The Balkans in Travel Writing Marija Knežević, 2015-09-18 This book revisits images of the Balkans in twentieth century travel writing that vividly mirrors the turbulent changes that the region went through As such it provides a vital basis for research into the variety of possibilities or obstacles present on the region's path to accession when its unique heritage will have to be reconciled with a more European identity This volume explores the work of well known authors such as Rebecca West Paul Theroux Robert D Kaplan and also contributes to travel writing theory by addressing less known travellers who recorded their thoughts on the social dynamics of the region The corpus offers divergent and often contradictory views ranging from moral and political criticism to a delight in the rich heritage and the still undiscovered Balkan paths More importantly its generic potentials prove to overcome both the discourse of power and the discourse of apology Its narrative style also comprises striking variations from the objective and well researched approaches to quick impressionist sketches Being a multi generic form travel writing is observed from a multidisciplinary perspective encompassing fields such as literature linguistics history sociology anthropology ethnology political sciences and geography

Serbia Laurence Mitchell, 2013 One of the most misunderstood corners of Europe Serbia is a spirited and fascinating country Belgrade and second city Novi Sad are lively cosmopolitan and welcoming while rural Serbia with its hidden monasteries and breathtaking countryside is an undiscovered gem This edition of the guide features the burgeoning music festival scene bird watching wine tasting and Serbia's growing litany of sporting stars such as Novak Djokovic This edition includes a new section on the Danube cycling route with details on where to stop where to shop and sights to see on the way Updated throughout the listings include boutique hotels eco lodges and backpacker hostels to cater for all budgets The guide goes into greater depth than its competitors with more detail on the history politics culture and sights and more detailed reviews of hotels and restaurants Balkan Departures Wendy Bracewell, Alex Drace-Francis, 2009-05-01 In writings about travel the Balkans appear most often as a place travelled to Western accounts of the Balkans revel in the different and the exotic the violent and the primitive traits that serve according to many commentators as a foil to self-congratulatory definitions of the West as modern progressive and rational However the Balkans have also long been travelled from The region's writers have given accounts of their travels in the West and elsewhere saying something in the process about themselves and their place in the world The analyses presented here ranging from those of 16th century Greek humanists to 19th century Romanian reformers to 20th century writers socialists and men of the world suggest that travellers from the region have also created their own identities through their encounters with Europe Consequently this book challenges assumptions of Western discursive hegemony while at the same time exploring Balkan Occidentalisms **An Agenda for the Western Balkans: From Elite Politics to Social Sustainability** Nikolaos Pasamitros, Nikolaos Papakostas, 2015-03-01 The Western Balkan countries have been both a popular subject matter for diachronic analysis and a 1990s favorite The significant changes that followed the most recent times of conflict in the region mostly evolve around the process of Europeanization Despite the plethora of analyses most approaches to the Western Balkans suffer from theoretical stagnancy ex parte political practice and detachment of politics from societal needs This volume is the work of a team of theorists and practitioners who attempt a multidisciplinary approach to Western Balkans reality An Agenda for the Western Balkans offers a critical view on issues that have been over-analyzed in mainstream terms and opens a discussion that will occupy researchers and practitioners for years to come It addresses novel topics and engages in innovative approaches that cut across disciplines of social sciences political science international relations sociology historiography geography political economy and levels of analysis local national regional European global This collection is a pioneer theoretical and practical guide towards a sustainable future for the Western Balkans Images of Montenegro in Anglo-American Creative Writing and Film Neil Diamond, Marija Knežević, 2017-01-06 This book observes images of Montenegro in Anglo-American creative writing and films from the late eighteenth century until 2016 Like the Balkans as a whole Montenegro usually reappeared in the West's consciousness with the outbreak of wars but remained marginalized on the larger Balkan map because of its

peripheral political influence and therefore remained little known In the past Montenegro was experienced as almost unapproachable barren and wild Its people like their mountains were seen as massive and fierce while their primitivism equally delighted and repulsed visitors Even today when one searches the Internet for Montenegro one finds titles mostly containing modifiers circling around undiscovered magical and mysterious The book follows these vignettes chronologically to point out how the rhetoric they share dangerously builds a caricature of the country However they also provide a very lively mosaic of landscapes history people their costumes houses and everyday life which are sometimes distorted No one can claim that these descriptions were not influenced by the ideologies the travellers inherited at home and were not filtered through their own cultural grids but significantly they evoke places that are now forever lost destroyed in wars by earthquakes faulty development planning or simply by time
