Hung,Jia-Wei Chang,Yan Pei,Wei-Chen Wu,2022-01-04 This book comprises select proceedings of the 4th International Conference on Innovative Computing IC 2021 focusing on cutting edge research carried out in the areas of information technology science and engineering Some of the themes covered in this book are cloud communications and networking high performance computing architecture for secure and interactive IoT satellite communication wearable network and system infrastructure management etc The essays are written by leading international experts making it a valuable resource for researchers and practicing engineers alike **Disease Control Priorities, Third Edition (Volume 8)** Donald A. P. Bundy,Nilanthi de Silva,Susan Horton,Dean T. Jamison,2017-11-20 More children born today will survive to adulthood than at any time in history It is now time to emphasize health and development in middle childhood and adolescence developmental phases that are critical to health in adulthood and the next generation Child and Adolescent Health and Development explores the benefits that accrue from sustained and targeted interventions across the first two decades of life The volume outlines the investment case for effective costed and scalable interventions for low resource settings emphasizing the cross sectoral role of education This evidence base can guide policy makers in prioritizing actions to promote survival health cognition and physical growth throughout childhood and adolescence Urban Infrastructure Joseph Heathcott,Jonathan Soffer,Rae Zimmerman,2022-10-11 Urban Infrastructures creates space for an encounter between historians humanists and social scientists who seek new methodological approaches to the history of urban infrastructure It draws on recent work across history anthropology science and technology studies geography resilience sustainability and other disciplines to explore the social effects of infrastructure The volume rejects narrow conceptions of infrastructure history as only the history of public works and instead expands the definition to all business enterprises and public bodies that provide the goods and services essential for the day to day lives of most people Essays examine traditional artifacts such as roads highways and waterworks as well as nontraditional topics like regimes of heating and cooling the processing and distribution of food and even the metaphysics of electromagnetic infrastructure Contributors reveal both the material grounding of urban social relations and the social life of material infrastructure In the end they show that infrastructure profoundly reshapes urban life even as residents fight to reshape infrastructure to their own ends **Community Series: Police Trauma, Loss, and Resilience, volume II** Konstantinos Papazoglou,Michael David Schlosser ,Katy Kamkar,2024-05-17 Police work increases the risk of psychological work related injuries substantially As a result of repeated exposure to trauma police and first responders have more than twice the risk of developing Posttraumatic Stress Disorder PTSD when compared to the general population We often hear of

the impact of PTSD and depression on police officers health and overall functioning including on their work performance Both PTSD and depression are part of Operational Stress Injuries OSI which describe any persistent psychological difficulty that results from operational or service related duties Next to depression and PTSD OSI includes anxiety disorders substance use disorders injury and pain sleep disturbances and other conditions that may interfere with daily functioning Importantly factors frequently observed in police officers such as burnout moral injury and compassion fatigue present additional mental health issues further contribute to the maintenance and exacerbation of their psychological symptomatology thereby prolonging recovery and contributing to the chronicity of disability suffering and pain

Techniques of Hearing Michael Schillmeier, Robert Stock, Beate Ochsner, 2022-10-21 Hearing health and technologies are entangled in multi faceted ways This edited volume addresses this complex relationship by arguing that modern hearing was and is increasingly linked to and mediated by technological innovations By providing a set of original interdisciplinary investigations that shed new light on the history theory and practices of hearing techniques it is able to explore the heterogeneous entanglements of sound hearing practices technologies and health issues As the first book to bring together historians scholars from media studies social sciences cultural studies acoustics and neuroscientists the volume discusses modern technologies and their decisive impact on how normal hearing enhanced and smart hearing as well as hearing impairment have been configured It brings both new insights into the histories of hearing technologies as well as allowing us to better understand how enabling hearing technologies have currently been unfolding an increasingly hybrid ecology engaging smart hearing devices and offering stress free hearing and acoustic well being in novel auditory environments The volume will be of interest to all scholars and students of disability studies sound studies sociology of health and illness medical history health and society as well as those interested in the practices and techniques of self monitored and smart hearing
