The Tiger's Revenge Evan Morris, 2023-08-31 Since the end of the Second World War this audacious operation has remained little known amongst the public or military in the United Kingdom It was an incredible endeavour executed by British and Australian service personnel The deepest surface waterborne penetration behind enemy occupied lines undertaken by special forces of WW2 This hand picked band of men would achieve what some thought to be impossible a major strike at the very heart of the Japanese in their newly acquired Empire in South East Asia This story ranks

and deserves the same acknowledgment as exploits such as the Dambusters or Cockleshell Heroes In the words of British Generals and US Admirals and Commanders it achieved what everyone thought was impossible without loss and with the minimum expenditure of resources A terrible twist in the tail is that by not using the success of the mission as a propaganda victory as had been intended by Jaywick s commanders a terrible price was paid by local Singaporeans who were scapegoated by the Japanese Secret Police This is perhaps the reason that Operation Jaywick was never hailed with the success it truly deserved The highly effective delivery of Operation Jaywick gave a green light to an even more ambitious endeavour from which no British or Australian personnel would survive many being executed beheaded by their Japanese captors The Tiger s Revenge is the story told by the son of a Special Operations Executive crew member who was the only British survivor of Operation Jaywick

A Naturalist and Other Beasts George B. Schaller, 2010-05-04 Since the 1950s eminent field biologist George Schaller has roamed through many lands observing wild animals and conducting landmark long term studies that have deepened our understanding of these creatures He has reported and reflected on his work in classic much acclaimed books including The Last Panda and National Book Award winner The Serengeti Lion but much of his best writing has been ephemeral published in magazines only to drop out of sight This collection features 19 short pieces brought together in book form to offer a unique overview of his life in the field Chapters describe stalking tigers in India and jaguars in Brazil's Pantanal swamps studying mountain gorillas in Central Africa and predator prey relations in the Serengeti tracking newfound species on the wild border of Vietnam and Laos searching for snow leopards in the Hindu Kush and Schaller's groundbreaking work with giant pandas in Sichuan Later accounts broaden the focus from individual creatures to whole ecosystems The careless rapture of my early studies has been replaced more and more by efforts to protect animals and their habitats he writes New to this book are Schaller's introductions for each chapter which add and update information and an overall introduction that looks back on his remarkable career
