Royalists, Radicals, and les Misérables Eric Martone, 2014-10-02 The year of 1832 marked a turning point in France as the country struggled to find its way in the wake of the French Revolution Following the Revolution of 1830 Legitimists supporters of the recently ousted Bourbon dynasty's claim to the throne continued to plot against King Louis Philippe and his July Monarchy In early 1832 after failing to launch a coup in Southern France Legitimists plotted an unsuccessful uprising in the Vendée a region in Western France that had supported the royalist cause during the French Revolution The Duchesse de Berry led the rebellion in the hopes of placing her son the Bourbon heir on the French throne The revolt marked the last attempt by the Bourbons to retake the throne by force and helped solidify the end of the Bourbon dynasty During the cholera outbreak which also spread throughout France in 1832 lower income areas suffered higher losses to the disease for they were more likely to have contaminated water supplies The lower classes spread rumors that the outbreak was an elitist plot to subdue the masses and the epidemic exacerbated class tensions Meanwhile conditions in

France continued to be characterized by violence during the early 1830s as Louis Philippe attempted to establish his regime's authority. The most significant of these uprisings was the republican dominated June Revolution of 1832. Victor Hugo and other contemporaries perceived the barricades of June as natural extensions of the cholera epidemic or the political continuation of a biological crisis. The sad fate of the uprising however prompted republicans to regroup and develop new strategies for success. As a whole then 1832 helped solidify the end of the Bourbon monarchy and class identities and was a crucial moment in the re organization and growing solidification of French republicanism that paved the way for the Revolution of 1848. This edited collection examines these three pivotal events in French history in 1832 a royal Legitimist uprising led by the Duchesse de Berry the cholera epidemic and the June Revolution featured in the climax of Hugo's novel *Les Misérables* within the context of the legacy of the French Revolution. While the events of 1832 are significant they have been relatively ignored because scholars have been distracted by the Revolutions of 1830 and 1848. This collection is the first piece of scholarship to examine these three events in an interconnected pattern to better examine France as it transitioned from a monarchy to a republic. As a result this collection will be of value to both historians and academics studying diverse subfields within French and European studies.

Tourism and Heritage: Shaping Sustainable and Innovative Futures Walter Leal Filho, Larbi Safaa, Dalia Perkumienė, Maria Alzira Pimenta Dinis, 2025-06-26

This book brings together multidisciplinary contributions from various academic and professional backgrounds addressing the challenges and opportunities of sustainable tourism. It focuses on diverse themes such as the management of intangible cultural heritage, responsible practices in the tourism sector, and technological innovations including artificial intelligence. This book provides a comprehensive view of the sector through a variety of perspectives taking into account environmental, social, economic, and legal aspects. This diversity allows for the exploration of complex issues such as the sustainable management of natural resources, the protection of tourists' personal data in a digital context, and partnerships between tourism actors and local communities for the preservation of cultural heritage. One key issue explored is the growing role of technology, including reflections on the use of artificial intelligence in combating tourism-related cybercrime. The contributions come from authors affiliated with a wide range of institutions representing internationally renowned organizations from regions as diverse as Europe (Belgium, Lithuania, Latvia, Hungary, France, Italy, Portugal, Spain) as well as Turkey, Africa (Morocco) and Asia (China). This geographic and institutional diversity enriches the discussion on sustainable practices and innovations in the tourism sector, integrating both local and global perspectives. The accessibility of public spaces and leisure services for tourists, as well as market segmentation, are also discussed. This book stands out for its interdisciplinary approach, combining theory and practice to provide researchers, tourism professionals, policymakers, and heritage managers with innovative tools and strategies. It offers concrete and ethical solutions for the development of sustainable tourism that respects the cultural and natural values of territories while addressing contemporary demands for social and environmental responsibility.

Senator Howard Cannon of Nevada Michael Verneti, 2015-11-15

Howard Cannon (1912–2002) represented Nevada in the U.S. Senate from 1958 until 1982 and acquired a reputation as one of its most productive and influential members. Because he was a modest man more comfortable with hard work than self-aggrandizement, he was also one of its most underappreciated. Nonetheless, Cannon influenced many major changes in American politics and policies during his time in office. Born to a devout Mormon family in a small farming community in southwest Utah, Cannon served in the Army Air Force during World War II and emerged from the war as a hero. Soon he was part of the postwar migration of ambitious, adventurous Americans to the booming desert city of Las Vegas, where he practiced law and entered local politics. In 1958 he was elected to the U.S. Senate and joined a group of influential young Democratic senators who were to play a major role in shaping the country's future. His service on the Aeronautical and Space Sciences Committee and the Armed Services Committee led to major changes in the air travel industry, including deregulation and to increased support for national military preparedness.
