Unruly Places:

Unruly Places Alastair Bonnett, 2014-07-08 This guide to weird ruined and wonderful spots across the globe explores disappearing islands forbidden deserts and much more a terrific book Los Angeles Times At a time when Google Maps Street View can take you on a virtual tour of Yosemite's remotest trails it's hard to imagine there's any uncharted ground left on the planet But in *Unruly Places* Alastair Bonnett rekindles our geographical imaginations with excursions into some of the world's most peculiar places such as moving villages secret cities no man's lands and floating islands Bonnett investigates Sandy Island a place that appeared on maps until just two years ago despite the fact that it never existed Sealand an abandoned gun platform off the English coast that a British citizen claimed as his own sovereign nation issuing passports and crowning his wife as a princess Baarle a patchwork of Dutch and Flemish enclaves where walking from the grocery store's produce section to the meat counter can involve crossing national borders and many other curious locales In this delightfully quirky guide down the road much less traveled Bonnett reveals that the most extraordinary places on earth might be hidden in plain sight Ron Charles Washington Post

Unruly Places Alastair Bonnett, 2014 Alastair Bonnett explores extraordinary off grid offbeat places including micro nations moving villages secret cities and no man's lands Consider Sealand an abandoned gun platform off the English coast that a British citizen claimed as his own sovereign nation issuing passports and making his wife a princess Or Baarle a patchwork city of Dutch and Flemish enclaves where crossing the street can involve traversing national borders Or Sandy Island which appeared on maps well into 2012 despite the fact it never existed Unruly Cities? Chris Brook, Gerry Mooney, Steve Pile, 2006-02 The text argues that cities are open to many forms of order and disorder both from within the city and outside They represent cities potentials as well as their problems It challenges the assumption that cities are threatened by disorder from below and that they might be ruled by order imposed from above *An Unruly World?* Andrew Herod, Geroid O Tuathail, Susan M. Roberts, 2002-09-11 *An Unruly World* explores the diverse conundrums thrown up by seemingly unruly globalization Examining how fast transnational capitalism is re making the rules of the game in a wide variety of different places domains and sectors the authors focus on a wide range of issues from analysis of soft capitalism and the post Cold War organizational drives of international trade unions to the clamour of states to reinvent welfare policy and the efforts of citizen groups to challenge trade and financial regimes *An Unruly World* argues that we are not living in a world bereft of rules and rulers the rules governing the global economy today are more strictly enforced by international organizations and rhetoric than ever before *Unruly People* Robert J. Antony, 2016-08-01

The Playful University Rikke Toft Nørgård, Nicola Whitton, 2024-12-12 This book provides philosophical political and practical insights that open ways for the university in going beyond its tightly controlled state and into more playful and imaginative futures In the context of a marketised and regulated environment that stifles creativity and curiosity in higher education this collection provides an antidote that lies in the potential of play It identifies tactics and tools for playful practices to conjure real utopias

and pathways for the present and possible futures Pulling together global perspectives from a wide array of different disciplines including higher education sociology philosophy media studies design literature play studies game studies and political science it concludes with a collaborative chapter that offers philosophically and theoretically grounded principles for the playful university The book shows that it is possible to reimagine a higher education in which students and staff approach their studies with a sense of purpose care and openness to explore imagine and build a better future Looking beyond pedagogy to imagination and wonder as important perspectives within the university this is an essential read for those interested in play and subversion in higher education

Education for Employability (Volume 2) Joy Higgs, Will Letts, Geoffrey Crisp, 2019-08-12 We often look back at changing trends in higher education and call them bandwagons temporary fads that everyone rushes to be part of and jump on While much of the hype and jargon of The Employability Agenda may fade from the tip of our tongues or perhaps be subsumed into the norm in the mid future there are two fundamental changes that will not the digital revolution embedded in changing work and economic practices and the re globalisation of the world that this and other politico economic changes have brought about These will continue to be part of how we live and work so tertiary education will need to take its part in supporting employ ability far beyond either the timing or scope of preparation for initial employment Employability is important to local national and international labour market contexts parameters and policies As well as impacting workforces employability is an essential characteristic of workers It is very important that employability is understood and enacted as personal employability not just employment of individuals We have found that employability is defined as much if not more by mindset rather than skillset Part of this mindset involves recognising the unknowns of future work and an even bigger part is recognising our responsibilities as workers and educators lies in shaping our own employability and that of the novice learners and workers in our spaces of influence and communities of practice In *Education for Employability Volume 2 Learning for Future Possibilities* we continue on from the big agenda discussions of *Education for Employability Volume 1 The Employability Agenda* to explore education for employability in a variety of spaces in the context of higher education as an entrance into the workforce in joining communities of practice and in the lifelong pursuit of employability preparing people for a portfolio of careers rather than a job for life These two books show how educational leaders educators industry partners and thought leaders are imagining and addressing the challenges posed by the current and future changes facing our work practices and workplaces

Dialogue in Places of Learning Adam Cooper, 2016-06-23 Showing how youth from one of the poorest and most violent neighborhoods in Cape Town South Africa learn differently in three educational contexts in classrooms in a community hip hop crew on a youth radio show this book illuminates how South African schools like schools elsewhere subtly reproduce inequalities by sorting students into social hierarchies linked to assessments of their use of language Highlighting the voices and perspectives of young South Africans this case study of youth in the global South explores how language is linked to

cultural mixing which occurred during colonialism and slavery and continues through patterns of global mobility Dialogue in Places of Learning Youth Amplified in South Africa demonstrates how language and learning are bound to space and place
