Upside Down Understanding And Supporting Attachment In Adoptive Families:

Upside Down Shannon Guerra, 2017-01-17 Adoptive families working through attachment issues often feel alone. It doesn't have to be this way though. The communities around them want to help yet they usually don't know how to help when it comes to attachment issues. A little perspective can change all of that. **Upside Down** shares stories from dozens of families healing through the spectrum of attachment issues from general attachment concerns to Reactive Attachment Disorder. It demonstrates ways adoptive families can explain these often invisible special needs to the community around them and also shows how these communities can provide support without causing more damage to a hurting child and further isolating the families working so hard to heal them. Topics include the reality behind the rose tinted movies, the why behind the weird limits, the tangle of community, what adoptive families really want besides coffee, sample letters for care providers, links and further resources. The message of **Upside Down** is two fold: Adoptive families are not alone and the communities around them can be equipped to make sure they never feel that way again.

Upside Down Shannon Guerra, 2020-06-09 Adoptive and foster families working through attachment issues often feel alone. But it doesn't have to be that way. Communities around them can intentionally be part of the solution instead of unintentionally being part of the problem. Without that support, adoptive and foster families live in isolation. Shannon Guerra learned this first hand after she and her husband adopted two children in 2012 and she started writing shockingly transparent blog posts about what her family was going through at home, at the doctor's office and in her heart as a mama. And then adoptive and foster families started writing back. Their overwhelming unanimous theme was: This is what I've wanted to tell people for so long. I wish everyone who knows our family could read this. This book is the result. It is now used in churches, offices, ministries and communities as the must have easy read resource for training and explaining attachment issues to those who need to know as soon as possible how to support adoptive and foster families. In about 100 pages **Upside Down** provides information and insight that transforms an outsider's assumptions into an insider's powerful perspective. Because adoptive and foster families should never feel alone and our communities can be equipped to make sure they never feel that way again.

Confessions of an Adoptive Parent Mike Berry, 2018-02-06 Know That You Are Not Alone on This Journey. Adopting or fostering a child brings its own unique set of challenges. Only another parent facing the same uphill climb could possibly understand. From parenting children with traumatic pasts to dealing with attachment issues to raising a child with special needs, it can sometimes be a struggle just getting through the day. Mike Berry knows the loneliness and isolation you can easily feel in your particular parenting role because he's been there. He's still there and he wants to give you the hope and encouragement you so desperately need. There are plenty of how to guides out there on parenting but this one of a kind book is specifically designed to address your needs as a parent of an adopted or foster child. With a refreshing dose of honesty, empathy and care, you'll discover you are definitely not alone on your journey and God has a very special plan for you and your family.

Supporting Postnatal

Women into Motherhood Lynn Bertram, 2018-12-13 New mothers are often unprepared for the emotional impact of having a baby. Feelings of isolation and anxiety which often emerge in the early months can trigger postnatal depression. Health professionals can support women with therapeutic groupwork to help them overcome these feelings and adjust to the many changes which inevitably occur at this time. This book describes setting up and managing a discussion group for new mothers to provide support and introduce women to others at the same life stage in a safe environment. It shows how facilitating this structured activity can be positive and empowering for all concerned. It is practical and stimulating reading for everyone involved professionally with postnatal women.

The Academic's Handbook, Fourth Edition Lori A. Flores, Jocelyn H. Olcott, 2020-09-21 In recent years the academy has undergone significant changes: a more competitive and volatile job market has led to widespread precarity; teaching and service loads have become more burdensome; and higher education is becoming increasingly corporatized. In this revised and expanded edition of *The Academic's Handbook*, more than fifty contributors from a wide range of disciplines and backgrounds offer practical advice for academics at every career stage, whether they are first entering the job market or negotiating the post-tenure challenges of leadership and administrative roles. Contributors affirm what is exciting and fulfilling about academic work while advising readers about how to set and protect boundaries around their energy and labor. In addition, the contributors tackle topics such as debates regarding technology, social media, and free speech on campus; publishing and grant writing; attending to the many kinds of diversity among students, staff, and faculty; and how to balance work and personal responsibilities. A passionate and compassionate volume, *The Academic's Handbook* is an essential guide to navigating life in the academy. Contributors: Luis Alvarez, Steven Alvarez, Eladio Bobadilla, Genevieve Carpio, Marcia Chatelain, Ernesto Chvez, Miroslava Chvez, Garca, Nathan D. B. Connolly, Jeremy V. Cruz, Cathy N. Davidson, Sarah Deutsch, Brenda Elsey, Sylvanna M. Falcón, Michelle Falkoff, Kelly Fayard, Matthew W. Finkin, Lori A. Flores, Kathryn J. Fox, Frederico Freitas, Neil Garg, Nanibaa A. Trauma and Attachment in the Kindertransport
Context Iris Guske, 2009 The present volume is the result of an interdisciplinary oral history research project which was carried out at the Centre for German Jewish Studies at the University of Sussex It focuses on the Kindertransport the British rescue operation saving 10 000 predominantly German Jewish children from Nazi Germany and is based on in depth case studies of five child survivors of the Holocaust Looking at human development over the life cycle as mediated by intervening trauma was at the heart of the project which examined the making and breaking of a child's close ties to significant others processes of identity formation under acculturative stress as well as the creation and recall of traumatic memories The study is thus one of the few in the field of attachment research which sheds light on the lifelong influence which early attachment has on coping with massive cumulative trauma The former child refugees narratives are enriched by letters diaries or articles written by them and their host families as well as by interviews conducted with family members and friends Consequently we can look at individual lives and collective destinies from more than one perspective as we are provided with rich multi layered accounts of people's whole life trajectories While each Holocaust survivor's developmental story is unique it is

however linked to the others by the common experience of negotiating an identity between two countries cultures and religions against the background of unparalleled political upheavals and as such also sheds light on and offers ways out of the traumata suffered in present day contexts of enforced migration and displacement **Resources in Education**
