Unsecular Man The Persistence Of Religion:

Unsecular Man Andrew M. Greeley, 1972 Views religion from a sociological perspective emphasizing the similarities of modern religious functions and institutions to those of ancient civilizations *The Anthem Companion to Alexis de Tocqueville* Daniel Gordon, 2019-05-30 The Anthem Companion to Alexis de Tocqueville contains original interpretations of Tocqueville's major writings on democracy and revolution as well as his lesser known writings on colonies prisons and minorities The Introduction by Daniel Gordon discusses how Tocqueville was canonized during the Cold War and the need to reassess the place of Tocqueville's voice in the conversation of post Marxist social theory Each chapter that follows compares Tocqueville's ideas on a given subject with those of other major social theorists including Bourdieu Dahl Du Bois Foucault Levi Strauss and Marx This comprehensive volume is based on the idea that Tocqueville was not merely a founder or precursor whose ideas have been absorbed into modern social science The broad questions that Tocqueville raised his comparative vision and his unique vocabulary and style can inspire deeper thinking in the social sciences today Lost Lutherans Chris Suehr, 2024-12-15 Lost Lutherans Perspectives on American Religious Decline offers a straightforward look at change in American religion Chris Suehr presents the Evangelical Lutheran Church in America ELCA as an example of religious change in a way that is welcoming to interested readers and fulfilling to social scientists By amplifying real voices this book presents the social science but also explores the stories behind its statistics the people who have left their reasons their beliefs and their quests Lost Lutherans is a useful resource on specific areas of American religion from the history of the Mainline to the voices of modern people who have left it This book examines the gradual changes in society culture and institutions that have led to this religious transformation A More Perfect Union Linda Sargent Wood, 2012-08-01 In 1962 when the Cold War threatened to ignite in the Cuban Missile Crisis when more nuclear test bombs were detonated than in any other year in history Rachel Carson released her own bombshell Silent Spring to challenge society's use of pesticides To counter the use of chemicals and bombs the naturalist articulated a holistic vision She wrote about a web of life that connected humans to the world around them and argued that actions taken in one place had consequences elsewhere Thousands accepted her message joined environmental groups flocked to Earth Day celebrations and lobbied for legislative regulation Carson was not the only intellectual to offer holistic answers to society's problems This book uncovers a sensibility in post World War II American culture that both tested the logic of the Cold War and fed some of the twentieth century's most powerful social movements from civil rights to environmentalism to the counterculture The study examines important leaders and institutions that embraced and put into practice a holistic vision for a peaceful healthful and just world nature writer Rachel Carson structural engineer R Buckminster Fuller civil rights leader Martin Luther King Jr Jesuit priest and paleontologist Pierre Teilhard de Chardin humanistic psychologist Abraham Maslow and the Esalen Institute and its founders Michael Murphy and Dick Price Each looked to whole systems instead of parts and focused on connections interdependencies and

integration to create a better world Though the 60s dreams of creating a more perfect world were tempered by economic inequalities political corruption and deep social divisions this holistic sensibility continues to influence American culture today

A Sociology of Spirituality Peter C. Jupp,2016-03-16 The emergence of spirituality in contemporary culture in holistic forms suggests that organised religions have failed This thesis is explored and disputed in this book in ways that mark important critical divisions This is the first collection of essays to assess the significance of spirituality in the sociology of religion The authors explore the relationship of spirituality to the visual individualism gender identity politics education and cultural capital The relationship between secularisation and spirituality is examined and consideration is given to the significance of Simmel in relation to a sociology of spirituality Problems of defining spirituality are debated with reference to its expression in the UK the USA France and Holland This timely original and well structured volume provides undergraduates postgraduates and researchers with a scholarly appraisal of a phenomenon that can only increase in sociological significance

The Marketplace of Christianity Robert B. Ekelund, Jr.,Robert F. Hebert,Robert Tollison,2008-09-26 Economics can help us understand the evolution and development of religion from the market penetration of the Reformation to an exploration of today s hot button issues including evolution and gay marriage This startlingly original and sure to be controversial account of the evolution of Christianity shows that the economics of religion has little to do with counting the money in the collection basket and much to do with understanding the background of today s religious and political divisions Since religion is a set of organized beliefs and a church is an organized body of worshippers

it is natural to use a science that seeks to explain the behavior of organizations economics to understand the development of organized religion The Marketplace of Christianity applies the tools of economic theory to illuminate the emergence of Protestantism in the sixteenth century and to examine contemporary religion influenced issues including evolution and gay marriage The Protestant Reformation the authors argue can be seen as a successful penetration of a religious market dominated by a monopoly firm the Catholic Church The Ninety five Theses nailed to the church door in Wittenberg by Martin Luther raised the level of competition within Christianity to a breaking point The Counter Reformation the Catholic reaction continued the competitive process which came to include product differentiation in the form of doctrinal and organizational innovation Economic theory shows us how Christianity evolved to satisfy the changing demands of consumers worshippers The authors of The Marketplace of Christianity avoid value judgments about religion They take preferences for religion as given and analyze its observable effects on society and the individual They provide the reader with clear and nontechnical background information on economics and the economics of religion before focusing on the Reformation and its aftermath Their analysis of contemporary hot button issues science vs religion liberal vs conservative clerical celibacy women and gay clergy gay marriage offers a vivid illustration of the potential of economic analysis to contribute to our understanding of religion *Andrew M. Greeley* Elizabeth Harrison,1994 A needed and timely scholarly resource beneficial as a major resource for anyone studying Greeley's life and thought a masterful collation of Greeley materials **Jewish Spirituality and Divine Law** Adam Mintz, Lawrence H. Schiffman,2005
