The phenomenon of rising intonation

Uptalk Phenomenon Intonation Paul Warren

Janet Holmes, Nick Wilson

Uptalk Phenomenon Intonation Paul Warren:

Uptalk Paul Warren, 2016-01-05 Uptalk is commonly used to refer to rising intonation at the end of declarative sentences or to put it more simply the tendency for people to make statements that sound like questions a phenomenon that has received wide exposure and commentary in the media How and where did it originate Who are the most frequent uptalkers How much does it vary according to the speaker's age gender and regional dialect Is it found in other languages as well as English These and other questions are the subject of this fascinating book The first comprehensive analysis of uptalk it examines its historical origins geographical spread and social influences Paul Warren also looks at the media's coverage of the phenomenon including the tension between the public's perception and the views of experts Uptalk will be welcomed by those working in linguistics as well as anyone interested in the way we talk today *Stigmatized on Screen* Lindsey Clouse, 2022-06-27 This book reveals how marginalized communities and women are underrepresented on our screens and too often depicted in stereotypical ways This is doubly true for marginalized speakers those who speak traditionally nonstandard dialects Lindsey Clouse examines the origins of linguistic prejudice and how our public schools perpetuate the myth of bad English By dissecting the 500 top grossing films of the last 20 years Clouse exposes how speakers of Black English Southern U S English Spanish influenced English and gendered speech patterns are represented underrepresented misrepresented and mocked Clouse analyzes hundreds of films and characters to reveal how filmmakers and audiences work together to reinforce negative beliefs about stigmatized dialects and the people who speak them and reveals how those beliefs stack up against decades of linguistic research She concludes by showing that these portrayals translate to real life linguistic discrimination and discusses the ways in which we can combat this often hidden prejudice Scholars of introductory sociolinguistics American dialect studies and media studies will find this book of particular interest Prosodic Theory and Practice Jonathan Barnes, Stefanie Shattuck-Hufnagel, 2022-02-08 An introduction to the the range of current theoretical approaches to the prosody of spoken utterances with practical applications of those theories Prosody is an extremely dynamic field with a rapid pace of theoretical development and a steady expansion of its influence beyond linguistics into such areas as cognitive psychology neuroscience computer science speech technology and even the medical profession This book provides a set of concise and accessible introductions to each major theoretical approach to prosody describing its structure and implementation and its central goals and assumptions as well as its strengths and weaknesses Most surveys of basic questions in prosody are written from the perspective of a single theoretical framework This volume offers the only summary of the full range of current theoretical approaches with practical applications of each theory and critical commentary on selected chapters The current abundance of theoretical approaches has sometimes led to apparent conflicts that may stem more from terminological differences or from differing notions of what theories of prosody are meant to achieve than from actual conceptual disagreement This volume confronts this pervasive problem head on by having each chapter address a

common set of questions on phonology meaning phonetics typology psychological status and transcription Commentary is added as counterpoint to some chapters with responses by the chapter authors giving a taste of current debate in the field Contributors Amalia Arvaniti Jonathan Barnes Mara Breen Laura C Dilley Grzegorz Dogil Martine Grice Nina Gr nnum Daniel Hirst Sun Ah Jun Jelena Krivokapi D Robert Ladd Fang Liu Piet Mertens Bernd M bius Gregor M hler Oliver Niebuhr Francis Nolan Janet B Pierrehumbert Santitham Prom on Antje Schweitzer Stefanie Shattuck Hufnagel A E Turk Yi Xu
