Tillyard Elizabethan World Picture:

The Elizabethan World Picture Eustace Mandeville Wetenhall Tillyard, 2011-06-01 This illuminating account of ideas of world order prevalent in the Elizabethan Age and later is an indispensable companion for readers of the great writers of the sixteenth and seventeenth centuries Shakespeare and the Elizabethan dramatists Donne and Milton among many others The basic medieval idea of an ordered Chain of Being is studied by Tillyard in the process of its various transformations by the dynamic spirit of the Renaissance Among his topics are Angels the Stars and Fortune the Analogy between Macrocosm and Microcosm the Four Elements the Four Humors Sympathies Correspondences and the Cosmic Dance ideas and symbols that inspired the imaginations not only of the Elizabethans but also of the Renaissance as such This idea of cosmic order was one of the genuine ruling ideas of the Elizabethan Age and perhaps the most characteristic Such ideas like our everyday manners are the least disputed and the least paraded in the creative literature of the time The province of this book is some of the notions about the world and man that were quite frequently taken for granted by the ordinary educated Elizabethan the commonplaces too familiar for the poets to make detailed use of except in explicitly educational passages but essential as basic assumptions and invaluable at moments of high passion The objective of *The Elizabethan World Picture* is to extract and explain the most ordinary beliefs about the constitution of the world as pictured in the Elizabethan Age and through this exposition to help the ordinary reader to understand and to enjoy the great writers of the age In attempting this Tillyard has brought together a number of pieces of elementary lore This classic text is a convenient factual aid to extant interpretations of some of Spenser Donne or Milton

War Pictures Kent Puckett, 2017-05-01 In this original and engaging work author Kent Puckett looks at how British filmmakers imagined war and sought to represent it during wartime through film The Second World War posed unique representational challenges to Britain's filmmakers Because of its logistical enormity the unprecedented scope of its destruction its conceptual status as total war and the way it affected everyday life through aerial bombing blackouts rationing and the demands of total mobilization World War II created new critical opportunities for cinematic representation Beginning with a close and critical analysis of Britain's cultural scene War Pictures examines where the historiography of war the philosophy of violence and aesthetics come together Focusing on three films made in Britain during the second half of the Second World War Michael Powell and Emeric Pressburger's *The Life and Death of Colonel Blimp* 1943 Laurence Olivier's *Henry V* 1944 and David Lean's *Brief Encounter* 1945 Puckett treats these movies as objects of considerable historical interest but also as works that exploit the full resources of cinematic technique to engage with the idea experience and political complexity of war By examining how cinema functioned as propaganda criticism and a form of self analysis War Pictures reveals how British filmmakers writers critics and politicians understood the nature and consequence of total war as it related to ideas about freedom and security national character and the daunting persistence of human violence While Powell and Pressburger Olivier and Lean developed deeply self conscious wartime films their specific and strategic use of cinematic eccentricity was an aesthetic response to broader contradictions that characterized the homefront in Britain between 1939 and 1945 This stylistic eccentricity shaped British thinking about war violence and commitment as well as both an answer to and an expression of a more general violence Although War Pictures focuses on a particularly intense moment in time Puckett uses that particularity to make a larger argument about the pressure that war puts on aesthetic representation past and present Through cinema Britain grappled with the paradoxical notion that in order to preserve its character it had not only to fight and to win but also to abandon exactly those old decencies those sporting club rules that it sought also to protect

Autonomous Nature Carolyn Merchant, 2015-08-27 Autonomous Nature investigates the history of nature as an active often unruly force in tension with nature as a rational logical order from ancient times to the Scientific Revolution of the seventeenth century Along with subsequent advances in mechanics hydrodynamics thermodynamics and electromagnetism nature came to be perceived as an orderly rational physical world that could be engineered controlled and managed Autonomous Nature focuses on the history of unpredictability why it was a problem for the ancient world through the Scientific Revolution and why it is a problem for

