## University Of North West Prospectus:

*Bulletin*, 1901 *Catalogue of the Periodicals and Other Serial Publications* United States. Department of Agriculture. Library, 1901 Handbook on Green Infrastructure Danielle Sinnett, Nick Smith, Sarah Burgess, 2015-11-27 Green infrastructure encompasses many features in the built environment. It is widely recognised as a valuable resource in our towns and cities and it is therefore crucial to understand, create, protect and manage this resource. This Handbook sets the context for green infrastructure as a means to make urban environments more resilient, sustainable, liveable and equitable. Including state of the art reviews that summarise the existing knowledge as well as research findings, this Handbook provides current evidence for the beneficial impact of green infrastructure on health, environmental quality and the economy. It discusses the planning and design of green infrastructure as a strategic network down to the individual features in a neighbourhood and looks at the process of green infrastructure implementation, emphasising the importance of collaboration across multiple professions and sectors. This comprehensive volume operates at multiple spatial scales from strategic networks at the regional level to individual features in neighbourhoods, with international case studies used throughout to illustrate key examples of good practice. This collection of expert contributions will be invaluable to students and academics in the fields of planning, urban studies and geography. Practitioners and policy makers will also find the policy discussion and examples enlightening. *The Strategic Repositioning of Arts, Culture and Heritage in the 21st Century* George Mugovhani, Owen Seda, 2018-06-11 The post millennium world has been experiencing several recognisable historical milestones with regard to arts, culture and heritage. One of these has been the resuscitation and revival of creative elements of the arts, culture and heritage of previously marginalised or disadvantaged communities around the world. Until recently there had been scant regard and skewed allocation of resources for these, but lately attempts have been made to promote and sustain them in order to enable the socio-economic aspirations of a multicultural society. The contributions brought together here are the product of papers that were presented during a conference on Strategic Repositioning of Arts, Culture and Heritage in the 21st Century. They cover a broad spectrum of subjects such as indigeneity, music, song and identity, politics, national reconciliation, education, product development and national development. Handbook of Research on Administration, Policy, and Leadership in Higher Education Mukerji, Siran, Tripathi, Purnendu, 2016-09-27 The creation of a sustainable and accessible higher education system is a pivotal goal in modern society. Adopting strategic frameworks and innovative techniques allows institutions to achieve this objective. The Handbook of Research on Administration, Policy and Leadership in Higher Education is an authoritative reference source for the latest scholarly research on contemporary management issues in educational institutions and presents best practices to improve policies and retain effective governance. Addressing the current state of higher education at an international level, this book is ideally designed for academicians, educational administrators, researchers and professionals. *Utopian Universities* Miles Taylor, Jill

Pellew,2020-11-12 In a remarkable decade of public investment in higher education some 200 new university campuses were established worldwide between 1961 and 1970 This volume offers a comparative and connective global history of these institutions illustrating how their establishment intellectual output and pedagogical experimentation sheds light on the social and cultural topography of the long 1960s With an impressive geographic coverage using case studies from Europe the Americas Africa and Asia the book explores how these universities have influenced academic disciplines and pioneered new types of teaching architectural design and student experience From educational reform in West Germany to the establishment of new institutions with progressive interdisciplinary curricula in the Commonwealth the illuminating case studies of this volume demonstrate how these universities shared in a common cause the embodiment of utopian ideals of living learning and governance At a time when the role of higher education is fiercely debated Utopian Universities is a timely and considered intervention that offers a wide ranging historical dimension to contemporary predicaments

**Bulletin** United States. Dept. of Agriculture. Library, Catalogue of Accessioned Publications World Data Center A--Oceanography,1978 *The Bar U & Canadian Ranching History* S. M. Evans,2004 For much of its 130 year history the Bar U Ranch can claim to have been one of the most famous ranches in Canada Its reputation is firmly based on the historical role that the ranch has played its size and longevity and its association with some of the remarkable people who have helped develop the cattle business and build the Canadian West The long history of the ranch allows the evolution of the cattle business to be traced and can be seen in three distinct historical periods based on the eras of the individuals who owned and managed the ranch These colourful figures beginning with Fred Stimson then George Lane and finally Pat Burns have left an indelible mark on the Bar U as well as Canadian ranching history The Bar U and Canadian Ranching History is a fascinating story that integrates the history of ranching in Alberta with larger issues of ranch historiography in the American and Canadian West and contributes greatly to the overall understanding of ranching history
