Tibetan Rituals of Death Margaret Gouin, 2012-09-10 This book describes and analyses the structure and performance of Tibetan Buddhist death rituals and situates that performance within the wider context of Buddhist death practices generally Drawing on a detailed and systematic comparative survey of existing records of Tibetan funerary practices including historical travel accounts anthropological and ethnographic literature Tibetan texts and academic studies it demonstrates that there is no standard form of funeral in Tibetan Buddhism although certain elements are common The structure of the book follows the twin trajectories of benefiting the deceased and protecting survivors in the process it reveals a rich and complex panoply of activities some handled by religious professionals and others by lay persons This information is examined to identify similarities and differences in practices and the degree to which Tibetan Buddhist funeral practices are consistent with the mortuary rituals of other forms of Buddhism A number of elements in these death rites which at first appear to be unique to Tibetan Buddhism may only be Tibetan in their surface characteristics while having roots in practices which pre date the transmission of Buddhism to Tibet Filling a gap in the existing literature on Tibetan Buddhism this book poses research challenges that will engage future scholars in the field of Buddhism Tibetan Buddhism and Anthropology

Conflict in a Buddhist Society Peter Schwieger, 2021-08-31 *Conflict in a Buddhist Society* presents a new way of looking at Tibet under the rule of the Dalai Lamas 1642 1959 Although this era can be clearly delineated as a distinct period in the history of Tibet many questions remain concerning the specific form of rule established Author Peter Schwieger attempts to make transparent the complexity and dynamics of the Dalai Lamas domination using the work of sociologist Niklas Luhman 1927 1998 as his theoretical starting point Luhman s systems theory allows Schwieger to

approach Tibetan history and culture as a remarkable effort to create under times of great conflict and stress and using uncommon means a stable social and political order Such a methodology provides the distance needed to move beyond event based narrative history and understand the structures that made social action possible in Tibet and the operations by which its society as a whole distinguished itself from its environment Schwieger begins by asking the crucial question of how Tibet's society dealt with conflict The chapters that follow answer this question from various perspectives history and memory domination hierarchy center and periphery semantics morality and ethics ritual law and war Each reveals a different avenue for cross cutting discourses in the historical and social sciences Together they provide a comprehensive picture of how conflicts were portrayed in Tibet society and how the manner in which they were handled stabilized the country for a considerable time but were ultimately unsuccessful in the face of radical upheavals in its environment Situated at the intersection of systems theory conflict theory and Tibetan Inner Asian history and society Conflict in a Buddhist Society will be of considerable interest to students and scholars in these areas Its theoretical rather than narrative descriptive approach to the history of the three centuries of Dalai Lama rule will be welcomed as wide ranging and insightful Steps toward a Tibetan Understanding of Purity James E. Morrison, 2025-03-27 Though of little concern to most westerners notions of what is considered clean and unclean pure and impure are of great importance to many cultures Both ritual and moral purity and impurity are significant concerns for Tibetan Buddhists and Buddhists at large being foundational to how they live their everyday lives Steps Towards a Tibetan Understanding of Purity provides a detailed analysis of Tibetan conceptions of purity and purification through a careful examination of salient Tibetan texts across a wide range of genres The practical applications of this study articulate ways to contextualize the good news of Jesus in a Tibetan Buddhist context with an emphasis on the gospel of purification Such an approach provides the reader with renewed impetus to share the gospel in meaningful and relevant ways to a Buddhist audience while also providing additional insights into the worldview of Tibetans

The Dawn of Tibet John Vincent Bellezza, 2014-08-29 This unique book reveals the existence of an advanced civilization where none was known before presenting an entirely new perspective on the culture and history of Tibet In his groundbreaking study of an epic period in Tibet few people even knew existed John Vincent Bellezza details the discovery of an ancient people on the most desolate reaches of the Tibetan plateau revolutionizing our ideas about who Tibetans really are While many associate Tibet with Buddhism it was also once a land of warriors and chariots whose burials included megalithic arrays and golden masks This first Tibetan civilization known as Zhang Zhung was a cosmopolitan one with links extending across Eurasia bringing it in line with many of the major cultural innovations of the Late Bronze Age and Iron Age Based on decades of research The Dawn of Tibet draws on a rich trove of archaeological textual and ethnographic materials collected and analyzed by the author Bellezza describes the vast network of castles temples megaliths necropolises and rock art established on the highest and now depopulated part of the Tibetan plateau He relates literary tales of priests and

priestesses horned deities and the celestial afterlife to the actual archaeological evidence providing a fascinating perspective on the origins and development of civilization The story builds to the present by following the colorful culture of the herders of Upper Tibet an ancient people whose way of life is endangered by modern development Tracing Bellezza's epic journeys across lands where few Westerners have ventured this book provides a compelling window into the most inaccessible reaches of Tibet and a civilization that flourished long before Buddhism took root

Death and Beyond in Ancient Tibet John Vincent Bellezza, 2013 This monograph brings to light the eschatological patterns and procedural constructs of death rites in ancient Tibet It is centered on documents written between circa 800 CE and 1100 CE which include an illuminated funerary manuscript of much rarity two death ritual texts recently recovered in southern Tibet from the Gathang Bumpa religious monument and several related manuscripts discovered in the Dunhuang grottoes a century ago This book builds upon previous efforts of the author to explicate the otherworldly dimension in early Tibetan religion and culture Many of the documents of this study were written in the Old Tibetan language and represent the oldest known literary sources for research into Tibetan funerary traditions The work is underpinned by annotated translations which are critically edited and painstakingly provided with Classical Tibetan word equivalents Each featured text is described in detail and subjected to a rigorous religious and historical analysis Other Tibetan literature that

supports the comprehension of the foundational texts of this study is also marshaled These textual assets complement one another by progressively revealing an indigenous belief system and praxis of great depth and intricacy The antiquated narrations and rituals concerning death presented in this book furnish a lucid view of cultural forms that circulated around Tibet before its religious universe became saturated with Buddhism and Buddhist influenced doctrines and practices Especially when seen through the lens of the archaeological record the sheer intellectual and material wealth borne in the archaic funerary traditions demonstrates that Tibet was endowed with culturally advanced societies in the time before the spread of Lamaism Bibliographies and indexes with glossary are appended to the main text
