

Foreword

Your Ex-Cell-O mill is a precision machine tool. To assure continuous satisfactory service, proper installation, operation and maintenance procedures should be followed. This manual is printed with this in view. It should be placed in the hands of the relevant plant supervisor. The information it contains should be studied and followed carefully.

This milling machine was designed and manufactured to conform to Ex-Cell-O's high standard of machine tool performance. It was built to rigid specifications by trained workmen using the best material available and inspected at various stages of construction.

Because of constant improvement in design, equipment and materials, some details of your machine may differ from the description in this manual.
