The Tibetans Matthew T. Kapstein, 2013-06-05 This book provides a clear and comprehensive introduction to Tibet its culture and history A clear and comprehensive overview of Tibet its culture and history Responds to current interest in Tibet due to continuing publicity about Chinese rule and growing interest in Tibetan Buddhism Explains recent events within the context of Tibetan history Situates Tibet in relation to other Asian civilizations through the ages Draws on the most recent scholarly and archaeological research Introduces Tibetan culture particularly social institutions religious and political traditions the arts and medical lore An epilogue considers the fragile position of Tibetan civilization in the modern world

Maṇḍalas in the Making Michelle C. Wang, 2017-12-18 The first scholarly monograph on Buddhist maṇḍalas in China this book examines the Maṇḍala of Eight Great Bodhisattvas This iconographic template in which a central Buddha is flanked by eight attendants flourished during the Tibetan 786-848 and post-Tibetan Guiyijun 848-1036 periods at Dunhuang A rare motif that appears in only four cave shrines at the Mogao and Yulin sites the maṇḍala bore associations with political authority and received patronage from local rulers Attending to the historical and cultural contexts surrounding this iconography this book demonstrates that transcultural communication over the Silk Routes during this period and the religious dialogue between the Chinese and Tibetan communities were defining characteristics of the visual language of Buddhist maṇḍalas at Dunhuang