today The work is set in the context of vignettes about unpredictable events such as the eruption of Mt Vesuvius the Bubonic Plague the Lisbon Earthquake and efforts to understand and predict the weather and natural disasters This book is an ideal text for courses on the environment environmental history history of science or the philosophy of science **Ideological Approaches to Shakespeare** Robert P. Merrix, Nicholas Ranson, 1992 Part One Theory and Ideology Part Two Theory as Academic Practice Part Three Censorship and Teaching Practice Critical Dialogues Isobel Armstrong, Hans-Werner Ludwig, 1995 *Shakespeare - Henry V* Matthew Woodcock, 2008-06-25 Matthew Woodcock provides a survey of the critical responses to this popular play as well as the key debates and developments from the seventeenth century to the present day Leading the reader through material chronologically the Guide summarises and assesses key interpretations setting them in their intellectual and historical context *The Renaissance and the Postmodern* Thomas L Martin, Duke Pesta, 2016-05-05 The Renaissance and the Postmodern reconsiders postmodern readings of Renaissance texts by engaging in a dialectics the authors call comparative critical values Rather than concede the contemporary hierarchy of theory over literature the book takes the novel approach of consulting major Renaissance writers about the values at work in postmodern representations of early modern culture As criticism seeks new directions and takes new forms insufficient attention has been paid to the literary and philosophical values won and lost in the exchanges One result is that the way we understand the logical connections the literary textures and the philosophical impulses that make up the literature of writers like Spenser Shakespeare and Milton has fundamentally changed Examining theoretical debates now in light of polemical controversies then the book goes beyond earlier studies in that it systematically examines the effects of these newer critical approaches across their materialist historicist deconstructive and psychoanalytic manifestations Bringing gravity and focus to this question of critical continuities and discontinuities each chapter counterposes one major Renaissance voice with a postmodern one to probe these issues and with them the value of the cultural past As voices on both sides of the historical divide illuminate key differences between the Renaissance and the Postmodern a critical model emerges from the book to re engage this period s humane literature in a contemporary context with intellectual rigor and a renewed sense of cultural enrichment **Segmented Worlds and Self** Yi-fu Tuan, Emerson and Eros Len Gougeon, 2012-02-01 This critical biography traces the spiritual psychological and intellectual growth of one of America s foremost oracles and prophets Ralph Waldo Emerson 1803 1882 Beginning with his undergraduate career at Harvard and spanning the range of his adult life the book examines the complex often painful emotional journey inward that would eventually transform Emerson from an average Unitarian minister into one of the century s most formidable intellectual figures By connecting Emerson s inner life with his outer life Len Gougeon illustrates a virtually seamless relationship between Emerson s Transcendental philosophy and his later career as a social reformer a rebel who sought to unsettle all things in an effort to redeem his society In tracing the path of Emerson s evolution Gougeon makes use of insights by Joseph Campbell Erich Neumann Mircea Eliade and N O

Brown Like Emerson all of these thinkers directly experienced the fragmentation and dehumanization of the Western world and all were influenced both directly and indirectly by Emerson and his philosophy Ultimately this study demonstrates how Emerson s philosophy would become a major force of liberal reformation in American society a force whose impact is still felt today

Shakespeare and Social Theory Bradd Shore, 2021-08-23 This book provides a bridge between Shakespeare studies and classical social theory opening up readings of Shakespeare to a new audience outside of literary studies and the humanities Shakespeare has long been known as a great thinker and this book reads his plays through the lens of an anthropologist revealing new connections between Shakespeare s plays and the lives we now lead Close readings of a selection of frequently studied plays Hamlet The Winter s Tale Romeo and Juliet A Midsummer Night s Dream Julius Caesar and King Lear engage with the texts in detail while connecting them with some of the biggest questions we all ask ourselves about love friendship ritual language human interactions and the world around us The plays are examined through various social theories including performance theory cognitive theory semiotics exchange theory and structuralism The book concludes with a consideration of how the new astronomy of his day and developments in optics changed the very idea of perspective and shaped Shakespeare s approach to embedding social theory in his dramatic texts This accessible and engaging book will appeal to those approaching Shakespeare from outside literary studies but will also be valuable to literature students approaching Shakespeare for the first time or looking for a new angle on the plays
