailed South Sudan's ability to provide education to all its citizens. The once adopted slogan of bringing education to all in the country is now a far cry as the new nation heads to total collapse if the conflict is not halted. The South Sudan Skills Story urges the leaders of South Sudan who are proponents of the conflict to rise above self-serving political cleavages to stop the war for peace so that all the citizens are availed the opportunity to realize their fullest potential for development of the country. The narrative concludes that the people of this young nation will remain one of the most undereducated populations in the world as long as the legacy of war, violence and impunity prevails in the country.
