Untapped Potential Turning Ordinary People Into Extraordinary Performers:

Untapped Potential Jack Lannom, 1998-06-14 Unleash the strategies for success You are a winner You desire to build a home and business that radiates excellence and resonates with passion You possess the desire to build lives and pass on a legacy but until now you lacked the specific how to techniques that will allow you to achieve your full capability and that will enable you to inspire discretionary effort in others Now realize your Untapped Potential In this book you will Learn the twelve secrets for turning ordinary people into extraordinary performers Discover how to bring out the best in yourself and in everyone around you by learning the Seven Powers of Personhood Master the five secrets for turning the workplace into a fun place Learn the three essentials for becoming a master of human performance technology Untapped Potential is unparalleled in the field of personal development and professional motivation because it contends for a theistic rather than a humanistic basis for self worth This is a book of motivation that is based on the personal nature of God says Jack Lannom Humanism teaches that we must work for self worth in order to become somebody Theism teaches that we work from a secure platform of human worth because we are somebody Untapped Potential is more than mere attitude adjustment it is life changing It will stretch your mind broaden your belief increase your effectiveness and enrich your spirit **Designing**

and Delivering Training David Simmonds, 2003 David Simmonds book focuses on the blend between theory and practice It will not be merely a how to set of checklists for operational practitioners nor just an academic review of the literature for strategic managers Instead each chapter will specifically combine the relevant thinking with appropriate real life evidence through the use of pedagogical features **Career-defining Crises in Mission** Paul Keidel, 2005 Career Defining Crises in

Mission is written for the missionary in ministry to help them evaluate ministry approaches and accept those that place relationships above programs Each of the 12 chapters takes a well known missiological principle and explains it in a missionary friendly style Instead of focusing on theory the book uses Bible study illustrations true stories and practical suggestions to encourage missionaries to make decisions to interact with people before choosing a method of mission

Voices of Zimbabwean Orphans Manasa Dzirikure, Garth Allen, 2014-10-30 The voices of orphans and other vulnerable children and young people and of their carers and professional development workers are documented and analysed to both criticise the inadequacies of current social development work and to create a new alternative theory and practice of project management in Zimbabwe and southern Africa This is the first extensive and intensive empirical study of Zimbabwean orphans and other vulnerable children and young people Chronically poor children and their carers can be corrupted or silenced by management systems which fail to recognise their basic human needs Resilience in the face of such adversity is celebrated by the dominant project management ideology and practice but is a major barrier to achieve genuine sustainable improvements in the lives of vulnerable children We propose a new person centred project management approach aimed at delivering comprehensive services for orphans which explicitly recognises the needs of orphans and other poor children to be

fully socially politically and economically included within their communities and which avoids the reinforcement of power based inequalities and their unacceptable consequences The moral bankruptcy of much social development work in Zimbabwe and elsewhere in Southern Africa is described and we delineate an alternative project management policy and practice
