Teaching, Reading, and Theorizing Caribbean Texts Emily O'Dell, Jeanne Jégousso, 2020-08-17 Teaching Reading and Theorizing Caribbean Texts explores alternative approaches to Caribbean texts from transnational and multilingual perspectives The authors query what new systems and criteria can be implemented to rethink and remodel our theoretical and pedagogical corpus and alter the lenses through which we study Caribbean texts Pulling from the Caribbean s global diaspora the authors examine writers such as Roxane Gay Esmeralda Santiago Wilson Harris and Gloria Anzald a in order to resituate the place of Caribbean texts in the classroom Each chapter argues for a reunification of Caribbean literature studies rather than studying this body of text only in terms of a certain aspect of its history or culture the authors necessitate the importance of analyzing these works from a pan Caribbean perspective This collection discusses the ideas of transcending individual disciplines and specialties to create global theories overcoming pedagogical challenges when bringing Caribbean texts into the classroom and re reading texts with the purpose of discovering new symbols themes and meanings

The Vitality of Liberation Theology Craig L. Nesson, 2012-09-06 The Vitality of Liberation Theology argues for the ongoing necessity of a liberating theology in a world of endemic poverty and economic globalization Although some have declared liberation theology s demise or even its death Nesson articulates the imperative and logic of it for a new generation Latin American liberation theology burst forth as the most original and compelling theological movement from the developing world in the modern period The story of the emergence and proliferation of liberation theology as well as the opposition to this movement both within and without Latin America is one of the most significant and lasting developments in Christianity since the last third of the twentieth century Together with other forms of liberating theology from contexts of oppression in diverse parts of the world anti apartheid theology in South Africa and Namibia Minjung theology in Korea Dalit theology in India or Palestinian liberation theology Latin American liberation theology takes a prophetic stand against the hegemony of the status quo and joins league with

other subaltern peoples in the cause of freedom from all forms of subjugation and oppression The dawn of Latin American liberation theology inaugurated a new era in the global theological landscape **Farewell, Fred Voodoo** Amy

Wilentz,2013-01-08 Describes the author's long and painful relationship with Haiti before and after the 2010 earthquake tracing the country's turbulent history and its status as a symbol of human rights activism and social transformation *Sit*

on Our Hands, or Stand on Our Feet? Roger Philip Abbott,2013-01-07 The aim of *Sit on Our Hands or Stand on Our Feet* is not to present a theology that explains disasters In fact there is no such theology Nor is this work primarily for those who are responded to it is not part of the theological grab bag that Christian responders carry with them to use for the benefit of casualties It is more a part of the Christian's engaged practical theological apprenticeship prior to and during a response This book represents the role of the practical theologian who empowers the church community's legitimation and contribution in disaster response and who encourages individual Christians whose calling into particularly relevant professions whose natural skills and or professional training could find them placed in a major incident responding status paid or voluntary doing their work as unto the Lord It is a serious must read for any Christians who have hearts heavy with compassion but who are not sure what to do or why when disaster strikes **The Dispersion** Stéphane Dufoix,2016-11-28

Winner of the 2017 Choice Outstanding Academic Title Award In *The Dispersion* St phane Dufoix skillfully traces how the word diaspora first coined in the third century BCE has over the past three decades developed into a contemporary concept often considered to be ideally suited to grasping the complexities of our current world Spanning two millennia from the Septuagint to the emergence of Zionism from early Christianity to the Moravians from slavery to the defence of the Black cause from its first scholarly uses to academic ubiquity from the early negative connotations of the term to its contemporary apotheosis St phane Dufoix explores the historical socio semantics of a word that perhaps paradoxically has entered the vernacular while remaining poorly understood *Haiti Between Pestilence and Hope* Fritznel D. Octave,2022-07-06

