Information Services for a Sustainable Society Madeleine C. Fombad, Collence Takaingehamo Chisita, Omwoyo Bosire Onyancha, Mabel K. Minishi-Majanja, 2023-07-24 The publication seeks to establish how information professionals are providing information services in a sustainable society in an era of information disorder. It also provides the strategic direction to strengthen the global voice of libraries inspiring and enhancing professional practice as well as enhancing international cooperation and collaboration among LIS educators and practitioners. The contents are divided according to the following key sub themes that resonate with the title as outlined below: Library and information services in the information age; Data and records in an era of information disorder; Archives data curation and preservation in the digital era; Data science analytics and visualization; Information ethics in the digital era; Information deluge in the digital era; Information and knowledge management; Fourth Industrial revolution. The highlighted themes explore critical issues relating to how libraries, archives and related institutions are responding to the seismic shifts in the information landscape amidst a myriad of challenges and opportunities. The sub themes bring together a tapestry of articles that explore the status, experiences and future prospects of the dynamic library and information science practice.

Challenges and Opportunities of Open Educational Resources Management Thanuskodi, S., 2020-06-26 Education is a fundamental human right yet much of the world's population lives with poor literacy. Due to rapidly growing technology and internet usage, open educational resources (OER) are increasingly being used to help transcend barriers to literacy while also aiding in educational attainment. With tremendous developments in ICTs, the education system of today has been enriched by various OERs. The optimal utilization of opportunities provided by the technological developments presents a profound challenge for education systems and has serious implications involving cost, access, equity, pedagogy and quality. **Challenges and Opportunities of Open Educational Resources Management** is an essential research publication that explores access to information and societal and economic hurdles that contribute to informational inaccessibility. Highlighting topics such as e-resources, digital libraries and information management, this book is ideal for librarians, academicians, computer scientists, researchers, policymakers and students. Moreover, the book will provide insights and support executives concerned with the management of expertise, knowledge, information and organizational development in different types of work communities and environments.

Research Anthology on Collaboration, Digital Services, and Resource Management for the Sustainability of Libraries Management Association, Information Resources, 2021-01-15 Faced with increased budget cuts, libraries must continue to advance their services through new technologies and practices in order to keep pace with the rapid changes society is currently facing. The once traditional in-person services offered can no longer be the only option and to keep themselves afloat, libraries must offer more in terms of digital services. The convenience of offering mobile and digital services brings a new wave of accessibility to libraries and a new question on just how much libraries will need to change to

meet the newfound needs of its patrons Beyond offering these digital services libraries are incorporating other types of technology in multifaceted ways such as utilizing artificial intelligence practices social media and big data management Moreover libraries are increasingly looking for ways to partner and collaborate with the community faculty students and other libraries in order to keep abreast of the best practices and needs of their users The Research Anthology on Collaboration Digital Services and Resource Management for the Sustainability of Libraries explores emerging strategies and technologies that are redefining the role of the library within communities and academia This reference book covers extensive ground on all the ways libraries have shifted to manage their resources digitalize their services and market themselves within the new technological revolution These continued shifts for libraries come with benefits challenges and future projections that are critical for discussion as libraries continue to strive to remain updated and relevant in times of change This book is ideal for librarians archivists collection managers IT specialists electronic resource librarians practitioners stakeholders researchers academicians and students who are interested in the current state of libraries and how they are transforming to fit modern needs
