[Approaches to Teaching the Works of Jack London](#) Jeanne Campbell Reesman, 2015-10-01 A prolific and enduringly popular author and an icon of American fiction Jack London is a rewarding

choice for inclusion in classrooms from middle school to graduate programs London's biography and the role played by celebrity have garnered considerable attention but the breadth of his personal experiences and political views and the many historical and cultural contexts that shaped his work are key to gaining a nuanced view of London's corpus of works as this volume's wide ranging perspectives and examples attest The first section of this volume Materials surveys the many resources available for teaching London including editions of his works sources for his photography and audiovisual aids In part 2 Approaches contributors recommend practices for teaching London's works through the lenses of socialism and class race gender ecocriticism and animal studies theories of evolution legal theory and regional history both in frequently taught texts such as *The Call of the Wild* *To Build a Fire* and *Martin Eden* and in his lesser known works **The Publishers**

Weekly, 1924 Children's Books in Print, 1993 **Strangers in the South Seas** Richard Lansdown, 2006-01-01 Long before Magellan entered the Pacific in 1521 Westerners entertained ideas of undiscovered oceans mighty continents and paradisaical islands at the far ends of the earth such ideas would have a long life and a deep impact in both the Pacific and the West With the discovery of Tahiti in 1767 another powerful myth was added to this collection the noble savage For the first time Westerners were confronted by a people who seemed happier than themselves This revolution in the human sciences was accompanied by one in the natural sciences after Darwin's momentous visit to the Galapagos Islands The Pacific produced other challenges for nineteenth century researchers on race and culture and for those intent on exporting their religions to this immense quarter of the globe As the century wore on the region presented opportunities and dilemmas for the imperial powers a process was accelerated by the Pacific War between 1941 and 1945 *Strangers in the South Seas* recounts and illustrates this story using a wealth of primary texts It includes generous excerpts from the work of explorers soldiers naturalists anthropologists artists and writers some famous some obscure It shows how the Great South Sea has been an irreplaceable distant mirror of the West and its intellectual obsessions since the Renaissance *Global West, American Frontier* David M. Wrobel, 2013-10-15 This thoughtful examination of a century of travel writing about the American West overturns a variety of popular and academic stereotypes Looking at both European and American travelers accounts of the West from de Tocqueville's *Democracy in America* to William Least Heat Moon's *Blue Highways* David Wrobel offers a counter narrative to the nation's romantic entanglement with its western past and suggests the importance of some long overlooked authors lively and perceptive witnesses to our history who deserve new attention Prior to the professionalization of academic disciplines the reading public gained much of its knowledge about the world from travel writing Travel writers found a wide and respectful audience for their reports on history geography and the natural world in addition to reporting on aboriginal cultures before the advent of anthropology as a discipline Although in recent decades western historians have paid little attention to travel writing Wrobel demonstrates that this genre in fact offers an important and rich understanding of the American West one that extends and complicates a simple reading of the West that promotes

the notions of Manifest Destiny or American exceptionalism Wrobel finds counterpoints to the mythic West of the nineteenth century in such varied accounts as George Catlin's *Adventures of the Ojibbeway and Ioway Indians in England France and Belgium* 1852 Richard Francis Burton's *The City of the Saints* 1861 and Mark Twain's *Following the Equator* 1897 reminders of the messy and contradictory world that people navigated in the past much as they do in the present His book is a testament to the instructive ways in which the best travel writers have represented the West

The Ocean on Fire Anaïs Maurer, 2024-03-01 Anaïs Maurer foregrounds Pacific literature as a key archive for surviving and thriving in an environment in which Indigenous inhabitants have been bombarded with the equivalent of one Hiroshima bomb a day for half a century

The Bookseller, 1914 **Jack London** Earle Labor, 2013-12-24 A revelatory look at the life of the great American author and how it shaped his most beloved works Jack London was born a working class fatherless Californian in 1876 In his youth he was a boundlessly energetic adventurer on the bustling West Coast an oyster pirate a hobo a sailor and a prospector by turns He spent his brief life rapidly accumulating the experiences that would inform his acclaimed bestselling books *The Call of the Wild* *White Fang* and *The Sea Wolf* The bare outlines of his story suggest a classic rags to riches tale but London the man was plagued by contradictions He chronicled nature at its most savage but wept helplessly at the deaths of his favorite animals At his peak the highest paid writer in the United States he was nevertheless forced to work under constant pressure for money An irrepressibly optimistic crusader for social justice and a lover of humanity he was also subject to spells of bitter invective especially as his health declined Branded by shortsighted critics as little more than a hack who produced a couple of memorable dog stories he left behind a voluminous literary legacy much of it ripe for rediscovery In *Jack London An American Life* the noted Jack London scholar Earle Labor explores the brilliant and complicated novelist lost behind the myth at once a hard living globe trotter and a man alive with ideas whose passion for seeking new worlds to explore never waned until the day he died Returning London to his proper place in the American pantheon Labor resurrects a major American novelist in his full fire and glory

The South Sea Island Frits Andersen, 2024-02-07 When the first European explorers ventured into the unknown Pacific Ocean their minds were filled with tales of remote paradisiacal islands Hopeful ideas of noble savages ecological balance and immense riches gave them the courage to search for a new world even when faced with the unimaginable *The South Sea Island A Geography of Pleasure* is a journey through the history of ideas and literature over three centuries of European and American narratives about islands oceans and archipelagos Literary scholar Frits Andersen reads and analyses travel accounts paintings films and novels from the 18th century up until the present day by visual artists and authors including Paul Gauguin Herman Melville Robert Louis Stevenson Jules Verne and Thor Heyerdahl These readings combined with Andersen's eye for pleasure sense and longing give rise to a novel literary history of the disappearing Pacific islands At the same time the book offers historical models that we can use today to enhance our understanding of and find new answers to global political and climate related challenges Frits Andersen is a

professor of Comparative Literature at Aarhus University Denmark His previous works include The Dark Continent Images of Africa in European Narratives about the Congo 2016 The Danish edition of this book entitled Sydhavs en Nydelsens geografi received the Georg Brandes Prize **The Century** ,1921 Century Illustrated Monthly Magazine ... ,1921
