Herge: The Man Who Created Tintin Pierre Assouline,2009-10-29 One of the most beloved characters in all of comics Tintin won an enormous international following Translated into dozens of languages Tintin s adventures have sold millions of copies and Steven Spielberg is presently adapting the stories for the big screen Yet despite Tintin s enduring popularity Americans know almost nothing about his gifted creator Georges Remi better known as Herg Offering a captivating portrait of a man who revolutionized the art of comics this is the first full biography of Herg available for an English speaking audience Born in Brussels in 1907 Herg began his career as a cub reporter a profession he gave to his teenaged world traveling hero But whereas Tintin was fully formed clear headed and positive Assouline notes his inventor was complex contradictory inscrutable For all his huge success achieved with almost no formal training Herg would say unassumingly of his art I was just happy drawing little guys that s all Granted unprecedented access to thousands of the cartoonist s unpublished letters Assouline gets behind the genial public mask to take full measure of Herg s life and art and the fascinating ways in which the two intertwine Neither sugarcoating nor sensationalizing his subject he meticulously probes

such controversial issues as Herg's support for Belgian imperialism in the Congo and his alleged collaboration with the Nazis. He also analyzes the underpinnings of Tintin: how the conception of the character as an asexual adventurer reflected Herg's appreciation for the Boy Scouts organization as well as his Catholic mentor's anti-Soviet ideology and relates the comic strip to Herg's own place within the Belgian middle class. A profound influence on a generation of artists such as Andy Warhol and Roy Lichtenstein, the elusive figure of Herg comes to life in this illuminating biography, a deeply nuanced account that unveils the man and his career as never before.

European Comics in English Translation Randall William Scott, 2002. European comic authors produced a steady stream of comic material throughout the twentieth century but gained the world's notice in 1975 when the French magazine *Métal Hurlant* was founded. A new generation of artists and writers had begun. Soon publishers were producing translations of the new comics into other languages including English and comics creators everywhere were inspired to innovation. This is a reference work arranged by artist or writer to European comics from the last quarter of the twentieth century that have been translated from any European language into English. It contains a variety of material from the innocent imperialism of Herge's Tintin to the sadistic murder for hire in Bernet's Torpedo. Albums by a single creator or artist and writer team of European origin are the focus; comics in periodicals and anthologies with multiple contributors are excluded. Each entry provides a plot abstract and various notes about the original comic. An author index provides brief biographical information. There is a comprehensive general index.

So, You Wanna be a Comic Book Artist? Philip Amara, 2001. Explains to readers how to create their own superheroes, write their own storylines, and get their comics published.
