Unrestricted Warfare:

Unrestricted Warfare Liang Qiao,Xiangsui Wang,2002 Three years before the September 11 bombing of the World Trade Center a Chinese military manual called Unrestricted Warfare touted such an attack suggesting it would be difficult for the U S military to cope with The events of September 11 were not a random act perpetrated by independent agents The doctrine of total war outlined in Unrestricted Warfare clearly demonstrates that the People s Republic of China is preparing to confront the United States and our allies by conducting asymmetrical or multidimensional attack on almost every aspect of our social economic and political life Unrestricted Warfare Qiao Liang,Wang Xiangsui,2020-07-09 2020 Facsimile of the 1999 Edition Unrestricted Warfare is a book on military strategy written in 1999 by two colonels in the People s Liberation Army Its primary concern is how a nation such as the People s Republic of China can defeat a technologically superior opponent such as the United States through a variety of strategies Rather than focusing on direct military confrontation this book instead examines a variety of other means Such means include using International Law see Lawfare and a variety of economic means to place one s opponent in a weakened position and circumvent the need for direct military action Of the various strategies discussed perhaps the most relevant is that of attacking networks Networks are increasingly important in not only data exchange but also transportation financial institutions and communication Attacks that disable networks can easily hamstring large areas of life that are dependent on them for coordination One example of network warfare would be shutting down a network that supplies power If there is a significant failure in the power grid caused by the attack massive power outages could result crippling industry defense medicine and all other areas of life The English translation of the book was made available by the Foreign Broadcast Information Service in 1999 Errors in translations are the sole responsibility of the Foreign Broadcast Information Service and not of Albatross Publishing Fifth Generation Warfare Armin Krishnan,2024-03-11 This book outlines the concept of Fifth Generation Warfare 5GW and demonstrates its relevance for understanding contemporary conflicts Non kinetic modes of attack and war waged by groups or non state actors at the societal level has been termed 5GW This book discusses the theory of generational warfare and explores the key ideas of 5GW such as secrecy the manipulation of proxies the manipulation of identity and culture including disinformation and big data and the use of psychological warfare These techniques are used to achieve strategic objectives such as inducing desired behaviour and controlling human terrain without resorting to overt war or overt violence The text expands the debate on 5GW by exploring emerging technologies and how they could be used for maliciously shaping human society and even for maliciously changing the genetic makeup of a population for the purpose of unprecedented social control The work closes with comments on the possibility of a Sixth Generation of Warfare which targets technical systems to possibly collapse a society through strategic sabotage Overall the book demonstrates the relevance of 5GW for understanding contemporary conflicts from the Arab Spring to the war in Ukraine in terms of the need for dominating the human domain This book will be

of interest to students of security and technology defence studies and International Relations

Stretching and Exploiting Thresholds for High-Order War Ben Connable, Jason H. Campbell, Dan Madden, 2016-05-05 Since 9 11 Russia China and Iran have successfully exploited or stretched U S thresholds for high order war in order to further their strategic ends and in the process undermine U S interests Each of these countries has made expert use of some combination of measures short of war to enact its strategies This report describes those measures and how these nation states use them and explains why U S notions of thresholds might be outdated

Civilized Civil War Aaron L. Hirschi, 2025-09-04 *Civilized Civil War* is a chilling exploration of the vulnerabilities lurking within modern Western democracies Drawing on his extensive background in military intelligence and national security Aaron Hirschi presents a meticulously crafted scenario of how a foreign power implicitly China could orchestrate internal conflict in a developed nation without firing a single shot This groundbreaking analysis delves deep into the strategies and tactics of both the foreign backed elites FBE seeking to subvert democracy and the national resistance forces NRF fighting to preserve it Hirschi s unique insight brings to life the shadowy world of 5th Gradient Warfare where battles are fought through information manipulation economic sabotage and social engineering rather than traditional military confrontation But *Civilized Civil War* is more than just a hypothetical war game It serves as a stark wake up call highlighting real world vulnerabilities in our energy policies education systems and media landscapes that could be exploited by adversaries Hirschi challenges readers to reconsider long held assumptions about governance international cooperation and the very nature of modern conflict As tensions between China and the West continue to escalate this book provides crucial insight into the potential battlegrounds of the future It is essential reading for policymakers military strategists and concerned citizens alike anyone who seeks to understand and defend against the invisible threats to our democratic way of life

