Urban Injustice How Ghettos Happen:

Urban Injustice David Hilfiker, 2002 David Hilfiker has committed his life both as a writer and a doctor to people in need writing about the urban poor with whom he spent all his days for the last two decades In this book he explains in beautiful and simple language how the myth that the urban poor siphon off precious government resources is contradicted by the facts and how most programs are not sufficiently orchestrated to enable people to escape the cycle of urban poverty Making a clear path through the history of societal poverty he draws on models from around the world to build a better world

Urban Injustice David Hilfiker M D, 2010-10-01 Hilfiker a white doctor who has worked with homeless and HIV positive men in Washington D C for nearly 20 years begins by noting When most Americans think about poverty or see the poor on television or read about them in the newspapers the images are of poor black men hanging around the street corner poor black teenagers selling drugs poor black single mothers living on welfare poor black inner city schools failing their children Yet only 12% of the nation's poor are African American according to his extrapolation from the 2000 census In a calm thoughtful yet impassioned voice Hilfiker sets out to explain why this state of affairs persists tracing the failure of programs to alleviate poverty from Reconstruction through the New Deal to the contemporary battles over welfare He is even brave enough to suggest solutions for the end of poverty and ghettos to remove this stain upon our American democracy This accessible clearly written book includes an excellent annotated bibliography and may inspire ordinary people to work toward full desegregation of our society

Urban Injustice David Hilfiker, 2011-01-04 David Hilfiker has committed his life both as a writer and a doctor to people in need writing about the urban poor with whom he spent all his days for the last two decades In *Urban Injustice* he explains in beautiful and simple language how the myth that the urban poor siphon off precious government resources is contradicted by the facts and how most programs help some of the people some of the time but are almost never sufficiently orchestrated to enable people to escape the cycle of urban poverty Hilfiker is able to present a surprising history of poverty programs since the New Deal and shows that many of the biggest programs were extremely successful at attaining the goals set out for them Even so Hilfiker reveals most of the best and biggest programs were social insurance programs like Medicare and Social Security that primarily assisted the middle class not the poor Whereas public assistance programs directed specifically towards the poor were often extremely effective as far as they went but were instituted with far less ambitious goals In a book that is short sweet and completely without academic verbosity or pretension Hilfiker makes a clear path through the complex history of societal poverty the obvious weaknesses and surprising strengths of societal responses to poverty thus far and offers an analysis of models of assistance from around the world that might perhaps assist us in making a better world for our children once we decide that is what we must do

Oxford University's poverty and human development initiative predicts that countries among the most impoverished in the world could see acute poverty eradicated within 20 years if they continue at present rates. On the other hand, the U.N. says environmental threats from climate change could push billions more into extreme poverty in coming decades. All of these points lead to the need for a revised, updated and expanded edition of the Encyclopedia of World Poverty. Key Features: 775 evaluated and updated and 175 entirely new entries. Catholic Bioethics and Social Justice M. Therese Lysaught, Michael P. McCarthy, 2019-01-10 Catholic health care is one of the key places where the church lives. Catholic social teaching (CST) Yet the individualistic methodology of Catholic bioethics inherited from the manualist tradition has yet to incorporate this critical component of the Catholic moral tradition. Informed by the places where Catholic health care intersects with the diverse societal injustices embodied in the patients it encounters, this book brings the lens of CST to bear on Catholic health care, illuminating a new spectrum of ethical issues and practical recommendations from social determinants of health, immigration, diversity and disparities, behavioral health, gender, questioning patients and environmental and global health issues.

If These Walls Could Talk Maureen H. O'Connell, 2012 If These Walls Could Talk explores the theological and social significance of Philadelphia's community muralism movement, a groundswell of public art that is transforming the City of Brotherly Love into the Mural Capital of the World. It calls attention to the narratives behind some of the city's 2,800 wall-sized canvases in ghettos and on schools, mosques and in jails, courthouses and along overpasses in order to illustrate the way in which the arts can help us to travel the emotional, intellectual and relational distance necessary to arrive at creative responses to the seemingly inescapable problems of urban poverty.

Nonviolence: Critiquing Assumptions, Examining Frameworks Michael Brown, Katy Gray Brown, 2018-12-10 Many judgments regarding what is good or bad, possible or impossible, rely upon unspoken assumptions or frameworks which are used to view and evaluate events and actions. Philosophers uncover these hidden aspects of thoughts and judgments, scrutinizing them for soundness, validity and fairness. These assumptions and frameworks permeate the topics of violence, nonviolence, war, conflict and reconciliation, and these assumptions influence how we address these problems and issues. The papers in this volume explore what kind of assumptions and frameworks would be needed in order for people to see nonviolence as a sensible approach to contemporary problems. Topics include conceptions of positive peace, nonviolence and international structures and perspectives on peace education. Contributors are Elizabeth N. Agnew, Andrew FitzGibbon, William C. Gay, Ronald J. Glossop, Ian M. Harris, John Kultgen, Joseph C. Kunkel, Douglas Lewis, Danielle Poe and Harry van der Linden.
