Boys' Life is the official youth magazine for the Boy Scouts of America Published since 1911 it contains a proven mix of news nature sports history fiction science comics and Scouting **Coming of Age in Second Life** Tom Boellstorff, 2015-08-25 Millions of people around the world today spend portions of their lives in online virtual worlds Second Life is one of the largest of these virtual worlds The residents of Second Life create communities buy property and build homes go to concerts meet in bars attend weddings and religious services buy and sell virtual goods and services find friendship fall in love the possibilities are endless and all encountered through a computer screen At the time of its initial publication in 2008 *Coming of Age in Second Life* was the first book of anthropology to examine this thriving alternate universe Tom Boellstorff conducted more than two years of fieldwork in Second Life living among and observing its

residents in exactly the same way anthropologists traditionally have done to learn about cultures and social groups in the so called real world He conducted his research as the avatar Tom Bukowski and applied the rigorous methods of anthropology to study many facets of this new frontier of human life including issues of gender race sex money conflict and antisocial behavior the construction of place and time and the interplay of self and group Coming of Age in Second Life shows how virtual worlds can change ideas about identity and society Bringing anthropology into territory never before studied this book demonstrates that in some ways humans have always been virtual and that virtual worlds in all their rich complexity build upon a human capacity for culture that is as old as humanity itself Now with a new preface in which the author places his book in light of the most recent transformations in online culture Coming of Age in Second Life remains the classic ethnography of virtual worlds
