Uprooted Gregor Thum, 2011-08-08 How a German city became Polish after World War II With the stroke of a pen at the Potsdam Conference following the Allied victory in 1945 Breslau the largest German city east of Berlin became the Polish city of Wroclaw Its more than six hundred thousand inhabitants almost all of them ethnic Germans were expelled and replaced by Polish settlers from all parts of prewar Poland *Uprooted* examines the long term psychological and cultural consequences of forced migration in twentieth century Europe through the experiences of Wroclaw s Polish inhabitants In this pioneering work Gregor Thum tells the story of how the city s new Polish settlers found themselves in a place that was not only unfamiliar to them but outright repellent given Wroclaw s Prussian German appearance and the enormous scope of wartime destruction The immediate consequences were an unstable society an extremely high crime rate rapid dilapidation of the building stock and economic stagnation This changed only after the city s authorities and a new intellectual elite provided Wroclaw with a Polish founding myth and reshaped the city s appearance to fit the postwar legend that it was an age old Polish city Thum also shows how the end of the Cold War and Poland s democratization triggered a public debate about Wroclaw s amputated memory Rediscovering the German past Wroclaw s Poles reinvented their city for the second time since World War II *Uprooted* traces the complex historical process by which Wroclaw s new inhabitants revitalized their city and made it their own

Uprooted Gregor Thum, W. Martin (tłumacz), 2011 *The Fantastic Laboratory of Dr. Weigl* Arthur Allen, 2014-07-07 Thought provoking Allen writes without sanctimony and never simplifies the people in his book or the moral issues his story inevitably raises Wall Street Journal Few diseases are more gruesome than typhus Transmitted by body lice it afflicts the dispossessed refugees soldiers and ghettoized peoples causing hallucinations terrible headaches boiling fever and often death The disease plagued the German army on the Eastern Front and left the Reich desperate for a vaccine For this they turned to the brilliant and eccentric Polish zoologist Rudolf Weigl In the 1920s Weigl had created the first typhus vaccine using a method as bold as it was dangerous for its use of living human subjects The astonishing success of Weigl s techniques attracted the attention and admiration of the world giving him cover during the Nazi s violent occupation of Lviv His lab soon flourished as a hotbed of resistance Weigl hired otherwise doomed mathematicians writers doctors and other thinkers protecting them from atrocity The team engaged in a sabotage campaign by sending illegal doses of the vaccine into the Polish ghettos while shipping gallons of the weakened serum to the Wehrmacht Among the scientists saved by Weigl who was a Christian was a gifted Jewish immunologist named Ludwik Fleck Condemned to Buchenwald and pressured to re create the typhus vaccine under the direction of a sadistic Nazi doctor Erwin Ding Schuler Fleck had to make an awful choice between his scientific ideals or the truth of his conscience In risking his life to carry out a dramatic subterfuge to vaccinate the camp s most endangered prisoners Fleck performed an act of great heroism Drawing on extensive research and interviews with survivors Arthur Allen tells the harrowing story of two brave scientists a Christian

Martín García, Rósa Magnúsdóttir, 2019-04-01 Over the last two decades public diplomacy has become a central area of research within Cold War studies Yet this field has been dominated by studies of the United States soft power practices However the so called cultural dimension of the Cold war was a much more multifaceted phenomenon Little attention has been paid to European actors efforts to safeguard a wide range of strategic and political interests by seducing foreign publics This book includes a series of works which examine the soft power techniques used by various European players to create a climate of public opinion overseas which favored their interests in the Cold war context This is a relevant book for three reasons First it contains a wide variety of case studies including Western and Eastern democratic and authoritarian and core and peripheral European countries Second it pays attention to little studied instruments of public diplomacy such as song contests sport events tourism and international solidarity campaigns Third it not only concentrates on public diplomacy programs deployed by governments but also on the role played by some non official actors in the cultural Cold War in Europe Central Europe Luka Ivan Jukic, 2025 An absorbing journey through a region caught between history geography and ideology *Cleansing the Czechoslovak Borderlands* Eagle Glassheim, 2017-01-26 In this innovative study of the aftermath of ethnic cleansing Eagle Glassheim examines the transformation of Czechoslovakia s Sudetenland from the end of the Second World War through the Cold War and into the twenty first century Prior to their expulsion in 1945 ethnic Germans had inhabited the Sudeten borderlands for hundreds of years with deeply rooted local cultures and close if sometimes tense ties with Bohemia s Czech majority Cynically if largely willingly harnessed by Hitler in 1938 to his pursuit of a Greater Germany the Sudetenland s three million Germans became the focus of Czech authorities in their retributive efforts to remove an alien ethnic element from the body politic and claim the spoils of this coal rich industrialized area Yet as Glassheim reveals socialist efforts to create a modern utopia in the newly resettled frontier territories proved exceedingly difficult Many borderland regions remained sparsely populated peppered with dilapidated and abandoned houses and hobbled by decaying infrastructure In the more densely populated northern districts coalmines chemical works and power plants scarred the land and spewed toxic gases into the air What once was a diverse religious cultural economic and linguistic contact zone became according to many observers a scarred wasteland both physically and psychologically Glassheim offers new perspectives on the struggles of reclaiming ethnically cleansed lands in light of utopian dreams and dystopian realities brought on by the uprooting of cultures the loss of communities and the industrial degradation of a once thriving region To Glassheim the lessons drawn from the Sudetenland speak to the deep social traumas and environmental pathologies wrought by both ethnic cleansing and

state sponsored modernization processes that accelerated across Europe as a result of the great wars of the twentieth century

Collective Identities and Post-War Violence in Europe, 1944-48 Ota Konrád, Boris Barth, Jaromír Mrňka, 2021-11-27 This book analyses the process of reshaping liberated societies in post 1945 Europe Post war societies tried to solve three main questions immediately after the dark times of occupation Who could be considered a patriot and a valuable member of the respective national community How could relations between men and women be re established How could the respective society strengthen national cohesion Violence in rather different forms appeared to be a powerful tool for such a complex reshaping of societies The chapters are based on present primary research about specific cases and consider the different political mental and cultural developments in various nation states between 1944 and 1948 Examples from Italy France Norway Denmark Greece Ukraine Lithuania Belarus Czechoslovakia and Hungary demonstrate a new comparative and fascinating picture of post war Europe This perspective overcomes the notorious East West dividing line without covering the manifold differences between individual European countries
