Unnaturally French Foreign Citizens In The Old Regime And After:

Unnaturally French Peter Sahlins, 2004 The making of the absolute citizen The letter of naturalization in the old regime The use and abuse of naturalization Status and socioprofessional identities Geographic origins and residence Temporal patterns of naturalization From law to politics before the French Revolution Naturalization and the Droit d'Aubaine from the French Revolution to the Bourbon Restoration Ending the old regime in 1819 Imperialism and the Corruption of Democracies Herman Lebovics, 2006 In this important volume Herman Lebovics a preeminent cultural historian of France develops a historical argument with striking contemporary relevance empire abroad inevitably undermines democracy at home These essays which Lebovics wrote over the past decade demonstrate the impressive intellectual range of his work Focusing primarily on France and to a lesser extent on the United Kingdom he shows how empire and its repercussions have pervaded and corroded Western cultural intellectual and social life from the mid nineteenth century to the present Some essays explore why modern Western democratic societies needed colonialism Among these is an examination of the seventeenth century philosopher John Locke's prescient conclusion that liberalism could only control democratic forces with the promise of greater wealth enabled by empire In other essays Lebovics considers the relation between overseas rule and domestic life Discussing George Orwell's tale Shooting an Elephant and the careers of two colonial officers one British and one French he contemplates the ruinous authoritarianism that develops among the administrators of empire Lebovics considers Pierre Bourdieu's thinking about how colonialism affected metropolitan French life and he reflects on the split between sociology and ethnology which was partly based on a desire among intellectuals to think one way about metropolitan populations and another about colonial subjects Turning to the arts Lebovics traces how modernists used the colonial exotic to escape the politicized and contested modernity of the urban West Imperialism and the Corruption of Democracies is a compelling case for cultural history as a key tool for understanding the injurious effects of imperialism and its present day manifestations within globalization *Dual Nationality in the European Union* Olivier Vonk, 2012-03-19 The book examines the phenomenon of dual nationality in the European Union particularly against the background of the status of European citizenship a status that is linked to the nationality of each EU Member State While the first part sets out the approach towards dual nationality in Public and Private International Law as well as in EU Law the second part consists of an overview of the dual nationality regimes in France Italy the Netherlands and Spain The book shows that the autonomy of Member States in the field of nationality law is becoming increasingly problematic for the EU and the author takes the position that there is arguably a need for the minimum harmonization of European nationality laws **Policing Paris** Clifford D. Rosenberg, 2018-07-05 The surveillance of immigrants and potential terrorists preoccupies leaders throughout the industrialized world Yet these concerns are hardly new Policing Paris examines a critical moment in the history of immigration control and political surveillance Drawing on massive police archives and other materials Clifford Rosenberg

shows how in the years after the Great War the French police terrified by the Bolshevik Revolution and the specter of immigrant criminality became the first major force anywhere systematically to enforce distinctions of citizenship and national origins As the French capital emerged as a haven for refugees dissidents and workers from throughout Europe and across the Mediterranean in the 1920s police officers raided immigrant neighborhoods to scare illegal aliens into registering with authorities and arrested those whose papers were not in order The police began to concentrate on colonial workers from North Africa tracking these workers with a special police brigade and segregating them in their own hospital when they fell ill Transformed by their enforcement legal categories that had existed for hundreds of years began to matter as never before They determined whether or not families could remain together and whether people could keep their jobs or were forced to flee During World War II identity controls marked out entire populations for physical destruction The treatment of foreigners during the Third Republic Rosenberg contends shaped the subsequent treatment of Jews by Vichy At the same time however he argues that the new methods of identification pioneered between the wars are more directly relevant to the present day They created forms of inclusion and inequality that remain pervasive as industrial welfare states around the world find themselves compelled to provide benefits to their own citizens and recruit foreign nationals to satisfy their labor needs

Citizenship, Inequality, and Difference Frederick Cooper, 2021-04-06 Offers an overview of citizenship's complex evolution from ancient Rome to the present Political leaders and thinkers still debate as they did in Republican Rome whether the presumed equivalence of citizens is compatible with cultural diversity and economic inequality The author presents citizenship as claim making the assertion of rights in a political entity What those rights should be and to whom they should apply have long been subjects for discussion and political mobilization while the kind of political entity in which claims and counterclaims have been made has varied over time and space Citizenship ideas were first shaped in the context of empires The relationship of citizenship to nation and empire was hotly debated after the revolutions in France and the Americas and claims to imperial citizenship continued to be made in the mid twentieth century The author examines struggles over citizenship in the Spanish French British Ottoman Russian Soviet and American empires and explains the reconfiguration of citizenship questions after the collapse of empires in Africa and India The author explores the tension today between individualistic and social conceptions of citizenship as well as between citizenship as an exclusionary notion and flexible and multinational conceptions of citizenship

Diaspora diplomacy Ayca Arkilic, 2022-06-07 Since the early 2000s Turkey has shown an unprecedented interest in its diaspora This book provides the first in depth examination of the institutionalisation of Turkey's diaspora engagement policy since the Justice and Development Party's rise to power in 2002 the Turkish diaspora's new role as an agent of diplomatic goals and how Turkey's growing sphere of influence affects intra diaspora politics and diplomatic relations with Europe The book is based on fieldwork in Turkey France and Germany and interviews conducted with diaspora organisation leaders and policymakers Diasporas have become transformative for

relations at the state to state level and blur the division between the domestic and the foreign A case study of Turkey's diasporas is significant at a time when emigrants from Turkey form the largest Muslim community in Europe and when issues of diplomacy migration and citizenship have become more salient than ever *Revoking Citizenship* Ben Herzog, Ediberto Román, 2017-03 In *Revoking Citizenship* Ben Herzog reveals America's long history of stripping citizenship away from both naturalized immigrants and native born citizens Tracing this history from the nation's beginnings through the War on Terror Herzog locates the sociological political legal and historic meanings of revoking citizenship Why when and with what justification do states take away citizenship from their subjects Using the history and policies of revoking citizenship as a lens the book examines describes and analyzes the complex relationships between citizenship immigration and national identity

Citizen Sailors Nathan Perl-Rosenthal, 2015-10-12 After 1776 Americans struggled to gain recognition of their new republic and their rights as citizens None had to fight harder than the nation's seamen whose labor took them deep into the Atlantic world Nathan Perl Rosenthal tells the story of how their efforts created the first national racially inclusive model of U S citizenship **The French Revolution in Global Perspective** Suzanne Desan, Lynn Hunt, William Max Nelson, 2013-04-15 The French Revolution in Global Perspective illuminates the dense connections among the cultural social and economic aspects of the French Revolution revealing how new political forms at once democratic and imperial anticolonial and centralizing were generated in and through continual transnational exchanges and dialogues Believe i Situating the French Revolution in the context of early modern globalization for the first time this book offers a new approach to understanding its international origins and worldwide effects A distinguished group of contributors shows that the political culture of the Revolution emerged out of a long history of global commerce imperial competition and the movement of people and ideas in places as far flung as India Egypt Guiana and the Caribbean This international approach helps to explain how the Revolution fused immense idealism with territorial ambition and combined the drive for human rights with various forms of exclusion The essays examine topics including the role of smuggling and free trade in the origins of the French Revolution the entwined nature of feminism and abolitionism and the influence of the French revolutionary wars on the shape of American empire *Almost Citizens* Sam Erman, 2019 Tells the tragic story of Puerto Ricans who sought the post Civil War regime of citizenship rights and statehood but instead received racist imperial governance
