## Y8 End Of Year Maths Test:

Creating Outstanding Classrooms Oliver Knight, David Benson, 2013-10-15 This timely new book outlines a whole school approach to embedding a sustainable model of teaching and learning that puts the learner at the heart of the system. It provides an entire framework for ensuring all students achieve above their expectations incorporating school vision, teacher professional development, assessment models, school culture, leadership and management, and core classroom practices. It takes what the current research suggests does and does not work and builds it into a practical approach that has been tried, tested, and proven to work. Each section incorporates the research, a model of how this can be embedded across a school, and then a training section that allows senior leaders in schools to teach the skill set to others to ensure it can be embedded and reviewed. Covering all aspects of teaching and learning including curriculum design, teacher practices, assessment, and leadership, the book features a clear planning framework that is easy to implement, subject-based case studies to exemplify good practice, diagrams to clarify and consolidate information, training activities throughout each chapter, also available to download at [www.routledge.com](http://www.routledge.com) 9780415831178. Designed to be used as a training tool for both new and established teachers, this book is essential reading for senior leaders that want to equip their teachers with the skills and knowledge to create a school of outstanding classrooms.

*Balancing the School Calendar* Carolyn Kneese, Charles Ballinger, 2009-01-16 Today educators are looking for ways to utilize classroom time more effectively. Many thoughtful and forward-looking educators have reorganized the school calendar from the traditional nine-month model to one which is more balanced, and they have experienced the effects of calendar modification in the classroom, school district, and community. *Balancing the School Calendar* is a compilation of perspectives and research reports from those who have experienced the urgent necessity of reorganizing time to effectuate better learning situations for students. Chapter authors have implemented, studied, or contemplated school calendar change and the results of the change.

Improving Secondary Science Teaching John Parkinson, 2004 John Parkinson encourages teachers to reflect on their current teaching practice and guides them to improving their teaching and consequently their pupils' learning.