Haiti Between Pestilence and Hope The Progressive Ideals from the Revolution of 1804 Set the Pace brilliantly presents Haiti's entire socio political and economic history with poignant analysis into a mere eight chapters From the relatively peaceful and stable pre colonial period to the illustrious independence victory and concluding with Haiti's current struggles This book offers unique assistance with understanding Haiti's political instability social discords and economic woes without falling into bias theory It relates the story of a valiant resilient creative imaginative and mysterious people with objectivity Above all it not only diagnoses Haiti's problems but also goes deep into the root causes of those problems and proposes solutions to resolve them and build a better future for Haiti No matter who you are young or old native Haitian or not a student or professional interested in real knowledge about Haiti this book is for you Whether you are a decision maker or simply interested in Haiti's affairs you will learn about Haiti's challenges both past and present and its hope for the future **Help**

Backpacks Full of Hope Eduardo Aldunate,2010-03-03 Backpacks Full of Hope The UN Mission in Haiti describes the experience of a Chilean general as Deputy Force Commander of the United Nations Stabilization Mission in Haiti MINUSTAH during the particularly turbulent year September 2005 to September 2006 It details the realities of commanding more than 7 000 men from eleven countries while working to fulfill the mandate of the United Nations in Haiti to ensure a secure and stable environment to support the transitional government in a democratic political process and to promote and protect the human rights of the Haitian people Despite the enormous challenges of a complex scenario that included local violence and extreme poverty the UN command succeeded in its mission stabilizing the local situation and paving the way for Haiti to hold a presidential election Originally published as Mision en Haiti con la mochila cargada de esperanzas this work provides a new audience with insight on the peace operation and sheds light on the long term endeavour of civilians military and local

and international agencies to support Haiti's path to prosperity Co published with the Centre for International Governance Innovation **Production of Disaster and Recovery in Post-Earthquake Haiti** Juliana Svistova, Loretta Pyles, 2018-02-21

Natural disasters have long been seen as naturally generated events but as scientific technological and social knowledge of disasters has become more sophisticated the part that people and systems play in disaster events has become more apparent Production of Disaster and Recovery in Post Earthquake Haiti demonstrates how social processes impact disasters as they unfold through the distribution of power and resources the use of discourses and images of disaster and the economic and social systems and relations which underlie affected communities The authors show how these processes played out in post earthquake Haiti to set in motion the mechanics of the disaster industrial complex to re produce disasters and recovery rather than bring sustainable change The book reveals that disaster and recovery rhetoric helped create fertile conditions for neoliberal disaster governance militarized and digital humanitarianism non profiteering and disaster opportunism to flourish while further disenfranchising marginalized populations However the Haiti earthquake as is the case with all disaster sites was ripe with mutual aid community building and collective action all of which further local resilience The authors seek to re construct dominant discourses policies and practices to advance equitable participatory partnerships with local community actors and propose a praxis for a people's recovery as an action oriented framework for resisting the transnational disaster industrial machinery The authors argue for new synergies in policymaking and program development that can respond to emergencies and plan for true long term sustainable development after disasters that focuses as much on humans and the natural world as it does on economic progress Production of Disaster and Recovery in Post Earthquake Haiti will be of great interest to students and scholars of disaster studies humanitarian studies development studies Haitian studies geography and environmental studies as well as to non governmental organizations humanitarians and policymakers **Congressional Record** United States. Congress, 2000 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 **Oh, for the Love of Haiti!** JoAnne M. Kuehner, 2018-08-27 Come along on my 30 year love affair with Haiti Well almost thirty years have come and gone since my first visit to Haiti and I am no longer the young idealistic woman who took on the challenge of helping to improve the lives of the children of Haiti In fact now my children not only have children they have grandchildren which make me a great grandmother Looking back in many ways it is ironic that my long term involvement in Haiti came as a result of a little girl simply asking if I could help pay for her to go to school I am not only very grateful to her but to all of the children that I have been able to assist From my moonlighting to raise 120 to educate that first student while volunteering for AmeriCares to facilitating the acquisition and distribution of tens of millions of dollars of medical supplies after the

devastating 2010 earthquake it has been a hellu va ride One that has truly enriched my life Throughout my journey my family has been most understanding gracious and very supportive in every way However the biggest surprise and my greatest pleasure has been to have my granddaughter Tiffany take over my role and greatly expand the work of Hope for Haiti Although I shall continue to serve the people of Haiti for as long as I am able clearly it will require the dedication of members of the next generation if Hope for Haiti is to continue to prosper I pray that they will do so Back cover