Russian "Hybrid Warfare" Ofer Fridman, 2018-08-01 During the last decade Hybrid Warfare has become a novel yet controversial term in academic political and professional military lexicons intended to suggest some sort of mix between different military and non military means and methods of confrontation Enthusiastic discussion of the notion has been undermined by conceptual vagueness and political manipulation particularly since the onset of the Ukrainian Crisis in early 2014 as ideas about Hybrid Warfare engulf Russia and the West especially in the media Western defense and political specialists analyzing Russian responses to the crisis have been quick to confirm that Hybrid Warfare is the Kremlin s main strategy in the twenty first century But many respected Russian strategists and political observers contend that it is the West that has been waging Hybrid War *Gibridnaya Voyna* since the end of the Cold War In this highly topical book Ofer Fridman offers a clear delineation of the conceptual debates about Hybrid Warfare What leads Russian experts to say that the West is conducting a *Gibridnaya Voyna* against Russia and what do they mean by it Why do Western observers claim that the Kremlin engages in Hybrid Warfare And beyond terminology is this something genuinely new

The Indictment Frank Gaffney, Dede Laugesen, 2023-05-09 A generation ago Ronald Reagan mapped out and

executed a strategy for taking down the last totalitarian communist regime that sought America's destruction the Soviet Union's evil empire We can settle for no less with respect to our time's existential threat to freedom The Chinese Communist Party CCP can and must be thwarted in its determined bid to crush liberty destroy our country and institute what Xi Jinping calls global governance directed and enforced from Beijing This book represents the fruits of a comprehensive effort to develop and champion a Reaganesque strategy for our time It draws upon a comprehensive program of some seventy webinars conducted by the Committee on the Present Danger China addressing 1 the CCP's decades long self-described Unrestricted Warfare against America and 2 the role America's elites have played in helping the Chinese Communists win Drawing upon all this content The Indictment identifies nine criminal charges that can and must be brought and prosecuted at least in the court of public opinion against the Chinese Communist Party and its American enablers If moreover the CCP is designated as the Transnational Criminal Organization it is actual criminal prosecutions of the Party and its friends should also be possible The Indictment also enumerates twenty specific actions that are required to punish the perpetrators of war crimes against America and humanity and defeat those likely in the offing The Indictment is intended to inspire and equip congressional investigators patriotic executive branch officials journalists and the public at large to review these charges and recommended actions for a surpassingly important and extremely urgent purpose Bringing to justice and taking down the Chinese Communist Party for its horrific criminal conduct past present and that which is in the works against its own people and countless others including ours

The Caliphate at War Ahmed Hashim, 2018 Innovation is key to military success as Ahmed S Hashim explains in his study of how Islamic State functions as a fighting social media and administrative entity

21st Century Chinese Cyberwarfare William Hagestad II, 2012-03-05 21st Century Chinese Cyberwarfare draws from a combination of business cultural historical and linguistic sources as well as the author's personal experience to attempt to explain China to the uninitiated The objective of the book is to present the salient information regarding the use of cyber warfare doctrine by the People's Republic of China to promote its own interests and enforce its political military and economic will on other nation states The threat of Chinese Cyberwarfare can no longer be ignored It is a clear and present danger to the experienced and innocent alike and will be economically societally and culturally changing and damaging for the nations that are targeted

Wuhan Liao Yiwu, 2024-05-01 As rumours of a strange new illness in Wuhan spread via social media in China 25 year old citizen reporter Kcriss decides to travel to the epicentre of the disaster to try to find out what is really going on He sees an ad for corpse carriers at a funeral home Male or female 16 50 years old unafraid of ghosts and decides to apply He quickly realises that the official death figures bear no relation to what is happening in the local crematoria But the brief moment when he can tell the truth to his followers on social media is soon over he is discovered followed and arrested by the security police all documented live on the internet In this startlingly topical documentary novel Liao Yiwu takes us into the heart of the crisis that unfolded in Wuhan and unpicks the secrecy and cover up that surrounded
